Preface	<i>page xi</i>
Acknowledgements	xvii

## PART I: THE TASK

1 Point of View	3
<i>Some characteristics of the present approach</i>	5
<i>Theories of motivation</i>	13
<i>Note on the concept of feedback in Freud's theorising</i>	22
2 Observations to be Explained	24

## PART II: INSTINCTIVE BEHAVIOUR

3 Instinctive Behaviour: An Alternative Model	37
<i>Introduction</i>	37
<i>Some principles of control systems</i>	41
<i>Control systems and instinctive behaviour</i>	44
<i>Adaptation: system and environment</i>	50
<i>Note on literature</i>	56
4 Man's Environment of Evolutionary Adaptedness	58
5 Behavioural Systems Mediating Instinctive Behaviour	65
<i>Types of behavioural system</i>	65
<i>Co-ordination of behavioural systems</i>	74
<i>Higher processes of integration and control</i>	80
6 Causation of Instinctive Behaviour	85
<i>Activation and termination of behavioural systems</i>	85
<i>Incompatible behavioural systems: results of simultaneous activation</i>	97
<i>Sensory input and its transformation</i>	102
7 Appraising and Selecting: Feeling and Emotion	104
<i>Introduction</i>	104
<i>Philosophical problems</i>	106
<i>Processes that are felt</i>	109

## CONTENTS

<i>Is feeling or emotion causative of behaviour?</i>	116
<i>The communicative role of feeling and emotion</i>	120
8 Function of Instinctive Behaviour	124
<i>Functions of behavioural systems and other consequences of their activity</i>	124
<i>Problems of terminology</i>	133
9 Changes in Behaviour during the Life-cycle	141
10 Ontogeny of Instinctive Behaviour	145
<i>Changes that occur during the ontogeny of behavioural systems</i>	145
<i>Restriction of range of effective stimuli</i>	147
<i>Elaboration of primitive behavioural systems and their supersession by sophisticated systems</i>	152
<i>Integration of behavioural systems into functional wholes</i>	157
<i>Sensitive periods of development</i>	161
<i>Imprinting</i>	166
<i>Comparison of old and new theories of instinctive behaviour</i>	172
PART III: ATTACHMENT BEHAVIOUR	
11 The Child's Tie to his Mother: Attachment Behaviour	177
<i>Alternative theories</i>	177
<i>Attachment behaviour and its place in nature</i>	180
<i>Attachment behaviour in sub-human primates</i>	184
<i>Attachment behaviour in man</i>	198
12 Nature and Function of Attachment Behaviour	210
<i>The theory of secondary drive: origin and present status</i>	210
<i>The question of imprinting</i>	220
<i>Function of attachment behaviour</i>	223
<i>A note on terminology: 'dependence'</i>	228
<i>Attachment and other systems of social behaviour</i>	230
13 A Control Systems Approach to Attachment Behaviour	235
<i>Introduction</i>	235
<i>The roles of child and of mother in mother-child interaction</i>	236
<i>Forms of behaviour mediating attachment and their organisation</i>	244
<i>Behaviour typical of two-year-olds in different situations</i>	252
<i>Activation and termination of systems mediating attachment behaviour</i>	257

## CONTENTS

### PART IV: ONTOGENY OF HUMAN ATTACHMENT

14	Beginnings of Attachment Behaviour	265
	<i>Phases in the development of attachment</i>	265
	<i>Behavioural equipment of the human neonate</i>	268
	<i>Early responses to people</i>	271
	<i>Nature and nurture</i>	296
15	Focusing on a Figure	299
	<i>Introduction</i>	299
	<i>Patterns of differentially directed behaviour</i>	300
	<i>Figures towards whom attachment behaviour is directed</i>	303
	<i>Processes leading to selection of figures</i>	313
	<i>Sensitive phases and the fear of strangers</i>	321
	<i>Spitz's position: a critique</i>	327
16	Patterns of Attachment and Contributing Conditions	331
	<i>Problems to be solved</i>	331
	<i>Criteria for describing patterns of attachment</i>	333
	<i>Some patterns of attachment seen at the first birthday</i>	335
	<i>Conditions of the first year contributing to variation</i>	339
	<i>Persistence and stability of patterns</i>	347
17	Developments in the Organisation of Attachment Behaviour	350

### APPENDIX

	The Child's Tie to his Mother: Review of the Psycho-analytical Literature	361
	References	379
	Author Index	403
	Subject Index	409
