<b>Acknowledgments</b>	<i>ix</i>
<b>Social Interactional Methods: An Introduction</b>	<b>1</b>
<i>Robert B. Cairns</i>	
Social Development and Social Methodology	<i>1</i>
Conceptions of Social Interaction	<i>4</i>
Misconceptions of Social Interactions	<i>5</i>
What Is To Come	<i>8</i>
<b>PART I: DESIGN, TECHNIQUES, AND ANALYSIS</b>	<b>11</b>
<b>1. Interactional Designs</b>	<b>15</b>
<i>Ross D. Parke</i>	
Introduction	<i>15</i>
A Historical Overview	<i>15</i>
Some Recent Confusions of Terms in the Laboratory/Field Debate	<i>17</i>
The Field–Laboratory Distinction: A Continuum of Naturalness	<i>18</i>
Interrelationships Along the Continuum of Naturalness	<i>20</i>
Nonintervention Designs	<i>20</i>
Investigative–Controlled Manipulative Designs	<i>23</i>
Field Assessments as Adjuncts to Laboratory Manipulations	<i>28</i>
A Multistep Strategy for Studying Social Interaction	<i>29</i>
A Concluding Note	<i>30</i>

**2. Observing Interaction:**

**A Confrontation With Methodology 37**  
*Marian Radke Yarrow and Carolyn Zahn Waxler*

Introduction 37  
Some Perspectives and Assumptions About Behavior and  
Observing It 38  
Veridicality? Reliability? 39  
Levels of Coding 43  
The Behavior Sample 45  
Observer and Observed 55  
Observational Techniques in Research and  
Research on Techniques of Observing 63

**3. Behavioral Acts: Description, Classification,  
Ethogram Analysis, and Measurement 67**

*Marc Bekoff*

Introduction 68  
Observation and Description 68  
Ethogram Completeness Analyses 74  
The Physical Measurement of Behavioral Patterns 75  
Conclusion 78

**4. The Analysis of Behavior Sequences 81**

*N. John Castellan, Jr.*

Introduction 81  
The General Contingency Table 83  
An Interaction Analysis Model 90  
The Stability of Sequences of Events 92  
The Comparison of Interaction Tables 94  
The Analysis of Single Sequences 96  
Measurements of Association in Behavior Sequences 103  
Conclusion 111  
Appendix A: The Iterative Computation of the Chi-Square  
Statistic for Behavior-Based Transition Matrices 112  
Appendix B: The Asymptotic Standard Error of  $L_{AB}$  114

**PART II: ILLUSTRATIONS 117****5. A Performance Theory for  
Coercive Family Interaction 119***Gerald R. Patterson*

Introduction 119

Some Characteristics of a Performance Theory 120

Performance and Reinforcement Mechanisms 126

Variance Among Coercive Responses 140

Some Additional Facets of Coercion Processes 142

Experimental Manipulations 149

Discussion 157

**6. The Human Infant in Social Interaction 163***Carol O. Eckerman*

Introduction 163

Changes During the Second Year of Life in How

Infants React to Unfamiliar Peers 165

How "Social" Are the Peer-Related Behaviors? 169

Assessing Social Influence Between Infant Peers 171

**7. Play in Domestic Kittens 179***Meredith J. West*

Introduction 179

Construction of the Play Categories 181

Comparison to Other Object-Related Behaviors 184

Social Play in Kittens 185

Comparison of Social- and Object-Play Behaviors 188

Consequences of Play 190

Summary and Conclusions 192

**PART III: SUMMARY AND CONCLUSIONS 195****8. Toward Guidelines for Interactional Research 197***Robert B. Cairns*

Introduction 197

Proposed Guides 197

Concluding Comments 205

**PART IV: APPENDICES** 207

**Appendix A:**

**How to Assess Personality and Social Patterns:  
Observations or Ratings?** 209

*Robert B. Cairns and James A. Green*

Introduction 209

The Problem 209

Assumptions Underlying the Methods 210

Goals of the Methods 214

What Do Ratings and Observations Actually Measure? 217

Reliability, Unreliability, and Adaptation 220

Are the Procedures Dichotomous? 222

Some Conclusions 223

**Appendix B:**

**Note on Describing and Analyzing Interactional Data:  
Some First Steps and Common Pitfalls** 227

*Roger Bakeman, Robert B. Cairns, and Mark Appelbaum*

Introduction 227

Interactional Data Description and Analysis 228

Some Common Pitfalls 231

Concluding Comment 233

**Author Index** 235

**Subject Index** 241
