Volume 1

Section 1: Definitions and Classifications of Epilepsies 1

Anne T. Berg

1 Definitions and Classifications of Epilepsies: Overview 3

Anne T. Berg

2 Epilepsies 5

Anne T. Berg

3 Epileptic Seizures 11

Jerome Engel, Jr.

4 Epileptic Syndromes 17

Jeffrey R. Buchhalter

Section 2: Historical Aspects of Epilepsies 23

Thalia Valeta

5 Historical Aspects of Epilepsy: Overview 25

Thalia Valeta

6 Medical Aspects of the History of Epilepsy 27

Peter F. Bladin · Mervyn J. Eadie

7 Sociocultural History of Epilepsy 35

Peter Wolf

Section 3: Epidemiology of Epilepsies 45

Anne T. Berg

8 Epidemiology of Epilepsies: Overview 47

Anne T. Berg

9 Epidemiology of Epilepsies in Developed Countries 51

Christine Linehan · Mike Kerr

10 Epidemiology of Epilepsies in Resource-poor Countries 57

Mouhamadou Diagana · Devender Bhalla · Edgard Ngoungou · Pierre-Marie Preux

Section 4: Etiology and Pathology of Epilepsies	65
<i>Sanjay M. Sisodiya</i>	
11 Etiology and Pathology of Epilepsies: Overview	67
<i>Sanjay M. Sisodiya</i>	
12 Acute Symptomatic Epileptic Seizures	69
<i>Kristien Verhaert · Rod C. Scott</i>	
13 Epilepsies Associated with Malformations of Cortical Development and Inborn Errors of Metabolism	79
<i>Nadia Bahi-Buisson</i>	
14 Brain Tumors and Epileptic Seizures	95
<i>Maria Thom</i>	
15 Metabolic and Electrolyte Disorders Associated with Epileptic Seizures	107
<i>Christian M. Korff · Douglas R. Nordli, Jr.</i>	
16 Neuropathology of Inherited Metabolic Disorders Associated with Seizures	111
<i>Dimitri P. Agamanolis</i>	
17 Chromosome Disorders Associated with Epileptic Seizures	121
<i>Sameer M. Zuberi</i>	
18 Traumatic Brain Injury and Epileptic Seizures	129
<i>Fiona J. L. Arnold · Andrew W. McEvoy</i>	
19 Infectious Disorders of the Central Nervous System and Epileptic Seizures	137
<i>Gagandeep Singh · Sanjib Sinha</i>	
20 Epileptogenic Channelopathies	145
<i>Giuliano Avanzini</i>	
21 Autoimmune Epilepsy	153
<i>Bethan Lang · Yvonne Hart</i>	
22 Alcohol and Illicit Drug Abuse Associated with Epileptic Seizures	165
<i>Elijah Chaila · Norman Delanty</i>	
Section 5: Neuronal Excitability and Pathophysiology of Seizures	171
<i>Aristea S. Galanopoulou and Solomon L. Moshé</i>	
23 Introduction to Neuronal Excitability and Pathophysiology of Seizures: Overview	173
<i>Aristea S. Galanopoulou · Solomon L. Moshé</i>	
24 Excitation/Inhibition Interactions and Seizures: the Brain's Lifelong Balancing Act	177
<i>Robert F. Ackermann · Solomon L. Moshé</i>	
25 Neurotransmitters, Ions, Their Receptors and Channels	185
<i>Caterina Psarropoulou</i>	

