## **PART I DESIGN SCIENCE RESEARCH METHODOLOGY**

<b>2 Introduction to Design Science Research in Information and Communication Technology</b> .....	<b>9</b>
Overview of Design Science Research.....	9
Research .....	9
Design .....	10
Design Science and DSR.....	10
Can Design Be Research? .....	11
DSR versus Design Research .....	13
DSR versus Routine Design.....	14
DSR Methodology.....	14
A DSR Process Model.....	14
Awareness of Problem .....	14
Suggestion .....	15
Development .....	16
Evaluation .....	16
Conclusion .....	17
Cognitive Processes Used in DSR.....	17
Other DSR Process Models .....	18
Outputs of DSR.....	19
Theory in DSR .....	22
Profile of a DT.....	24
A Framework for Theory Development in DSR.....	25
Theory Development in DSR: A Brief Literature Review.....	26

General Guidance on Expected Outputs from DSR.....	27
Example of Community-Determined Outputs.....	28
Philosophical Grounding of DSR.....	30
An Example of ICT DSR.....	33
Smart Objects: A DSR Project.....	33
Awareness of Problem.....	33
Suggestion.....	34
Awareness of Problem Revisited.....	34
Development.....	35
Evaluation.....	35
Conclusion.....	36
Epilogue.....	36
References.....	36
Appendix 2A A Design Science Research Bibliography.....	39
General References on Design Science Research.....	39
References on Philosophical Grounding of Design Science Research.....	40
References on Design Science Research Methodology.....	41
References on Understanding Design Science Research in the Context of Information Systems Research.....	42
References on Theory and Theory Development in Design Science Research.....	44
References on Design and Design Science Research.....	45

<b>3</b>	<b>Aggregate Design Science Research Cycle as a Perspective on the Evolution of Computing Communities of Interest.....</b>	<b>49</b>
	Introduction.....	49
	Design Science Research Cycle.....	51
	Aggregate DSRC.....	52
	Exercising the ADSRC Framework: Concept Mapping 25 Years of Database Research.....	53
	Using the ADSRC to Explain Coordination between Diverse Groups.....	54
	Conclusion.....	55
	References.....	56

<b>4</b>	<b>A Framework for Theory Development in Design Science Research: Multiple Perspectives.....</b>	<b>59</b>
	Introduction.....	59
	Design Science Research in IS (DSR-IS) Defined.....	60
	A 'Knowledge Representation Perspective on the Framework.....	64
	Extending Knowledge Capture in DSR-IS: Alternative Approaches.....	67
	Structure of the Remainder of the Chapter.....	69
	Mid-Range Theory in DSR-IS.....	69

Typological Perspective of the Framework .....	71
Epistemological Perspective of the Framework.....	73
Theory Construction in DSR-IS: Two Published Examples .....	76
Kasper 1996.....	77
Kernel Theory Constructs and Propositions .....	78
ISDT Constructs and Propositions.....	79
Arnott 2006.....	82
Kernel Theory Constructs and Propositions .....	84
Empirical Observations of the DSR-IS Artifact in Operation .....	84
Discussion and Conclusions.....	87
References.....	88
Appendix 4A Kernel Theory and DREPT Propositions for a DSR Project.....	91
Theoretical Constructs.....	92
Kernel Theory Propositions.....	93
DREPT Propositions.....	93
Appendix 4B Kaufmann’s Diagrammatic Representation of the Change in Modes of Mental Representation with Problem Novelty and Kasper’s Interpretation of Kaufmann’s Diagram in Terms of DSS Attributes .....	94
Appendix 4C Theory Building Techniques in Design Science Research .....	94

<b>5</b>	<b>On Theory Development in Design Science Research: Anatomy of a Research Project .....</b>	<b>97</b>
	Introduction .....	97
	Theory in DSR-IS: What Does It Mean? .....	98
	A Theory-Refining DSR-IS Project .....	103
	Background: Awareness of Problem .....	104
	Suggestion .....	105
	Development .....	108
	Evaluation.....	109
	Theory Development .....	112
	Theoretical Constructs.....	113
	Kernel Theory Propositions.....	114
	Mid-Range Theory Propositions .....	114
	Design Theory Propositions.....	115
	Conclusions .....	115
	References.....	118
	Appendix 5A A Process Change Scenario Illustrating “Soft Context Information” (A True Story) .....	120
	Appendix 5B System Quality Representation .....	121
	Appendix 5C Sample Process Graph “Slices” and Associated Text Description and Micro-rationale as used in our Evaluation Prototype .....	122

