Preface	ix
Introduction	1
1 The theory and practice of Processing Instruction	5
Part 1: Theory	5
Part 2: Practice	14
2 Processing Instruction research: foci and findings	33
1 The Processing Problems	34
2 The Effects of PI, TI and MOI	39
3 The Relative Effects of the Components of PI (EI and SI)	45
Conclusions	48
3 The effects of structured input activities on the acquisition of two Japanese linguistic features	49
Background	49
Design	51
Results	55
Discussion and Conclusion	61
Appendix A: SI for past tense	63
Appendix B: SI for affirmative vs. negative in present tense forms	64
Appendix C: Explicit information and output practice for TI – past tense	65
Appendix D: Explicit information and output practice for TI – affirmative vs. negative in present tense forms	66
Appendix E: Assessment tasks for the past tense	67
Appendix F: Assessment tasks for the affirmative vs. negative present tense	69

4	Comparing three modes of delivering Processing Instruction on preterite/imperfect distinction and negative informal commands in Spanish, with Jorge Aguilar-Sánchez and Erin M. McNulty	73
	Review of literature	74
	Research Questions	75
	Research Design and Methodology	76
	Materials	78
	Assessments	82
	Results	83
	Discussion and Conclusion	91
	Conclusion	93
	Appendix A Explanation: Preterite/Imperfect Distinction	94
	Appendix B Sample Activity: Computer Environment, Preterite/Imperfect Distinction	96
		96
	Appendix C Assessment Task: Preterite/Imperfect Distinction	97
5	Comparing modes of delivering Processing Instruction and meaning-based output instruction on Italian and French subjunctive	99
	Background	100
	Research evidence contrasting PI and MOI	103
	Motivation for the present study	106
	Research Questions	106
	Design	107
	Results	114
	Discussion and Conclusion	121
	Appendix A	124
	Appendix B	125
	Appendix C	126
	Appendix D	130
	Appendix E	133
	Appendix F	135

6	Summary, conclusions, and recommendations for the practice of PI	137
	Our findings in the larger research context	137
	Conclusions	144
	References	153
	Index	159
