Editorial Foreword	7
1 Introduction	9
Theories of psychiatric disorders	13
Psychodynamic theories	15
Learning theories	18
Treatment	19
Behavior therapy	24
2 Principles of Conditioning and Learning	27
Classical conditioning	28
Instrumental conditioning	30
Comparison of classical and operant conditioning	33
Main variables affecting learning	34
Theories of learning	39
Extinction	43
Summary	46
3 Learning Theory Formulations of Psychiatric Disorder	49
4 Theory and Methods of Treatment	83
Conditioning of incompatible responses	83
Negative practice	106
Flooding (implosive) therapy	108
Operant conditioning	111
Conclusions	119
5 The Efficacy of Behavior Therapy	123
Range of applicability	123
Efficacy of behavior therapy	125

6	Current Research I: The Specific Processes of Psychological Treatment	155
	Experimental studies of desensitization, flooding and imitation	156
	Experimental studies of conditioning in enuresis	183
	Aversion therapy	187
	Operant conditioning	192
7	Current Research II: Cognition and Non-Specific Processes of Psychological Treatment	197
8	Clinical Application of Behavior Therapy	213
	Selection of patients for behavior therapy	214
	Choice of method of treatment	221
	General problems encountered in treatment	230
9	Conclusion: Behavior Therapy – Present Status and Prospects	235
	Present status	235
	Research	237
	Training of behavior therapists	238
	Administration of behavior therapy units	240
	References	243
	Author Index	274
	Subject Index	280
