List of Contributors		
Preface		
Biographies		
1. Endothelial Biology: The Role of Circulating Endothelial Cells and Endothelial Progenitor Cells		
JOHN ARTHUR McCLUNG AND NADER G. ABRAHAM		
What Are Endothelial Progenitor Cells?		
Paracrine Effects of BM-Derived Cells		
Mechanisms, Known and Unknown		
Circulating Endothelial Cells and Microparticles:		
The Other Side of the Coin?		
Clinical Data and Potential Applications		
Summary and Conclusions		
References		
2. The Role of Vascular Smooth Muscle Phenotype in Coronary Artery Disease		
PETRA ROCIC AND SACHIN GUPTA		
Introduction	15	
Atherosclerosis	18	
Restenosis	19	
Arteriogenesis	20	
Conclusions	21	
References	21	
3. Immuno-Inflammatory Basis of Atherosclerotic Coronary Artery Disease		
NAGA VENKATA POTHINENI, SOTIRIOS K. KARATHANASIS AND JAWAHAR L. MEHTA		
Inflammation and CAD—Molecular Mechanisms	23	
Clinical Associations of Inflammation and CAD	25	
Imaging the Inflammation in CAD	26	
Immunity and CAD	26	
Inflammatory Biomarkers and CAD	27	
Anti-inflammatory Therapies in CAD	28	
Immune Therapies in CAD	29	
Conclusions	30	
References	30	
4. Adiponectin: A Mediator of Obesity, Insulin Resistance, Diabetes, and the Metabolic Syndrome		
MALA SHARMA, JOHN ARTHUR McCLUNG AND NADER G. ABRAHAM		
Role of Oxidative Stress and Inflammation in Obesity	33	
Cytoprotective Heme Oxygenase/Adiponectin Axis	34	
Adiponectin	ix	34
Structure and Secretion of Adiponectin	xii	34
Adiponectin Receptors: Structure and Function	xiii	35
Adiponectin in Obesity		37
Adiponectin as an Insulin-Sensitizing Hormone		37
Adiponectin and Atherosclerosis		37
Adiponectin and Hypertension		38
Adiponectin and Dyslipidemia		38
Adiponectin and the Metabolic Syndrome		38
Current and Future Therapeutic Targets	1	38
References	3	39
5. Use of Stem Cells in Ischemic Heart Disease	5	
SOHAIB TARIQ, CHHAYA AGGARWAL AND WILBERT S. ARONOW	7	
Introduction	9	
Mechanism of Action	10	
Stem Cell Delivery		43
Types of Stem Cells		44
Conclusions		45
References		46
6. Vasculogenesis and Angiogenesis	18	
DHAVAL KOLTE, JOHN ARTHUR McCLUNG AND WILBERT S. ARONOW	19	
Vasculogenesis	21	
Angiogenesis	21	
Therapeutic Vasculogenesis/Angiogenesis for Ischemic Heart Disease		49
Summary		51
References		51
7. Lipids in Coronary Heart Disease: From Epidemiology to Therapeutics	23	
SETH S. MARTIN, PARAG H. JOSHI AND ERIN D. MICHOS	25	
Introduction	26	
Nonpharmacologic Management of Lipids	27	
LDL-C and LDL-Targeted Therapeutics	28	
HDL-C and HDL-Targeted Therapeutics	29	
Triglycerides	30	
Conclusion	30	
References		76
8. Genetics of Coronary Disease	33	
BRIAN G. KRAL AND LEWIS C. BECKER	34	
The GWAS Era		81
Importance of Defining the Phenotype		88
Significance and Replication		88

Biological and Functional Relevance	89	13. Magnetic Resonance Imaging for Clinical Use and Research Investigation in Coronary Artery Disease	153
The 9p21.3 Risk Locus	90		
SORT1/CELSR2/PSRC1	92		
PCSK9	92		
SH2B3	92	AMAR SHAH	
Additional GWAS Variants Associated with CAD	93	Introduction	153
Assessing Genetic Risk	93	Technique	153
Future Directions	94	Coronary MRA Technique	154
Summary	94	Field Strength	154
References	94	Acquisition Techniques Available for Coronary MRA	154
		Coronary MRA Compared to CCTA	155
		Current Applications	155
		CCTA Compared to Coronary MRA	155
		Role of Coronary MRA in Specific Patient Populations	156
		Conclusions	157
		References	157