## PART II PATTERNS\*

<b>6</b>	<b>Using Patterns to Illuminate Research Practice.....</b>	<b>127</b>
	Introduction .....	127
	Patterns, Then, and Now .....	127
	Using Patterns: The Design Science Research Cycle Revisited .....	129
	Mining of Design Science Research Patterns .....	131
	Problem-Solving Patterns in Engineering: The TRIZ Approach .....	131
	Pattern Structure .....	132
	Pattern Usage in the Development of the Smart Object Paradigm.....	133
	Pre-awareness of Problem.....	133
	Awareness of Problem .....	134
	Suggestion .....	135
	Development .....	138
	Evaluation.....	141
	Conclusion .....	143
	Practice, Practice, Practice .....	144
	References.....	145
	Appendix 6A The TRIZ Inventive Principles.....	146
<b>7</b>	<b>Creativity Patterns .....</b>	<b>151</b>
	Enhancement Type Patterns .....	152
	Meditation.....	152
	Type .....	152
	Intent.....	152
	Motivation.....	152
	Context/Applicability .....	152
	Description.....	153
	Notes.....	153
	Consequences .....	153
	Stimulating Creativity .....	153
	Type .....	153
	Intent.....	153
	Motivation.....	153
	Context/Applicability .....	153
	Description .....	154
	Consequence .....	155
	Related Pattern(s).....	155

---

\* The prefix M indicates that the pattern is a meta-level pattern, applicable to multiple stages in the research process. Meta-level patterns are explained in more detail at the end of the section "Using Patterns: The Design Science Research Cycle Revisited" in Chapter 6.

Utilization Type Patterns .....	155
<sup>M</sup> Brainstorming .....	156
Type .....	156
Intent.....	156
Motivation.....	156
Context/Applicability .....	156
Description.....	156
Note .....	156
Consequences .....	157
Usage Example(s).....	157
<sup>M</sup> Changing Attitude .....	157
Type .....	157
Intent.....	157
Motivation.....	157
Context/Applicability .....	157
Description.....	157
Consequences .....	158
Connection to TRIZ Inventive Principles .....	158
Related Pattern(s).....	158
<sup>M</sup> Periodic Work .....	158
Type .....	158
Intent.....	158
Motivation.....	158
Context/Applicability .....	158
Description.....	159
Consequences .....	159
Connection to TRIZ Inventive Principles .....	159
Related Pattern(s).....	159
<sup>M</sup> Stages of Inventive Process .....	159
Type .....	159
Intent.....	159
Motivation.....	159
Context/Applicability .....	160
Description.....	160
Consequences .....	161
Usage Example(s).....	161
<sup>M</sup> Wild Combinations.....	161
Type .....	161
Intent.....	161
Motivation.....	161
Context/Applicability .....	162
Description.....	162
Consequences .....	162

Usage Example(s).....	162
References.....	163

**8 Problem Selection and Development Patterns ..... 165**

Preliminaries Type Patterns .....	167
Problem Formulation.....	167
Type .....	167
Intent.....	168
Motivation.....	168
Context/Applicability .....	168
Description.....	168
Consequences .....	168
Usage Example(s).....	169
Related Pattern(s).....	169
<sup>M</sup> Redefining Research Problem.....	169
Type .....	169
Intent.....	169
Motivation.....	169
Context/Applicability .....	170
Description.....	170
Consequences .....	170
Usage Example(s).....	170
<sup>M</sup> Research Domain Identification.....	171
Type .....	171
Intent.....	171
Motivation.....	171
Context/Applicability .....	171
Description.....	171
Notes.....	172
Consequences .....	172
Usage Example(s).....	172
Research Topic Identification.....	173
Type .....	173
Intent.....	173
Motivation.....	173
Context/Applicability .....	173
Description.....	173
Consequences .....	174
Usage Example(s).....	174
Related Pattern(s).....	174
Visionary Type Pattern .....	174
<sup>M</sup> Being Visionary.....	174
Type .....	174

