|   |     |   |            |
|---|-----|---|------------|
| The evidence from writers of shorthand systems  | 119 | of Early English long vowels as diphthongs          | 148        |
| Conclusions   | 126 |   |            |
| CHAPTER V   |     | CHAPTER VI  |            |
| /ī/, /ū/, → /ey/, /ow/: evidence from other languages   | 131 | The development of ME <i>ī</i> , <i>ū</i>           | 151        |
| /ī/, /ū/, → /ey/, /ow/: evidence from English dialects  | 134 | The development of ME <i>ē</i>                      | 156        |
| /ī/, /ū/, → /ey/, /ow/: evidence from sound changes currently in progress                               | 136 | Conditioned developments of ME <i>a</i> , <i>o</i>  | 159        |
| Evidence from other languages for the addition of exchange rules to a grammar                           | 137 | The Middle English diphthongs and long tense vowels | 160        |
| Evidence from English dialects for the addition of exchange rules to a grammar                          | 138 | Three- vs. four-vowel-height systems                | 166        |
| Evidence from Northern dialects against the Vowel Shift resulting from the addition of an exchange rule | 140 | Lexical diffusion of sound change                   | 168        |
| Evidence from other languages against the Vowel Shift resulting from the addition of an exchange rule   | 141 | Extension of sound change by rule simplification    | 169        |
| Loss of intelligibility with vowel exchange: evidence from other languages                              | 147 | Summary of conclusions                              | <u>172</u> |
| Evidence for the analysis   |     | NOTES   |            |
|   |     | Introduction  | 174        |
|   |     | Chapter I   | 174        |
|   |     | Chapter II  | 175        |