26	Factors Modulating Seizure Susceptibility	193
	<i>Nicola Marchi · Tiziana Granata · Damir Janigro</i>	
27	Pathophysiology of Neocortical Epileptic Seizures	203
	<i>Igor Timofeev</i>	
28	Pathophysiology of Limbic Epileptic Seizures	213
	<i>Dan C. McIntyre · Krista L. Gilby</i>	
29	Secondary Generalization of Focal Onset Seizures	219
	<i>Gabriel U. Martz · Edward H. Bertram</i>	
30	Pathophysiology of Absence Seizures	225
	<i>Matthew Vestal · Hal Blumenfeld</i>	
31	Pathophysiology of Myoclonic Seizures	235
	<i>Pasquale Striano · Federico Zara</i>	
32	Pathophysiology of Generalized Tonic-Clonic Seizures	243
	<i>Carl L. Faingold · M. Steven Evans</i>	
33	Pathophysiology of Reflex Epileptic Seizures	247
	<i>Benjamin G. Zifkin</i>	
34	Pathophysiology of Catastrophic Epileptic Syndromes	251
	<i>Morris H. Scantlebury</i>	
35	Pathophysiology of Status Epilepticus: Human Data	263
	<i>Aidan Neligan · Simon D. Shorvon</i>	
36	Pathophysiology of Status Epilepticus: Experimental Data	273
	<i>Uwe Heinemann · Martin Holtkamp</i>	
37	Pathophysiology of Termination of Seizures	283
	<i>Stephen Fried · Fred A. Lado</i>	
	Section 6: Epileptogenesis and Animal Models of Epilepsies	289
	<i>Aristea S. Galanopoulou and Solomon L. Moshé</i>	
38	Epileptogenesis and Animal Models of Epilepsies: Overview	291
	<i>Aristea S. Galanopoulou · Solomon L. Moshé</i>	
	Part 1: Animal and Experimental Models of Epileptic Seizures	295
	<i>Aristea S. Galanopoulou and Solomon L. Moshé</i>	
39	Genetic Animal Models of Epileptic Seizures	297
	<i>Holger Lerche · Steven Petrou</i>	
40	Induced and Acquired Epileptogenicity in Animal Models	309
	<i>Marco de Curtis · Giovanni Carriero · Gabriella Panuccio · Massimo Avoli</i>	

Part 2: Epileptogenicity in the Developing and Adult Brain	319
<i>Aristea S. Galanopoulou and Solomon L. Moshé</i>	
41 The Functional and Structural Impact of Epileptic Seizures on the Developing Brain	321
<i>Aristea S. Galanopoulou · Antonietta Coppola · Emmanuel Raffo</i>	
42 The Functional and Structural Impact of Epileptic Seizures on the Adult Brain	329
<i>Christophe Bernard · Pascale Quilichini</i>	
Part 3: Epileptogenesis in the Predisposed Brain	335
<i>Aristea S. Galanopoulou and Solomon L. Moshé</i>	
43 Epileptogenesis After Traumatic Brain Injury	337
<i>Asla Pitkänen · Tamuna Bolkvadze</i>	
44 Epileptogenesis After Ischemic-Hypoxic Encephalopathy	343
<i>Russell M. Sanchez</i>	
45 Epileptogenesis and Febrile Seizures	349
<i>James G. Heida · Morris H. Scantlebury</i>	
46 Epileptogenesis and Cortical Dysplasias	353
<i>Carlos Cepeda · Véronique M. André · Harry V. Vinters · Robin S. Fisher · Michael S. Levine · Gary W. Mathern</i>	
47 Epileptogenesis and Brain Tumors	359
<i>Rüdiger Köhling</i>	
48 Pathophysiology of Antiepileptic Drug Refractoriness	365
<i>Heidrun Potschka · Eleonora Aronica</i>	
Section 7: Epileptic Seizures	373
<i>Jerome Engel, Jr.</i>	
49 Epileptic Seizures: Overview	375
<i>Jerome Engel, Jr.</i>	
Part 1: Generalized Epileptic Seizures	379
<i>Jerome Engel, Jr.</i>	
50 Absence Seizures	381
<i>Carol S. Camfield · Peter R. Camfield</i>	
51 Generalized Myoclonic Seizures	385
<i>Douglas R. Nordli, Jr.</i>	
52 Generalized Tonic-Clonic Seizures	389
<i>Benjamin G. Zifkin · Frederick Andermann</i>	
53 Atonic Seizures	395
<i>Douglas R. Nordli, Jr.</i>	

