

| Preface | xi |
|--|------|
| About the Editors | xiii |
| List of Contributors | xv |
| Associations and societies for information systems professionals | 1 |
| Auditing information systems | 3 |
| Automated product identification using RFID (radio frequency identification) | 9 |
| Business intelligence and analytics | 15 |
| Business process management | 18 |
| Change management | 27 |
| COBOL | 32 |
| Computer ethics | 32 |
| Computer-supported cooperative work | 35 |
| Content management systems | 38 |
| Cross-culture issues in IS | 40 |
| Crowdsourcing | 43 |
| Customer relationship management | 45 |
| Database design | 51 |
| Decision support systems | 57 |
| Design science research | 60 |
| Diffusion of information technology innovations | 65 |
| Digital networks | 72 |
| Digital payments | 79 |
| E-commerce | 85 |
| E-government | 92 |
| E-learning | 102 |
| Electronic messaging | 109 |
| End-user computing | 113 |
| Enterprise architectures | 116 |
| Enterprise systems | 120 |
| Evaluation of information systems | 125 |

viii Contents

| Geographical information systems135Green information systems138Health information technology143Human computer interaction (HCI): interactivity immersion and invisibility |
|---|
| Health information technology 143 |
| |
| Luman computer interaction (HCI), interactivity immersion, and invisibility |
| Human-computer interaction (HCI): interactivity, immersion, and invisibility |
| as new extensions 144 |
| Information overload 151 |
| Information systems outsourcing 155 |
| Information systems security 159 |
| Innovation and information technology 167 |
| Integrated development environments (IDEs) 169 |
| Interorganizational systems 172 |
| IT governance 175 |
| IT leadership 179 |
| IT platforms 184 |
| IT professionals and the IT profession 186 |
| IT project failure: causes and response strategies 192 |
| IT project management 196 |
| IT standards 200 |
| Knowledge management 205 |
| Management of IT services 213 |
| Mctamodeling, ontology, and methodology engineering 218 |
| Metrics for assessment of information systems 222 |
| Mobile IT: applications and infrastructure 225 |
| Object orientation 231 |
| review of information technology value research: a triple-outcomes perspective 239 |
| Service delivery standards (ITIL, COBIT, eTOM, ISO/IEC 20000, etc.) 249 |
| Service science 253 |
| Shared services 255 |
| Social media introduction 258 |
| Social network services 263 |
| Software and programming languages 267 |
| Software as a service (SaaS) 272 |
| Software engineering 275 |
| Strategic use of IT 281 |
| Supply chain management 285 |
| Systems development 287 |
| Technology acceptance model and the unified theory of acceptance and use of technology 295 |
| The digital divide: its continued relevance 304 |

| | Contents | ix |
|----------------------------------|----------|-----|
| Ubiquitous and ambient computing | | 311 |
| Virtual worlds | | 315 |
| Web 2.0 | | 323 |
| Subject Index | | 329 |
