

Contents

Volume One

- Foreword xi
- Preface xv
- Acknowledgments xvii
- 1835 Extracts from Letters Addressed to Professor Henslow 3
- 1835 Geological Notes Made during a Survey of the East and West Coasts of South America, in the Years 1832, 1833, 1834, and 1835, with an Account of a Transverse Section of the Cordilleras of the Andes between Valparaiso and Mendoza 16
- 1836 A Letter, Containing Remarks on the Moral State of Tahiti, New Zealand, &c. 19
- 1837 Notes upon the Rhea Americana 38
- 1837 Remarks upon the Habits of the Genera *Geospiza*, *Camarhynchus*, *Cactornis*, and *Certhidea* of Gould 40
- 1837 Observations of Proofs of Recent Elevation on the Coast of Chili, Made during the Survey of His Majesty's Ship Beagle, Commanded by Capt. FitzRoy, R.N. 41
- 1837 A Sketch of the Deposits Containing Extinct Mammalia in the Neighbourhood of the Plata 44
- 1837 On Certain Areas of Elevation and Subsidence in the Pacific and Indian Oceans, as Deduced from the Study of Coral Formations 46
- 1837 On the Formation of Mould 49
- 1838 On the Connexion of Certain Volcanic Phenomena in South America; and on the Formation of Mountain Chains and Volcanos, as the Effect of the Same Power by which Continents Are Elevated 53
- 1839 Observations on the Parallel Roads of Glen Roy, and of Other Parts of Lochaber in Scotland, with an Attempt to Prove that They Are of Marine Origin 89

- 1839 Note on a Rock Seen on an Iceberg in 61° South Latitude 137
- 1841 On a Remarkable Bar of Sandstone off Pernambuco, on the Coast of Brazil 139
- 1841 Humble-Bees 142
- 1841 On the Distribution of the Erratic Boulders and on the Contemporaneous Unstratified Deposits of South America 145
- 1842 Notes on the Effects Produced by the Ancient Glaciers of Caernarvonshire, and on the Boulders Transported by Floating Ice 163
- 1843 Remarks on the Preceding Paper, in a Letter from Charles Darwin, Esq., to Mr. Maclaren 171
- 1843 Double Flowers—Their Origin 175
- 1844 Observations on the Structure and Propagation of the Genus *Sagitta* 177
- 1844 Brief Descriptions of Several Terrestrial *Planariae*, and of Some Remarkable Marine Species, with an Account of Their Habits 182
- 1844 Extracts from Letters to the General Secretary, on the Analogy of the Structure of Some Volcanic Rocks with That of Glaciers 193
- 1844 On the Origin of Mould 195
- 1844 Manures, and Steeping Seeds 196
- 1844 Variegated Leaves 198
- 1844 What Is the Action of Common Salt on Carbonate of Lime? 198
- 1845 An Account of the Fine Dust which Often Falls on Vessels in the Atlantic Ocean 199
- 1846 On the Geology of the Falkland Islands 203
- 1846 Origin of Saliferous Deposits: Salt-Lakes of Patagonia and La Plata 212
- 1847 Salt 214
- 1847 A Natural History of the Mammalia. By G. R. Waterhouse, Esq., etc. . . . [A Review] 214
- 1848 On the Transportal of Erratic Boulders from a Lower to a Higher Level 218
- 1849 Geology 227
- 1849 [Remarks on Cirripedia] 250
- 1850 On British Fossil Lepadidae 251
- 1852 Bucket Ropes for Wells 252
- 1855 On the Power of Icebergs to Make Rectilinear, Uniformly-

- Directed Grooves across a Submarine Undulatory
Surface 252
- 1855 Does Sea-Water Kill Seeds? 255
- 1855 Does Sea-Water Kill Seeds? 255
- 1855 Nectar-Secreting Organs of Plants 258
- 1855 Shell Rain in the Isle of Wight 259
- 1855 Vitality of Seeds 260
- 1855 Effect of Salt-Water on the Germination of Seeds 261
- 1855 Effect of Salt Water on the Germination of Seeds 262
- 1855 Longevity of Seeds 263
- 1855 Seedling Fruit Trees 263
- 1856 Cross Breeding 264
- 1856 On the Action of Sea-Water on the Germination of
Seeds 264
- 1857 Hybrid Dianths 273
- 1857 Mouse-coloured Breed of Ponies 274
- 1857 The Subject of Deep Wells 274
- 1857 Bees and Fertilisation of Kidney Beans 275
- 1857 Productiveness of Foreign Seed 277

Volume Two

- 1858 On the Tendency of Species to Form Varieties; and on
the Perpetuation of Varieties and Species by Natural
Means of Selection 3
- 1858 On the Agency of Bees in the Fertilization of Papilion-
aceous Flowers, and on the Crossing of Kidney Beans 19
- 1858 Public Natural History Collections 25
- 1860 Cross-bred Plants 31
- 1860 Natural Selection 32
- 1860 Fertilisation of British Orchids by Insect Agency 32
- 1860 Do the Tineina or Other Small Moths Suck Flowers,
and If So What Flowers? 35
- 1861 Note on the Achenia of *Pumilio argyrolepis* 36
- 1861 Fertilisation of British Orchids by Insect Agency 38
- 1861 Phenomena in the Cross-breeding of Plants 39
- 1861 Fertilisation of Vincas 40
- 1861 Fertilization of Orchids 41
- 1861 Vincas 41
- 1861 Cross-breeding in Plants: Fertilisation of *Leschenaultia*
formosa 42

