

Table of contents

<i>List of symbols</i>	VII
<i>Preface</i>	IX
1. <i>General introduction</i>	1
2. <i>Theoretical foundations of monetary policy: monetarists versus non-monetarists</i>	5
2.1. Introduction	5
2.2. The transmission process of monetary impulses	8
2.3. The money supply process	15
2.4. Selecting an indicator of monetary policy	21
2.5. Rules versus discretion in monetary policy	31
3. <i>Expectations in retrospect</i>	35
4. <i>From a non-monetary to a monetary Phillips curve</i>	42
4.1. The orthodox unemployment-inflation trade-off	42
4.2. The expectations-augmented Phillips curve	46
4.3. The adaptive expectations analysis (“error-learning-hypothesis”)	59
5. <i>The theory of rational expectations (“rational-expectations hypothesis”)</i>	64
5.1. Assumptions	64
5.2. Monetary policy implications of the rational-expectations hypothesis	69
5.3. A simple model under rational expectations	74
	V

6. <i>A critical review of the rational-expectations theory</i>	84
6.1. Rational versus irrational behaviour	84
6.2. Rationality and macroeconomic models	86
6.3. Information costs and information availability	89
6.4. Semi-rational expectations hypothesis	92
6.5. Long-term contracts and expectations theory	94
6.6. The meaning of superior information	101
7. <i>Summary and conclusions</i>	104
<i>Appendix</i>	111
<i>Bibliography</i>	123
<i>Index</i>	133
<i>About the author</i>	139
