

CONTENTS

| | |
|--|-----|
| PREFACE | vii |
| 1. INTRODUCTION | |
| 1.1 What is an algorithm | 1 |
| 1.2 Writing algorithms in SPARKS | 4 |
| 1.3 Writing structured programs | 14 |
| 1.4 Analyzing algorithms | 24 |
| References and selected readings | 40 |
| Exercises | 41 |
| 2. ELEMENTARY DATA STRUCTURES | |
| 2.1 Stacks and queues | 48 |
| 2.2 Trees | 53 |
| 2.3 Heaps and heapsort | 61 |
| 2.4 Sets and disjoint set union | 70 |
| 2.5 Graphs | 79 |
| 2.6 Hashing | 82 |
| References and selected readings | 93 |
| Exercises | 94 |
| 3. DIVIDE-AND-CONQUER | |
| 3.1 The general method | 98 |
| 3.2 Binary search | 100 |
| 3.3 Finding the maximum and minimum | 108 |
| 3.4 Mergesort | 113 |
| 3.5 Quicksort | 121 |
| 3.6 Selection | 127 |
| 3.7 Strassen's matrix multiplication | 137 |
| References and selected readings | 140 |
| Exercises | 141 |

4. THE GREEDY METHOD

| | | |
|-----|--|-----|
| 4.1 | The general method | 152 |
| 4.2 | Optimal storage on tapes | 153 |
| 4.3 | Knapsack problem | 157 |
| 4.4 | Job sequencing with deadlines | 161 |
| 4.5 | Optimal merge patterns | 169 |
| 4.6 | Minimum spanning trees | 174 |
| 4.7 | Single source shortest paths | 183 |
| | References and selected readings | 188 |
| | Exercises | 191 |

5. DYNAMIC PROGRAMMING

| | | |
|-----|---|-----|
| 5.1 | The general method | 198 |
| 5.2 | Multistage graphs | 203 |
| 5.3 | All pairs shortest paths | 208 |
| 5.4 | Optimal binary search trees | 211 |
| 5.5 | 0/1 knapsack | 219 |
| 5.6 | Reliability design | 228 |
| 5.7 | The traveling salesperson problem | 231 |
| 5.8 | Flow shop scheduling | 234 |
| | References and selected readings | 238 |
| | Exercises | 240 |

6. BASIC SEARCH AND TRAVERSAL TECHNIQUES

| | | |
|-----|---|-----|
| 6.1 | The techniques | 248 |
| 6.2 | Code optimization | 270 |
| 6.3 | AND/OR graphs | 286 |
| 6.4 | Game trees | 290 |
| 6.5 | Biconnected components and depth first search | 302 |
| | References and selected readings | 309 |
| | Exercises | 311 |

7. BACKTRACKING

| | | |
|-----|--------------------------------|-----|
| 7.1 | The general method | 323 |
| 7.2 | The 8-queens problem | 337 |
| 7.3 | Sum of subsets | 339 |
| 7.4 | Graph coloring | 343 |
| 7.5 | Hamiltonian cycles | 348 |
| 7.6 | Knapsack problem | 350 |

| | |
|--|-----|
| References and selected readings..... | 359 |
| Exercises..... | 363 |
| 8. BRANCH-AND-BOUND | |
| 8.1 The method | 370 |
| 8.2 0/1 knapsack problem | 390 |
| 8.3 Traveling salesperson..... | 403 |
| 8.4 Efficiency considerations..... | 412 |
| References and selected readings | 415 |
| Exercises | 417 |
| 9. ALGEBRAIC SIMPLIFICATION AND TRANSFORMATIONS | |
| 9.1 The general method | 422 |
| 9.2 Evaluation and interpolation..... | 424 |
| 9.3 The fast Fourier transform | 431 |
| 9.4 Modular arithmetic | 440 |
| 9.5 Even faster evaluation and interpolation | 447 |
| References and selected readings | 455 |
| Exercises | 457 |
| 10. LOWER BOUND THEORY | |
| 10.1 Comparison trees for sorting and searching..... | 461 |
| 10.2 Oracles and Adversary Arguments | 469 |
| 10.3 Techniques for algebraic problems..... | 478 |
| 10.4 Some lower bounds on parallel computation | 488 |
| References and selected readings | 494 |
| Exercises | 497 |
| 11. NP-HARD AND NP-COMPLETE PROBLEMS | |
| 11.1 Basic concepts..... | 501 |
| 11.2 Cook's theorem..... | 513 |
| 11.3 NP-Hard graph problems | 522 |
| 11.4 NP-Hard scheduling problems | 532 |
| 11.5 NP-Hard code generation problems | 538 |
| 11.6 Some simplified NP-Hard problems..... | 545 |
| References and selected readings | 548 |
| Exercises | 552 |

12. APPROXIMATION ALGORITHMS FOR NP-HARD PROBLEMS

| | | |
|------|---|-----|
| 12.1 | Introduction | 559 |
| 12.2 | Absolute approximations | 562 |
| 12.3 | ϵ -approximations | 567 |
| 12.4 | Polynomial time approximation schemes | 578 |
| 12.5 | Fully polynomial time approximation schemes | 585 |
| 12.6 | Probabilistically good algorithms | 596 |
| | References and selected readings | 599 |
| | Exercises | 604 |

| | |
|---------------------------------|-----|
| APPENDIX A. SPARKS | 614 |
|---------------------------------|-----|

| | |
|--------------------|-----|
| INDEX | 622 |
|--------------------|-----|
