

TABLE OF CONTENTS

ACKNOWLEDGEMENTS	5
I. INTRODUCTION AND STATEMENT OF HYPOTHESIS	9
II. BACKGROUND OF THE PROBLEM	12
The Importance of Steady State Formants for Perceptual Distinctions among Vowels	12
The Importance of Factors other than Steady State Formants for Perceptual Distinctions among Vowels	21
Summary	30
III. PROCEDURES	31
Procedure I for Preparation and Presentation of Stimuli	31
Procedure II for Preparation and Presentation of Stimuli	36
Additional Procedures	44
IV. CHARACTERISTICS OF INSTRUMENTATION AND SPEAKERS	47
Comparison of the Filter Systems	47
Formant Frequencies for Speakers	67
V. PRESENTATION AND DISCUSSION OF RESULTS	74
Identification of Unfiltered Stimuli	74
Identification of Filtered Stimuli	76
Special Points of Discussion	138
VI. SUMMARY	155
Procedures	155
Results and Conclusions	157
APPENDIXES	161
BIBLIOGRAPHY	207