Intent.....	174
Motivation.....	175
Context/Applicability .....	175
Description.....	175
Consequences .....	175
Usage Example(s).....	175
Related Pattern(s).....	176
Extrapolation Type Pattern .....	176
Interdisciplinary Problem Extrapolation .....	176
Type .....	176
Intent.....	177
Motivation.....	177
Context/Applicability .....	177
Description .....	177
Consequences .....	177
Usage Example(s).....	177
Analysis Type Patterns .....	177
<sup>M</sup> Complex System Analysis.....	178
Type .....	178
Intent.....	178
Motivation.....	178
Context/Applicability .....	178
Description.....	178
Consequences .....	179
Usage Example(s).....	179
<sup>M</sup> Cost-Benefit Analysis.....	179
Type .....	179
Intent.....	179
Motivation.....	180
Context/Applicability .....	180
Description .....	180
Consequences .....	180
Usage Example(s).....	180
Leveraging Expertise.....	181
Type .....	181
Intent.....	181
Motivation.....	181
Context/Applicability .....	181
Description .....	181
Consequences .....	182
Usage Example(s).....	182
<sup>M</sup> Research Conversation .....	182
Type .....	182

Intent.....	182
Motivation.....	182
Context/Applicability .....	182
Description.....	183
Consequences .....	183
Usage Example(s).....	183
Related Pattern(s).....	184
Research Offshoots.....	184
Type .....	184
Intent.....	184
Motivation.....	184
Context/Applicability .....	184
Description.....	185
Consequences .....	185
<sup>M</sup> Solution-Scope Mismatch.....	185
Type .....	185
Intent.....	185
Motivation.....	185
Context/Applicability .....	186
Description.....	186
Consequences .....	186
Usage Example(s).....	187
Related Pattern(s).....	187
Structuring an Ill-Structured Problem.....	187
Type .....	187
Intent.....	187
Motivation.....	187
Context/Applicability .....	188
Description.....	188
Consequences .....	188
Usage Example(s).....	188
<sup>M</sup> Questioning Constraints .....	188
Type .....	188
Intent.....	189
Motivation.....	189
Context/Applicability .....	189
Description.....	189
Consequences .....	189
Usage Example(s).....	190
Generalization Type Pattern .....	190
<sup>M</sup> Abstraction.....	190
Type .....	190

Intent.....	190
Motivation.....	190
Context/Applicability .....	190
Description.....	191
Consequences .....	191
Usage Example(s).....	191
Exploration Type Pattern .....	191
Experimentation and Exploration .....	191
Type .....	191
Intent.....	191
Motivation.....	192
Context/Applicability .....	192
Description.....	192
Consequences .....	192
Usage Example(s).....	192
Segmentation Type Pattern .....	193
Hierarchical Decomposition .....	193
Type .....	193
Intent.....	193
Motivation.....	193
Context/Applicability .....	193
Description.....	193
Consequences .....	194
Combination Type Pattern .....	194
Bridging Research Communities .....	194
Type .....	194
Intent.....	194
Motivation.....	194
Context/Applicability .....	194
Description.....	195
Consequences .....	196
Usage Example(s).....	196
Related Pattern(s).....	196
References.....	197

**9 Literature Search Patterns..... 199**

Preliminaries Type Patterns .....	200
Familiarization with New Area.....	200
Type .....	200
Intent.....	200
Motivation.....	200
Context/Applicability .....	200
Description.....	201

Consequences .....	201
Related Pattern(s) .....	201
<sup>M</sup> Understanding Research Community .....	201
Type .....	201
Intent .....	201
Motivation .....	202
Context/Applicability .....	202
Description .....	202
Consequences .....	202
Usage Example(s) .....	203
Analysis Type Pattern .....	203
<sup>M</sup> Industry/Practice Awareness .....	203
Type .....	203
Intent .....	203
Motivation .....	203
Context/Applicability .....	204
Description .....	204
Consequences .....	204
Usage Example(s) .....	204
Modeling Type Pattern .....	205
<sup>M</sup> Framework Development .....	205
Type .....	205
Intent .....	205
Motivation .....	205
Context/Applicability .....	205
Description .....	205
Consequences .....	206
Usage Example(s) .....	206
References .....	207

## **10 Suggestion and Development Patterns .....209**

Theory Type Patterns .....	212
Approaches for Building Theory .....	213
Type .....	213
Intent .....	213
Motivation .....	213
Context/Applicability .....	214
Description .....	214
Distinguishing the Four Approaches to Theory Development .....	215
Consequences .....	216
Related Pattern(s) .....	217

