

Table of Contents

Chapter 1: Planning the Use of the Earth's Surface: an Overview.

<i>A. CENDRERO</i>	3
--------------------------	---

Chapter 2: Geoenvironmental Mapping and Assessment.

Methods and Approaches of Environmental Geology Mapping: Meeting the Planner's Requirement.	
<i>B.R. MARKER</i>	25
Geoscientific Maps for Land-Use Planning - a Review.	
<i>U. MATTIG</i>	49
Computer-assisted Methods for the Construction, Compilation and Display of Geoscientific Maps.	
<i>G. GABERT</i>	83
Geomorphological Hazards and Environmental Impact: Assessment and Mapping.	
<i>M. PANIZZA</i>	101
Urban Geology: Present Trends and Problems.	
<i>E.F.J. DE MULDER</i>	125
Landslide Risk Assessment and Zoning.	
<i>J. COROMINAS</i>	141
Mapping and Modelling Quaternary Deposits to Assess Groundwater Pollution Hazards in the Glaciated Appalachian Region, U.S.A.	
<i>K.G. JOHNSON</i>	175
Geoenvironmental Units as a Basis for the Assessment, Regulation and Management of the Earth's Surface.	
<i>A. CENDRERO, E. FRANCIS and J.R. DÍAZ DE TERÁN</i>	199

Chapter 3: Specific Geoenvironmental Topics.

Geochemistry and the Environment.

B. MOLDAN.....237

Trace Element Maps and the Regional Distribution of Human Diseases.

I. THORNTON.....259

Industrial Minerals and Rocks: Present Trends in Exploration, Exploitation and Use.

G.W. LÜTTIG.....283

Mining Potential of the Inner Continental Shelf.

R.H. CHARLIER.....331

Earth Science Conservation in Europe: Present Activities and Recommended Procedures.

G.P. GONGGRIJP.....371

Reclaiming Areas Degraded by Mining Operations.

E. GALLEGRO and L. VADILLO.....393

Land-Use Planning and Management in Brazil: A Brief Review of Present Experience and Environmental Problems.

H.M. PENHA.....409

Problems and Approaches in Environmental Geology in Latin America: The Colombian Experience.

M. HERMELIN.....421

Chapter 4: Organisational and Institutional Topics.

The Integration of Environmental Geology Methods and Concepts Within the Framework of a Regional Administration: The Case of the Comunidad Valenciana, Spain.

C. AURENHEIMER.....443

Environmental Geology in the United States: Present Practice and Future Training Needs.	
<i>L. LUNDGREN</i>	457
Standards in Environmental Geology.	
<i>E. STENESTAD</i>	483
Guidelines for the Organisation of an International Postgraduate Programme on Earth Science and Environmental Planning.	
<i>A. CENDRERO</i>	513
The IUGS Commission on Geosciences for Environmental Planning.	
<i>F.Ch. WOLFF</i>	527

Chapter 5: Synthesis and Conclusions.

<i>A. CENDRERO</i>	545
--------------------------	-----