9. The Role of Nitric Oxide and the Regulation of Cardiac Metabolism	103	14. Invasive Diagnostic Assessment of Coronary Artery Disease	159
ELIZABETH KERTOWIDJOJO, KHALED QANUD, SU SONG, SULLI POPILSKIS, JOHN ARTHUR McCLUNG AND THOMAS H. HINTZE		WILBERT S. ARONOW	
Functional Anatomy of the Heart	103	Fractional Flow Reserve	160
Role of Nitric Oxide and Reactive Dilatation in Coronary Artery Vasomotion	103	Intravascular Ultrasound	162
Organic Nitrates, Prostanoids, and Vasoconstrictors	105	Optical Coherence Tomography	162
NO as a Mediator of Pharmaceutical Agents	106	IVUS and FFR in Assessment of Left Main Disease	162
Conclusion	107	Near Infrared Spectroscopy	163
References	107	Conclusions	164
		References	164
10. Revascularization for Silent Myocardial Ischemia	111	15. Drug Treatment of Stable Coronary Artery Disease	167
DHAVAL KOLTE AND JULIO A. PANZA		WILBERT S. ARONOW AND WILLIAM H. FRISHMAN	
Pathophysiology of Silent Myocardial Ischemia: A Historical Perspective	112	Risk Factor Reduction	168
Magnitude of the Problem	112	Aspirin	168
Prognostic Significance of Silent Myocardial Ischemia	112	Clopidogrel	169
Revascularization for Silent Myocardial Ischemia	115	Vorapaxar	169
Role of Myocardial Ischemia in Decision Making	119	Anticoagulants	169
Conclusion	120	Beta-Adrenergic Blockers	170
References	120	Nitrates	170
		Other Antianginal Drugs	171
11. Noninvasive Diagnostic Modalities for the Evaluation of Coronary Artery Disease	125	Angiotensin-Converting-Enzyme Inhibitors	171
DIWAKAR JAIN AND WILBERT S. ARONOW		Aldosterone Antagonists	171
Introduction	137	Calcium Channel Blockers	172
Conclusion	137	Antiarrhythmic Therapy	172
References		Hormone Replacement Therapy	173
		Influenza Vaccination	174
12. Current Approaches to Treatment of Ventricular Arrhythmias in Patients with Coronary Artery Disease	141	Depression	174
JASON T. JACOBSON, SEI IWAI AND WILBERT ARONOW		Cardiac Rehabilitation	174
Introduction	141	Coronary Revascularization	174
VAs in the Setting of Acute Ischemia and Infarction	141	References	174
VAs in the Setting of ICM	142	16. Percutaneous Coronary Intervention	179
Medical Therapy	142	SAHIL KHERA, DHAVAL KOLTE AND DEEPAK L. BHATT	
Implantable Cardiac Defibrillator	143	History	179
Conclusions	144	Indications	179
References	149	Vascular Access	181

CONTENTS			
Intracoronary Devices	182	Indications	210
Antiplatelet Agents	184	Technical Considerations	210
Anticoagulants	186	Management Considerations	210
Complications of PCI	187	Clinical Outcomes	212
Controversies and Future Directions	188	Ethics	212
Conclusions	190	Economics	213
References	190	Conclusions	213
		References	213
17. Current Topics in Bypass Surgery			
MICHAEL E. HALKOS			
Introduction	195		
CABG versus PCI	195		
Multiarterial Grafting	198	Introduction	215
Off-Pump versus On-Pump CABG	200	Observational Study	215
Postoperative Stroke	200	Experimental Study	219
Minimally Invasive CABG and HCR	202	Discussion	220
Disclosures	205	References	220
References	205		
18. Peripheral Veno-arterial Extracorporeal Membrane Oxygenation for Treatment of Ischemic Shock			
STEVE K. SINGH, DAVID SPIELVOGEL, STEVEN L. LANSMAN AND GILBERT H.L. TANG			
Introduction	209		
Evolution to Contemporary ECMO	209		
19. Biostatistics Used for Clinical Investigation of Coronary Artery Disease			
CHUL AHN			
Introduction	215		
Observational Study	215		
Experimental Study	219		
Discussion	220		
References	220		
Index			223