54	Generalized Tonic Seizures	399
	<i>Douglas R. Nordli, Jr.</i>	
55	Generalized Clonic Seizures	403
	<i>Douglas R. Nordli, Jr.</i>	
56	Epileptic Drop Attacks	407
	<i>Hirokazu Oguni</i>	
57	Epileptic Spasms	417
	<i>Douglas R. Nordli, Jr.</i>	
Part 2:	Focal Epileptic Seizures	423
	<i>Jerome Engel, Jr.</i>	
58	Focal Clonic Seizures	425
	<i>Michael R. Sperling</i>	
59	Focal Tonic Seizures	431
	<i>Barbara C. Jobst</i>	
60	Focal Myoclonic Seizures	435
	<i>Christopher T. Skidmore</i>	
61	Focal Hyperkinetic Seizures	437
	<i>Barbara C. Jobst</i>	
62	Focal Inhibitory Seizures	441
	<i>Christopher T. Skidmore</i>	
63	Focal Somatosensory Seizures	443
	<i>Andro Zangaladze</i>	
64	Focal Seizures with Auditory Hallucinations	447
	<i>Barbara C. Jobst</i>	
65	Focal Seizures with Gustatory Hallucinations	451
	<i>John M. Stern</i>	
66	Focal Seizures with Olfactory Hallucinations	453
	<i>John M. Stern</i>	
67	Focal Seizures with Visual Hallucinations	457
	<i>Barbara C. Jobst</i>	
68	Focal Vertiginous Seizures	463
	<i>John M. Stern</i>	
69	Autonomic Seizures	467
	<i>Michael R. Sperling</i>	
70	Aphasic Seizures	471
	<i>John M. Stern</i>	

71	Dyscognitive Seizures	475
	<i>John M. Stern</i>	
72	Gelastic Seizures	479
	<i>Jeremy L. Freeman</i>	
Part 3:	Reflex Seizures	483
	<i>Jerome Engel, Jr.</i>	
73	Reflex Seizures	485
	<i>Benjamin G. Zifkin</i>	
Part 4:	Neonatal Seizures	491
	<i>Jerome Engel, Jr.</i>	
74	Neonatal Seizures	493
	<i>Eli M. Mizrahi</i>	
Section 8:	Status Epilepticus	503
	<i>Peter W. Kaplan</i>	
75	Status Epilepticus: Overview	505
	<i>Peter W. Kaplan</i>	
76	Generalized Tonic-Clonic Status Epilepticus	507
	<i>Alan Towne</i>	
77	Generalized Tonic Status Epilepticus	519
	<i>Adam L. Hartman</i>	
78	Generalized Myoclonic Status Epilepticus	523
	<i>Elizabeth E. Gerard · Lawrence J. Hirsch</i>	
79	Febrile Status Epilepticus	533
	<i>Michael Yoong · Rod C. Scott</i>	
80	Absence Status Epilepticus	537
	<i>Michail Koutroumanidis · Katerina Tsatsou · Dimitrios Tsiftis</i>	
81	Focal Status Epilepticus	545
	<i>Saurabh R. Sinha</i>	
82	Epilepsia Partialis Continua of Kozhevnikov	553
	<i>Saurabh R. Sinha</i>	
83	Autonomic Status Epilepticus	559
	<i>Colin D. Ferrie</i>	
84	Treatment of Status Epilepticus	563
	<i>Andrea O. Rossetti</i>	

Section 9: Imitators of Epileptic Seizures	569
<i>William O. Tatum, IV</i>	
85 Imitators of Epileptic Seizures: Overview	571
<i>William O. Tatum, IV</i>	
86 Epileptic Seizures Imitating Nonepileptic Paroxysmal Events	575
<i>William O. Tatum, IV</i>	
87 Imitators of Epileptic Seizures: Basic Principles on How to Distinguish Them	581
<i>Andres M. Kanner</i>	
88 Syncopal Attacks	589
<i>Stephan U. Schuele</i>	
89 Psychogenic Nonepileptic Events Imitating Epileptic Seizures	597
<i>Sanjay K. Jain · Alan B. Ettinger</i>	
90 Nonepileptic Paroxysmal Movement Disorders	611
<i>Michael Hayman · Renzo Guerrini</i>	
91 Nonepileptic Severe Amnesic and Confusional Attacks	619
<i>Steven C. Schachter</i>	
92 Subjective Paroxysmal Nonepileptic Symptoms	623
<i>Joseph I. Sirven</i>	
93 Migraine, Migralepsy and Basilar Migraine	629
<i>Sheryl R. Haut · Olga Fishman · Richard B. Lipton</i>	
94 Nonepileptic Paroxysmal Events Occurring During Sleep and Sleep Disorders	639
<i>Aatif M. Husain</i>	
95 Mimics of Epileptic Seizures in Neonates and Young Infants	655
<i>Robert R. Clancy</i>	
96 Parasomnias in Early Childhood that Mimic Epileptic Seizures	661
<i>Federico Vigevano · Nicola Specchio</i>
