| Introduction and caveats: the notion 'Old English' | | 1 |
| A note on handbooks | | 5 |
| Part I: Historical prelude | | |
| 1 Background and origins | | 9 |
| 1.1 History in linguistic description | | 9 |
| 1.2 Indo-European and Germanic | | 10 |
| 1.3 The attestation of Germanic | | 12 |
| 1.4 Classification of the Germanic languages | | 13 |
| 2 Indo-European to Proto-Germanic to West Germanic | | 17 |
| 2.1 Germanic: an innovation cluster | | 17 |
| 2.2 Formation of the PGmc vowel system | | 18 |
| 2.3 The IE consonants: Grimm's Law | | 19 |
| 2.4 The Accent Shift and Verner's Law | | 21 |
| 2.5 Recapitulation: PGmc phonological systems | | 24 |
| 2.6 Some further remarks on PGmc phonology | | 24 |
| 2.7 Features of Northwest Germanic | | 25 |
| 2.8 West Germanic | | 27 |
| Part II: Old English Phonology | | |
| 3 Evolution of Old English phonology: the major early sound changes | | 33 |
| 3.1 Sound change and linguistic structure | | 33 |
| 3.2 West Germanic Gemination | | 34 |
| 3.3 Pre-nasal vowels in Ingvaemonic and Anglo-Frisian | | 38 |
| 3.4 West Germanic */ɑ:/ and */ɑi/ in Ingvaemonic | | 39 |

| | | |
|--|---|-----|
| 3.5 | Anglo-Frisian Brightening, Restoration of [α] and the /æ:/α/ opposition | 41 |
| 3.6 | Diphthongs old and new: Breaking and related processes | 45 |
| 3.6.1 | 'Long' and 'short' diphthongs | 45 |
| 3.6.2 | Breaking, retraction and Diphthong Height Harmony | 48 |
| 3.6.3 | Back umlaut | 51 |
| 3.6.4 | Morphophonemic effects of diphthongization | 52 |
| 3.7 | Palatalization | 53 |
| 3.8 | <i>I</i> -umlaut | 59 |
| 3.8.1 | From allophonic rule to phonemic contrast | 59 |
| 3.8.2 | <i>I</i> -umlaut in detail | 64 |
| 3.8.3 | <i>I</i> -umlaut and Old English morphology | 70 |
| 3.9 | The fricatives: voicing, devoicing, hardening and deletion | 71 |
| 3.9.1 | OE /f, θ, s/ | 71 |
| 3.9.2 | The velars | 74 |
| 3.9.3 | Fricative hardening and its consequences | 76 |
| 3.9.4 | Appendix: 'Palatal Diphthongization' | 78 |
| | | |
| 4 | Suprasegmentals | 83 |
| 4.1 | Suprasegmentals | 83 |
| 4.2 | Germanic stress and Old English stress | 84 |
| 4.2.1 | Stress rules and 'degrees of stress' | 84 |
| 4.2.2 | The Germanic Stress Rule | 87 |
| 4.2.3 | Old English stress | 91 |
| 4.3 | Major developments in weak syllables | 95 |
| 4.3.1 | Final reduction and loss | 95 |
| 4.3.2 | High Vowel Deletion and medial syncope | 98 |
| | | |
| Part III: Morphophonemic intermezzo | | |
| 5 | Ablaut, the laryngeals and the IE root | 105 |
| 5.1 | The basic alternations | 105 |
| 5.2 | The conditioning of ablaut | 107 |
| 5.3 | The laryngeals: 'Irregular' ablaut regularized and a new look for IE root-structure | 109 |
| 5.4 | Roots and extensions | 114 |
| 5.5 | Zero-grade revisited | 116 |
| 5.6 | Appendix: consonantal alternations | 118 |
| | | |
| Part IV: Morphology, lexis and syntax | | |
| 6 | Inflectional morphology, I: nouns, pronouns, determiners and adjectives | 123 |
| 6.1 | The noun | 123 |
| 6.1.1 | Root vs. stem, thematic vs. athematic | 123 |
| 6.1.2 | IE noun-inflection: gender, number, case | 126 |

| | | |
|--|--|------------|
| 6.1.3 | The major noun classes | 129 |
| 6.1.4 | A note in retrospect | 138 |
| 6.2 | Pronouns and determiners | 139 |
| 6.2.1 | Personal pronouns | 139 |
| 6.2.2 | 'Definite article'/demonstrative | 142 |
| 6.2.3 | Interrogative pronouns | 145 |
| 6.3 | The adjective | 146 |
| 6.3.1 | The basic inflections | 146 |
| 6.3.2 | Comparison | 149 |
| 7 Inflectional morphology, II: The verb | | 151 |
| 7.1 | Historical preliminaries | 151 |
| 7.2 | The strong verb | 153 |
| 7.2.1 | Ablaut in the strong verb, classes I–V | 153 |
| 7.2.2 | The strong verb, classes VI–VII | 158 |
| 7.2.3 | The strong past participle | 161 |
| 7.2.4 | <i>Infinitive and present participle (strong and weak)</i> | 162 |
| 7.3 | The weak verb | 164 |
| 7.3.1 | The weak preterite suffix and past participle | 164 |
| 7.3.2 | The weak verb classes | 166 |
| 7.4 | Preterite presents and minor verb types | 169 |
| 7.4.1 | Preterite presents | 169 |
| 7.4.2 | Athematic root verbs and 'to be' | 170 |
| 7.5 | Person/number/mood inflection | 172 |
| 7.5.1 | The strong verb | 172 |
| 7.5.2 | The weak verb: present system | 174 |
| 7.5.3 | The weak verb: preterite | 176 |
| 8 Vocabulary and word-formation | | 178 |
| 8.1 | The PGmc lexicon | 178 |
| 8.2 | Loans in Old English | 183 |
| 8.2.1 | Latin | 183 |
| 8.2.2 | Scandinavian | 186 |
| 8.2.3 | Celtic and French | 189 |
| 8.3 | Word-formation | 190 |
| 8.3.1 | Typology and productivity | 190 |
| 8.3.2 | Compounding | 194 |
| 8.3.3 | Derivation | 198 |
| 8.4 | Names, adverbs and numerals | 205 |
| 8.4.1 | Proper names | 205 |
| 8.4.2 | Adverbs | 207 |
| 8.4.3 | Numerals | 208 |
| 9 Topics in OE historical syntax: word-order and case | | 216 |
| 9.1 | Reconstructed syntax? | 216 |
| 9.2 | Basic constituent order | 217 |
| 9.3 | The clausal brace and verb-second order | 224 |

| | | |
|-------|--|-----|
| 9.4 | The syntax of the OE cases in historical perspective | 228 |
| 9.4.1 | Overview: form, function and syncretism | 228 |
| 9.4.2 | Historical persistence or natural semantics? IE remains in OE case syntax | 234 |

Part V: Historical postlude

| | | |
|------|---|-----|
| 10 | The dissolution of Old English | 243 |
| 10.1 | Stasis, flux, transition | 243 |
| 10.2 | Monophthongization and merger | 246 |
| 10.3 | The new diphthongs | 247 |
| 10.4 | Quantity adjustment | 249 |
| 10.5 | Weak vowel collapse and the new morphology | 250 |
| | <i>Glossary</i> | 253 |
| | <i>References</i> | 272 |
| | <i>Index of names</i> | 281 |
| | <i>Subject index</i> | 283 |
| | <i>Index of Old English words and affixes</i> | 290 |
