## *Part One: Genetic Psychology*

<b>1. Problems in the Use of the Rorschach Technique with Children</b>	<b>3</b>
BRUNO KLOPFER, JACK FOX, EVELYN TROUP	
Problems of Methodology	3
Problems of Administration	12
Problems of Scoring	18
<b>2. The Interpretation of Children's Records</b>	<b>22</b>
BRUNO KLOPFER, MARVIN SPIEGELMAN, JACK FOX	
Preliminary Considerations	22
Current Trends in Interpretation	24
The Development of Concept Formation	26
<b>3. Rorschach Reactions and Child Therapy: A Case Study</b>	<b>45</b>
MARVIN SPIEGELMAN, BRUNO KLOPFER	
Case-History, Test Behavior, and Points from Other Tests	46
Psychotherapy Summary	47
First Rorschach	49
Second Rorschach	75
Conclusion	85
	xv

<b>4. The Psychological Significance of Age Patterns in the Rorschach Records of Children</b>	88
JACK FOX	
The Magic-Wand Perseveration (Age Two to Four)	89
The Confabulation (Age Three to Five)	93
The Confabulatory Combination (Age Four to Six)	95
<b>5. The Development of Perception in the Rorschach</b>	104
GERTRUDE MEILI-DWORETZKI	
Perceptual Development in Reactions to the Ambiguous Figures	108
Perceptual Development in Rorschach Reactions	116
Conclusions	171
<b>6. The Use of the Rorschach Technique in Child Guidance Clinics</b>	177
DOROTHY V. ANDERSON, EILEEN HIGHAM	
A Survey of the Use of the Rorschach in Child Guidance Clinics	180
<b>7. The Application of the Rorschach Technique to Geriatrics</b>	195
WALTER G. KLOPFER	
Preliminary Considerations	195
Review of Standardization Studies	197
Differential Diagnosis within the Aged Period	202
The Applications of Rorschach Findings on the Aged Population	210

*Part Two: Medical Psychology*

<b>8. The Clinical Situation</b>	215
BRUNO KLOPFER	
Case 1	216

<i>Contents</i>	xvii
Case 2	236
Case 3	245
<b>9. Methodological Research Problems</b>	<b>267</b>
BRUNO KLOPFER, MARVIN SPIEGELMAN	
Classification and Scoring	267
Problems of Validity and Reliability	270
Phenomenological Approach	275
<b>10. Differential Diagnosis</b>	<b>281</b>
BRUNO KLOPFER, MARVIN SPIEGELMAN	
Perceptual and Conceptual Disturbances of Thought Processes	282
Characteristics of Affective Functioning	290
Schema of Diminishing Ego Strength	312
Concluding Note	317
<b>11. Diagnosis of Organic Brain Damage in the Adult</b>	<b>318</b>
GERTRUDE BAKER	
Selection of Literature	319
Background Essentials for the Psychologist	321
Theories Regarding Brain Functioning	324
Physiological and Mechanical Considerations in Brain Damage	332
Psychogenic Symptoms and Personality Change in the Brain	
Injured	334
Psychological Testing for Diagnosis of Brain Damage	339
Use of the Rorschach Test in the Diagnosis of Brain Injury	359
Conclusion	371
<b>12. Diagnostic Case Studies of Male Adults Having Organic Brain Damage</b>	<b>376</b>
GERTRUDE BAKER	
Case 1	377
Case 2	385

Case 3	392
Case 4	402
Case 5	408
Case 6	417

*Part Three: Social Psychology, Anthropology, and  
Industrial Psychology*

**13. The Rorschach Technique in Social Psychology** 431

MARVIN SPIEGELMAN

Published Research	432
Areas for Research	445

**14. The Rorschach Technique in Personality and Culture Studies** 458

A. IRVING HALLOWELL

Group Membership and Personality Structure	459
Confusion of Culture and Race in Rorschach Research	463
Behavioral Environment and Personality Structure	470
Criteria for Personality Tests Useful in Anthropological Research	474
Cultural Variables, Perception, and the Rorschach	476
The Universal Applicability of the Rorschach	484
Comparative Productivity in Different Cultures	488
Content Categories in Cross-Cultural Perspective	492
<i>M</i> Responses and Affective Values	499
Popular Responses in Cross-Cultural Perspective	502
Integration of Culture, Perception, and Personality Structure and Rorschach Validity	511
Complementary Nature of Psychological and Anthropological Frames of Reference	517
The Rorschach in the Study of Culture Change	519
Psychological Characterization and Comparison of Groups	522
Future Prospects	533

**15. The Rorschach Technique in Industrial Psychology** 545

GERTHA WILLIAMS, SAMUEL KELLMAN

Individualized Rorschach Technique 549

The Group Rorschach 551

The Multiple-Choice Rorschach 554

Other Recent Forms and Techniques 555

Critique of Theory and Practice in Current Vocational Applications of the Several Rorschach Techniques 555

Implications for the Vocational Field of the Use of Clinico-Deductive Methods 568

Implications for Research of the Clinico-Deductive Approach in Vocational Processes 572

**16. Top Management and the Rorschach Technique** 582

ROBERT F. SNOWDEN

The Clinical-Industrial Psychological Approach 582

Some Applications of the Rorschach in the Field 584

Some Further Avenues of Inquiry 591

*Part Four: Diagnostic Practice and Projective Theory*

**17. Some Relationships Between the Rorschach Technique and Other Psychodiagnostic Tests** 595

EDWIN S. SHNEIDMAN

Experimental Studies 597

Points of View 609

Clinical Example 620

Some Theoretical Considerations 637

**18. A Re-evaluation of Projective Theory** 643

HEDDA BOLGAR

The "Private World" 645

The Unstructured Stimulus	651
Conclusions	656

## **Bibliography**

MARIE D. STEIN

<i>Part One: Alphabetical Bibliography to 1945</i>	661
<i>Part Two: Classified Bibliography, 1945–1955</i>	692
I. General works: Manuals, Administration, Scoring and Test Situation	692
II. Interpretation: Quantitative Analysis, Qualitative Analysis, and Analysis of Content	705
III. Problems of Validity and Reliability	715
IV. Genetic Psychology	727
V. Medical Psychology	738
VI. Social Psychology	768

## **Cumulative Indexes, Volumes I and II**

MARY D. AINSWORTH

Index of Names	779
Index of Subject Matter	800