Building Design-Related Explanatory/Predictive Theory (DREPT) .....	217
Type .....	217
Intent.....	217
Motivation.....	217
Context/Applicability .....	217
Description.....	217
Consequences .....	218
Usage Example(s).....	218
Expanding Design Theories (DTs) with Design and Measurement Models .....	218
Type .....	218
Intent.....	218
Motivation.....	218
Context/Applicability .....	218
Description.....	219
Note .....	219
Consequences .....	219
Usage Example(s).....	220
Hermeneutical/Inductive (H/I) Approach .....	220
Type .....	220
Intent.....	220
Motivation.....	220
Context/Applicability .....	220
Description.....	220
Note .....	221
Consequences .....	221
Hypothetical/Deductive (H/D) Approach.....	221
Type .....	221
Intent.....	221
Motivation.....	222
Context/Applicability .....	222
Description.....	222
Note .....	222
Consequences .....	222
Usage Example(s).....	223
Iterative Prototyping.....	223
Type .....	223
Intent.....	224
Motivation.....	224
Context/Applicability .....	224
Description.....	224

Consequences .....	225
Usage Example(s) .....	225
Related Pattern(s) .....	225
Preliminaries Type Patterns .....	226
<sup>M</sup> Problem Space Tools and Techniques .....	226
Type .....	226
Intent .....	226
Motivation .....	226
Context/Applicability .....	226
Description .....	226
Consequences .....	227
Usage Example(s) .....	227
Connection to TRIZ Inventive Principles .....	227
<sup>M</sup> Research Community Tools and Techniques .....	227
Type .....	227
Intent .....	227
Motivation .....	228
Context/Applicability .....	228
Description .....	228
Consequences .....	228
Usage Example(s) .....	228
Connection to TRIZ Inventive Principles .....	229
Visionary Type Patterns .....	229
<sup>M</sup> Different Perspectives .....	229
Type .....	229
Intent .....	229
Motivation .....	229
Context/Applicability .....	229
Description .....	229
Consequences .....	230
Usage Example(s) .....	230
Connection to TRIZ Inventive Principles .....	230
Related Pattern(s) .....	230
Ideas Repository .....	230
Type .....	230
Intent .....	231
Motivation .....	231
Context/Applicability .....	231
Description .....	231
Consequences .....	231
Connection to TRIZ Inventive Principles .....	231
Pursuing Spontaneous Ideas .....	231
Type .....	231

Intent.....	232
Motivation.....	232
Context/Applicability .....	232
Description.....	232
Consequences .....	232
Connection to TRIZ Inventive Principles .....	232
Extrapolation Type Pattern .....	233
<sup>M</sup> Interdisciplinary Solution Extrapolation.....	233
Type .....	233
Intent.....	233
Motivation.....	233
Context/Applicability .....	233
Description .....	233
Consequences .....	234
Usage Example(s).....	234
Analysis Type Patterns .....	234
Easy Solution First.....	234
Type .....	234
Intent.....	234
Motivation.....	235
Context/Applicability .....	235
Description .....	235
Consequences .....	235
Usage Example(s).....	236
Connection to TRIZ Inventive Principles .....	236
<sup>M</sup> Means/Ends Analysis .....	236
Type .....	236
Intent.....	237
Motivation.....	237
Context/Applicability .....	237
Description .....	237
Consequences .....	237
Usage Example(s).....	238
Related Pattern(s).....	238
Exploration Type Patterns.....	238
Exploring the Use of Crowdsourcing.....	238
Type .....	238
Intent.....	238
Motivation.....	238
Context/Applicability .....	239
Description .....	239
Consequences .....	239
Usage Example(s).....	239

Connection to TRIZ Inventive Principles .....	239
<sup>M</sup> Exploring Generalizability.....	240
Type .....	240
Intent.....	240
Motivation.....	240
Context/Applicability .....	240
Description.....	240
Consequences .....	241
Connection to TRIZ Inventive Principles .....	241
Proactive Assessment for Side Effects .....	241
Type .....	241
Intent.....	241
Motivation.....	241
Context/Applicability .....	241
Description.....	242
Consequences .....	242
Connection to TRIZ Inventive Principles .....	242
Simulation and Exploration.....	242
Type .....	242
Intent.....	242
Motivation.....	242
Context/Applicability .....	243
Description.....	243
Consequences .....	243
Usage Example(s).....	244
Modeling Type Patterns.....	244
Modeling Existing Solutions.....	244
Type .....	244
Intent.....	244
Motivation.....	244
Context/Applicability .....	245
Description.....	245
Consequences .....	245
Usage Example(s).....	245
Related Pattern(s).....	245
<sup>M</sup> Technological Approach Exemplars.....	245
Type .....	245
Intent.....	245
Motivation.....	246
Context/Applicability .....	246
Description.....	246
Consequences .....	246
Usage Example(s).....	246