- 1861 Cause of the Variation of Flowers 43
- 1861 On the Two Forms, or Dimorphic Condition, in the Species of *Primula*, and on Their Remarkable Sexual Relations 45
- 1862 On the Three Remarkable Sexual Forms of *Catasetum tridentatum*, an Orchid in the Possession of the Linnean Society 63
- 1862 Peas 70
- 1862 Cross-breeds of Strawberries 70
- 1862 Variations Effected by Cultivation 71
- 1862 [Recollections of Professor Henslow] 72
- 1863 On the Thickness of the Pampean Formation, Near Buenos Ayres 74
- 1863 Fertilisation of Orchids 77
- 1863 The Doctrine of Heterogeny and Modification of Species 78
- 1863 Origin of Species 81
- 1863 [Yellow Rain] 81
- 1863 Appearance of a Plant in a Singular Place 83
- 1863 Vermin and Traps 83
- 1863 On the So-called "Auditory-Sac" of Cirripedes 85
- 1863 [A Review of H. W. Bates' Paper on "Mimetic Butterflies"] 87
- 1864 Ancient Gardening 93
- 1864 On the Existence of Two Forms, and on Their Reciprocal Sexual Relation, in Several Species of the Genus *Linum* 93
- 1864 On the Sexual Relations of the Three Forms of *Lythrum salicaria* 106
- 1866 Partial Change of Sex in Unisexual Flowers 131
- 1866 Self-fertilization 132
- 1866 *Oxalis Bowei* 132
- 1866 Cross-fertilising Papilionaceous Flowers 132
- 1866 [Note on the Common Broom] 134
- 1867 Fertilisation of *Cypripediums* 134
- 1868 [Inquiry about Proportional Number of Males and Females Born to Domestic Animals] 135
- 1868 Queries about Expression for Anthropological Inquiry 136
- 1868 Hedgehogs 137
- 1869 The Formation of Mould by Worms 137

- 1869 Notes on the Fertilization of Orchids 138
- 1869 Origin of Species 156
- 1869 Origin of Species 157
- 1869 Pangenesis: Mr. Darwin's Reply to Professor Delpino 158
- 1869 The Fertilisation of Winter-Flowering Plants 160
- 1870 Note on the Habits of the Pampas Woodpecker (*Colaptes campestris*) 161
- 1871 Fertilisation of *Leschenaultia* 162
- 1871 Pangenesis 165
- 1871 A New View of Darwinism 167
- 1871 A Letter from Mr. Darwin 167
- 1872 Bree on Darwinism 168
- 1872 The Descent of Man 168
- 1873 Natural Selection 169
- 1873 Inherited Instinct 170
- 1873 Perception in the Lower Animals 171
- 1873 Origin of Certain Instincts 172
- 1873 Habits of Ants 177
- 1873 On the Males and Complemental Males of Certain Cirripedes, and on Rudimentary Structures 177
- 1874 Recent Researches on Termites and Honey-Bees 182
- 1874 Fertilisation of the Fumariaceae 182
- 1874 Flowers of the Primrose Destroyed by Birds 183
- 1874 Flowers of the Primrose Destroyed by Birds 184
- 1874 [A Communication on Irritability of *Pinguicula*] 187
- 1876 Cherry Blossoms 189
- 1877 Holly Berries 189
- 1877 The Scarcity of Holly Berries and Bees 190
- 1877 Fertilisation of Plants 191
- 1877 A Biographical Sketch of an Infant 191
- 1877 Testimonial to Mr. Darwin. Evolution in the Netherlands [Including a Letter from Charles Darwin] 200
- 1877 The Contractile Filaments of the Teasel 205
- 1877 Sexual Selection in Relation to Monkeys 207
- 1877 Fritz Müller on Flowers and Insects 211
- 1877 Growth under Difficulties 213
- 1878 Transplantation of Shells 214
- 1878 Prefatory Letter: Flowers and Their Unbidden Guests 215

- 1879 Fritz Müller on a Frog Having Eggs on Its Back—
on the Abortion of the Hairs on the Legs of Certain
Caddis-Flies, &c. 216
- 1879 Rats and Water-Casks 218
- 1880 Fertility of Hybrids from the Common and Chinese
Goose 219
- 1880 The Sexual Colours of Certain Butterflies 220
- 1880 The Omori Shell Mounds 222
- 1880 Sir Wyville Thomson and Natural Selection 223
- 1880 Black Sheep 224
- 1881 Movements of Plants 224
- 1881 Mr Darwin on Vivisection [A Letter to Frithiof
Holmgren] 226
- 1881 Mr. Darwin on Vivisection 227
- 1881 The Movements of Leaves 228
- 1881 Inheritance 230
- 1881 Leaves Injured at Night by Free Radiation 231
- 1881 [A Letter to Mrs. Emily Talbot on the Mental and
Bodily Development of Infants] 232
- 1881 [Extracts from Two Letters: On Glacial Drift] 233
- 1881 Mr. Charles Darwin and the Defence of Science 235
- 1881 The Parasitic Habits of *Molothrus* 235
- 1882 The Action of Carbonate of Ammonia on the Roots of
Certain Plants 236
- 1882 The Action of Carbonate of Ammonia on Chlorophyll-
Bodies 256
- 1882 On the Dispersal of Freshwater Bivalves 276
- 1882 A Preliminary Notice: "On the Modification of a
Race of Syrian Street-Dogs by Means of Sexual
Selection" 278
- 1882 Prefatory Notice: Studies in the Theory of
Descent 280
- Appendix**
- 1827 On the Ova of *Flustra*, or, Early Notebook, Containing
Observations Made by C. D. When He Was at
Edinburgh, March 1827 285
- 1844 *Coniferae* 291
- 1859 *Coleoptera* at Down 292
- 1873 Variations of Organs 292
- Bibliography I: Species Collected by Darwin 295
- Bibliography II: Books Written by Darwin 301
- Index 303
