<b>1</b>	<b>THE NATURE AND USE OF TESTING</b>	<b>1</b>
	<i>What Is a Test?</i> 2	
	A systematic procedure <input type="checkbox"/> A representative sample <input type="checkbox"/> The measurement of a person's behavior	
	<i>How Did Testing Develop?</i> 4	
	<i>How Are Tests Used?</i> 5	
	The need to describe people <input type="checkbox"/> The need to make predictions about people <input type="checkbox"/> Clinical use of tests <input type="checkbox"/> Educational and academic uses of tests <input type="checkbox"/> Research use of tests	
	<i>How Are Tests Evaluated?</i> 9	
	Norms, reliability, and validity <input type="checkbox"/> Finding test information and selecting a test	
<b>2</b>	<b>SOCIAL AND ETHICAL CONCERNS IN TESTING</b>	<b>12</b>
	<i>Problems and Issues in Test Development</i> 12	
	<i>Limits on Test Availability</i> 15	
	<i>Ethics in Assessment</i> 15	
	Protection of privacy <input type="checkbox"/> Confidentiality	
	<i>Issues in Testing Specific Groups</i> 21	
	Testing and social issues <input type="checkbox"/> Testing and employment	
	<i>Recent Developments and Future Concerns</i> 23	
	Clinical versus statistical prediction <input type="checkbox"/> Issues in computer use	
	<i>Overview</i> 25	
<b>3</b>	<b>STATISTICAL CONCEPTS: DESCRIBING GROUP AND INDIVIDUAL SCORES</b>	<b>26</b>
	<i>Scales of Measurement</i> 27	
	Nominal <input type="checkbox"/> Ordinal <input type="checkbox"/> Interval <input type="checkbox"/> Ratio <input type="checkbox"/> Ordinal versus interval: The measurement scale dilemma	

	<i>Frequency Distributions: The Total Picture</i>	29
	The frequency distribution □ The frequency polygon □ The frequency histogram	
	<i>Measures of Central Tendency: Describing the Typical Person</i>	33
	<i>Measures of Variability: The Spread of the Scores</i>	35
	Range □ Overview of sum of squares, variance, and standard deviation □ Sum of squares □ Variance □ Standard deviation □ The standard deviation and the normal curve	
	<i>Skewness and Kurtosis: The Telltale Bulges</i>	39
	<i>Standard Scores, Percentiles, and Norms: A Score of One's Own</i>	42
	Standard scores □ Percentiles □ Percentile ranks versus standard scores □ Norms	
<b>4</b>	<b>CORRELATION AND RELIABILITY</b>	<b>47</b>
	<i>The Pearson Product-Moment Correlation Coefficient</i>	48
	Displaying the Pearson $r$ □ Computing the Pearson correlation □ Interpreting the correlation coefficient	
	<i>The Meaning of Reliability</i>	57
	Defining reliability □ Methods for estimating reliability □ Restriction of range and reliability □ The standard error of measurement □ Guidelines for evaluating the reliability of a test	
	<i>Overview</i>	69
<b>5</b>	<b>VALIDITY</b>	<b>71</b>
	<i>Strategies for Validating a Test</i>	72
	Criterion-related validity □ Content validity □ Construct validity	
	<i>Some Final Words</i>	82
<b>6</b>	<b>INTELLIGENCE TESTING</b>	<b>84</b>
	<i>The Definition of Intelligence</i>	86
	Intelligence as a descriptive concept □ Intelligence as a composite of abilities	