Using Human Roles .....	247
Type .....	247
Intent.....	247
Motivation.....	247
Context/Applicability .....	247
Description.....	247
Consequences .....	247
Usage Example(s).....	247
Using Surrogates.....	248
Type .....	248
Intent.....	248
Motivation.....	248
Context/Applicability .....	248
Description.....	248
Consequences .....	249
Usage Example(s).....	249
Connection to TRIZ Inventive Principles .....	249
Generalization Type Patterns .....	249
Abstracting Concepts .....	249
Type .....	249
Intent.....	249
Motivation.....	250
Context/Applicability .....	250
Description.....	250
Consequences .....	250
Usage Example(s).....	251
Elegant Design .....	251
Type .....	251
Intent.....	251
Motivation.....	251
Context/Applicability .....	251
Description.....	251
Consequences .....	252
Usage Example(s).....	252
General Solution Principle.....	253
Type .....	253
Intent.....	253
Motivation.....	253
Context/Applicability .....	253
Description.....	253
Consequences .....	254
Usage Example(s).....	254
Reaching the Root.....	254

Type .....	254
Intent.....	254
Motivation.....	255
Context/Applicability .....	255
Description .....	255
Consequences .....	255
Usage Example(s).....	255
Segmentation Type Patterns.....	256
Asymmetric Focus .....	257
Type .....	257
Intent.....	257
Motivation.....	257
Context/Applicability .....	257
Description.....	257
Consequences .....	257
Usage Example(s).....	258
Connection to TRIZ Inventive Principles .....	258
Building Blocks .....	258
Type .....	258
Intent.....	258
Motivation.....	258
Context/Applicability .....	258
Description.....	258
Consequences .....	259
Usage Example(s).....	259
Connection to TRIZ Inventive Principles .....	259
Divide and Conquer with Balancing.....	259
Type .....	259
Intent.....	259
Motivation.....	259
Context/Applicability .....	259
Description.....	260
Consequences .....	260
Usage Example(s).....	260
Connection to TRIZ Inventive Principles .....	260
Emerging Tasks .....	260
Type .....	260
Intent.....	261
Motivation.....	261
Context/Applicability .....	261
Description.....	261
Consequences .....	261

Hierarchical Design.....	262
Type .....	262
Intent.....	262
Motivation.....	262
Context/Applicability .....	262
Description.....	262
Consequences .....	263
Usage Example(s).....	263
Connection to TRIZ Inventive Principles .....	264
<sup>M</sup> Sketching Solution .....	264
Type .....	264
Intent.....	264
Motivation.....	264
Context/Applicability .....	264
Description.....	264
Consequence .....	265
Usage Example(s).....	265
Static and Dynamic Parts .....	265
Type .....	265
Intent.....	265
Motivation.....	265
Context/Applicability .....	265
Description.....	266
Consequences .....	266
Combination Type Patterns .....	266
Combining Partial Solutions .....	266
Type .....	266
Intent.....	266
Motivation.....	266
Context/Applicability .....	267
Description.....	267
Consequences .....	267
Usage Example(s).....	267
Related Pattern(s).....	268
<sup>M</sup> Embedding Concepts and Techniques .....	268
Type .....	268
Intent.....	268
Motivation.....	268
Context/Applicability .....	268
Description.....	268
Consequences .....	268
Usage Example(s).....	268

Connection to TRIZ Inventive Principles .....	269
Related Pattern(s).....	269
Integrating Techniques .....	269
Type .....	269
Intent.....	269
Motivation.....	269
Context/Applicability .....	269
Description.....	269
Consequences.....	270
Usage Example(s).....	270
Related Pattern(s).....	270
Development Type Patterns .....	270
Continuous Work.....	271
Type .....	271
Intent.....	271
Motivation.....	271
Context/Applicability .....	271
Description.....	271
Consequences.....	271
Connection to TRIZ Inventive Principles .....	271
Empirical Refinement.....	272
Type .....	272
Intent.....	272
Motivation.....	272
Context/Applicability .....	272
Description.....	272
Consequences.....	273
Usage Example(s).....	273
Related Pattern(s).....	273
Collaboration Type Patterns .....	274
Provocation.....	274
Type .....	274
Intent.....	274

