

# *Contents*

## **PART ONE**

### **The Nature, Classification, and Assessment of Intelligence**

- |  |     |
|--|-----|
| 1. The Nature of Assessment. . . . .                                     | 3   |
| 2. The Nature of Intelligence: Some Historical Background. . . . .       | 24  |
| 3. The Definition of Intelligence: An Unending Search. . . . .           | 63  |
| 4. Mental Age, IQ, Deviation Scores, and Changes in IQ with Age. . . . . | 91  |
| 5. The Classification of Intelligence. . . . .                           | 121 |

## **PART TWO**

### **Some Early and Modern Approaches to Validation**

- |   |     |
|---|-----|
| 6. The Concept of Mental Retardation. . . . .                 | 137 |
| 7. The Concepts of Average and Superior Intelligence. . . . . | 156 |

## **PART THREE**

### **The Wechsler-Bellevue and the Wechsler Adult Intelligence Scales**

- |  |     |
|--|-----|
| 8. Selection and Description of Tests. . . . .                 | 193 |
| 9. Populations Used in 1939 and 1955 Standardizations. . . . . | 220 |
| 10. Basic Data and Test Results. . . . .                       | 228 |

**PART FOUR****Additional Approaches to Validation and  
Some Applications in Practice**

|   |     |
|---|-----|
| 11. Factorial Structure of the W-B I and WAIS.....                                  | 261 |
| 12. Validity Indices, Exemplars, and Correlates of Intelligence Test<br>Scores..... | 277 |
| 13. Brain-Behavior Relationships as Expressed in the Wechsler<br>Scales.....        | 377 |
| 14. Personality and Related Correlates of the Wechsler Scales.....                  | 428 |
| 15. Qualitative Diagnostic and Clinical Features of the Wechsler<br>Scales.....     | 481 |
| Index.....  | 549 |