	<i>Individual Intelligence Tests</i>	92	
	The Stanford-Binet intelligence scale	<input type="checkbox"/>	The Wechsler scales
	The Kaufman Assessment Battery for Children	<input type="checkbox"/>	
	<i>Group Tests of Intelligence</i>	102	
	Advantages of group intelligence tests	<input type="checkbox"/>	Disadvantages of group intelligence tests
<b>7</b>	<b>ISSUES IN INTELLIGENCE TESTING</b>		<b>105</b>
	<i>The IQ Score: The Stability Issue</i>	106	
	IQ scores: The stable viewpoint	<input type="checkbox"/>	IQ scores: The not-so-stable viewpoint
	Overview	<input type="checkbox"/>	
	<i>Intelligence: The Inheritability Issue</i>	108	
	Intelligence: Inherited	<input type="checkbox"/>	Intelligence: Acquired
	Overview	<input type="checkbox"/>	
	<i>Assessing Intelligence: A Not-So-Final Word</i>	113	
<b>8</b>	<b>SPECIFIC ABILITY AND SITUATIONAL ASSESSMENT</b>		<b>115</b>
	<i>Specific Ability Testing</i>	115	
	The characteristics of ability assessment		
	<i>Specific Ability Tests</i>	117	
	The Differential Aptitude Tests	<input type="checkbox"/>	Other specific ability batteries
	Overview	<input type="checkbox"/>	
	<i>Situational Methods of Assessment</i>	122	
	Situational assessment	<input type="checkbox"/>	In-basket testing
	Unobtrusive measures	<input type="checkbox"/>	
	Evaluating situational assessment	<input type="checkbox"/>	
<b>9</b>	<b>ACHIEVEMENT AND CLASSROOM TESTING</b>		<b>126</b>
	<i>Achievement Testing</i>	126	
	Achievement versus aptitude tests	<input type="checkbox"/>	Uses of achievement tests
	Achievement test batteries	<input type="checkbox"/>	
	<i>The Classroom Test</i>	131	
	Uses	<input type="checkbox"/>	Content
	Types of test items	<input type="checkbox"/>	
	<i>Administering, Scoring, and Analyzing the Classroom Test</i>		136
	Test administration	<input type="checkbox"/>	Test scoring
	Test and item analysis	<input type="checkbox"/>	

	<i>Norm-Referenced and Criterion-Referenced Scores</i>	141
	Norm-referenced scores □ Criterion-referenced scores	
	<i>Overview</i>	144
<b>10</b>	<b>PERSONALITY ASSESSMENT</b>	<b>146</b>
	<i>Personality Theories and Personality Assessment</i>	146
	<i>Approaches to Personality Assessment</i>	148
	<i>Self-Report Methods</i>	149
	The trait model of personality □ Historical perspective □ Minnesota Multiphasic Personality Inventory (MMPI) □ California Psychological Inventory (CPI) □ Other representative self-report measures	
	<i>Projective Methods</i>	156
	The psychoanalytical model of personality □ Historical perspective □ The Rorschach Inkblot method □ The Thematic Apperception Test (TAT) □ Other representative projective techniques	
	<i>Overview of Personality Assessment</i>	164
<b>11</b>	<b>THE MEASUREMENT OF INTERESTS</b>	<b>166</b>
	<i>Interest Testing in Perspective</i>	169
	<i>The Strong-Campbell Interest Inventory</i>	170
	The Strong Vocational Interest Blank □ The SCII revision	
	<i>The Kuder Interest Inventories</i>	176
	The Kuder Vocational Preference Record □ The Kuder Occupational Interest Survey	
	<i>The Jackson Vocational Interest Survey</i>	178
	<i>The Self-Directed Search</i>	180
	<i>Measuring Non-College Related Interests</i>	180
	The Minnesota Vocational Interest Inventory	
	<i>Just a Closing Note</i>	181
<b>12</b>	<b>TESTING: ITS PRESENT AND FUTURE</b>	<b>183</b>
	<i>School Testing Programs</i>	184
	Decision-making □ The Russell Sage Survey of Teachers and Testing □ Concerns in school testing	

*Decision-Making in Business and Industry* 191  
Tests and legal issues □ The Equal Employment Opportunity Act of  
1972 □ Test use versus test misuse  
*Some Final Words* 195
