Contents

| Preface | v |
|---|-----|
| Moduli of continuity, isoperimetric profiles, and multi-point estimates in geometric heat equations BEN ANDREWS | 1 |
| Rigidity and minimizing properties of quasi-local mass Po-Ning Chen and Mu-Tao Wang | ·49 |
| Lojasiewicz inequalities and applications Tobias Holck Colding and William P. Minicozzi II | 63 |
| The regularity of solutions in degenerate geometric problems Panagiota Daskalopoulos | 83 |
| Algebraic families of constant scalar curvature Kähler metrics Simon Donaldson | 111 |
| Hermitian-Yang-Mills connections and beyond Jun Li | 139 |
| Interior a priori estimates for the Monge-Ampère equation JIAKUN LIU AND XU-JIA WANG | 151 |
| Dispersive geometric curve flows CHUU-LIAN TERNG | 179 |
| Regularity of stable minimal hypersurfaces: recent advances in the theory and applications NESHAN WICKRAMASEKERA | 231 |
