Introduction	xiii
<i>Lee N. Robins and Michael Rutter</i>	
PART I. Survival to follow-up	1
1. Truncated pathways from childhood to adulthood: Attrition in follow-up studies due to death	3
<i>Madelyn S. Gould, David Shaffer, and Mark Davies</i>	
PART II. Adult outcomes	11
General adjustment	13
2. Childhood personality and the prediction of life-course patterns	13
<i>Avshalom Caspi, Glen H. Elder, Jr., and Ellen S. Herbener</i>	
3. Adopted and illegitimate children growing up	36
<i>Barbara Maughan and Andrew Pickles</i>	
Crime and other problems	62
4. Long-term criminal outcomes of hyperactivity– impulsivity–attention deficit and conduct problems in childhood	62
<i>David Farrington, Rolf Loeber, and Welmoet B. Van Kammen</i>	
5. Two processes of the development of persistent offending: Activation and escalation	82
<i>Marc LeBlanc</i>	

6. A pattern approach to the study of pathways from childhood to adulthood <i>David Magnusson and L. R. Bergman</i>	101
7. Long-term perspectives on parental absence <i>Joan McCord</i>	116
8. Adult outcome of institution-reared children: Males and females compared <i>Michael Rutter, David Quinton, and Jonathan Hill</i>	135
Drug use and abuse	158
9. Antecedents and consequences of cocaine use: An eight-year study from early adolescence to young adulthood <i>Michael D. Newcomb and Peter M. Bentler</i>	158
10. Conduct problems as predictors of substance abuse <i>Lee N. Robins and Lawrence McEvoy</i>	182
Temperament and personality	205
11. Continuities and discontinuities in temperament <i>Stella Chess and Alexander Thomas</i>	205
12. The creation of interpersonal contexts: Homophily in dyadic relationships in adolescence and young adulthood <i>Denise Kandel, Mark Davies, and Nazli Baydar</i>	221
Psychiatric status	242
13. Common and uncommon pathways to adolescent psychopathology and problem behavior <i>Patricia Cohen, Judith S. Brook, Jacob Cohen, C. Noemi Velez, and Marc Garcia</i>	242
14. Continuities in psychiatric disorders from childhood to adulthood in the children of psychiatric patients <i>David Quinton, Michael Rutter, and Lesley Gulliver</i>	259

15. Childhood predictors of psychiatric status in the young adulthood of hyperactive boys: A study controlling for chance associations 279
Salvatore Mannuzza, Rachel Gittelman Klein, Paula Horowitz Konig, and Tina Louise Giampino
16. Early life psychosocial events and adult affective symptoms 300
Remi J. Cadoret, Edward Troughton, Linda Moreno Merchant, and Allan Whitters
17. Influences of early-life and recent factors on affective disorder in women: An exploration of vulnerability models 314
Bryan Rodgers
18. Two pathways to schizophrenia in children at risk 328
Tyrone D. Cannon, Sarnoff A. Mednick, and Josef Parnas
19. High-risk children in adolescence and young adulthood: Course of global adjustment 351
L. Erlenmeyer-Kimling, Barbara A. Cornblatt, Anne S. Bassett, Steven O. Moldin, Ulla Hildoff-Adamo, and Simone Roberts
20. Adopted-away offspring of schizophrenics and controls: The Finnish adoptive family study of schizophrenia 365
Pekka Tienari, Ilpo Lahti, Anneli Sorri, Mikko Naarala, Juha Moring, Merja Kaleva, Karl-Erik Wahlberg, and Lyman C. Wynne