## **PART III KNOWLEDGE CONTRIBUTION & RESEARCH PATTERNS USAGE ANALYSIS**

<b>13 Knowledge Contribution and Patterns Usage Analysis of Design Science Research Exemplars .....</b>	<b>309</b>
Introduction .....	309
Analysis Examples .....	309
Knowledge Contribution Analysis.....	311
Pattern Usage Analysis.....	311

Smart Objects: A Data/Knowledge Paradigm for the Modeling and Design of Operations Support Systems .....	312
Source.....	312
Knowledge Contribution .....	312
Contribution Type.....	312
Status of Design Theory .....	313
Research Patterns Usage .....	314
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	314
Literature Search Patterns (Awareness of Problem Phase) .....	316
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	316
Evaluation and Validation Patterns (Evaluation Phase).....	318
Publishing Patterns (Conclusion Phase).....	319
CyberGate: A Design Framework and System for Text Analysis of Computer-Mediated Communication.....	320
Source.....	320
Knowledge Contribution .....	321
Contribution Type.....	321
Status of Design Theory .....	321
Research Patterns Usage .....	322
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	322
Literature Search Patterns (Awareness of Problem Phase) .....	322
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	323
Evaluation and Validation Patterns (Evaluation Phase).....	324
Publishing Patterns (Conclusion Phase).....	324
World Wide Web: Proposal for Hypertext Project .....	325
Source.....	325
Knowledge Contribution .....	326
Contribution Type.....	326
Status of Design Theory .....	326
Research Patterns Usage .....	326
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	326
Literature Search Patterns (Awareness of Problem Phase) .....	327
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	327
Evaluation and Validation Patterns (Evaluation Phase).....	328
Entity-Relationship Model—Toward a Unified View of Data.....	328
Source.....	328

Knowledge Contribution .....	329
Contribution Type.....	329
Status of Design Theory .....	329
Research Patterns Usage .....	330
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	330
Literature Search Patterns (Awareness of Problem Phase) .....	331
Suggestion and Development Patterns (Suggestion/ Development Phases).....	331
Evaluation and Validation Patterns (Evaluation Phase).....	332
Publishing Patterns (Conclusion Phase).....	332
Case-Based Database Design Support System.....	332
Source.....	332
Knowledge Contribution .....	332
Contribution Type.....	332
Status of Design Theory .....	333
Research Patterns Usage .....	334
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	334
Literature Search Patterns (Awareness of Problem Phase) .....	334
Suggestion and Development Patterns (Suggestion/ Development Phases).....	335
Evaluation and Validation Patterns (Evaluation Phase).....	335
Relational Model of Data for Large Shared Data Banks .....	336
Source.....	336
Additional Source .....	336
Knowledge Contribution .....	336
Contribution Type.....	336
Status of Design Theory .....	336
Research Patterns Usage .....	338
Creativity Patterns.....	338
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	338
Literature Search Patterns (Awareness of Problem Phase) .....	339
Suggestion and Development Patterns (Suggestion/ Development Phases).....	339
Evaluation and Validation Patterns (Evaluation Phase).....	339
Publishing Patterns (Conclusion Phase).....	339
Automating the Discovery of AS-IS Business Process Models:	
Probabilistic and Algorithmic Approaches .....	340
Source.....	340
Knowledge Contribution .....	340

Contribution Type.....	340
Status of Design Theory .....	340
Research Patterns Usage .....	341
Problem Selection and Development Patterns (Awareness of Problem Phase).....	341
Literature Search Patterns (Awareness of Problem Phase) .....	343
Suggestion and Development Patterns (Suggestion/ Development Phases).....	343
Evaluation and Validation Patterns (Evaluation Phase).....	344
Working Set Model for Program Behavior.....	345
Source.....	345
Additional Source .....	345
Knowledge Contribution.....	345
Contribution Type.....	345
Status of Design Theory .....	345
Research Patterns Usage .....	346
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	346
Literature Search Patterns (Awareness of Problem Phase) .....	347
Suggestion and Development Patterns (Suggestion/ Development Phases).....	347
Evaluation and Validation Patterns (Evaluation Phase).....	348
Publishing Patterns (Conclusion Phase).....	348
Communicating Sequential Processes.....	348
Source.....	348
Knowledge Contribution .....	349
Contribution Type.....	349
Status of Design Theory .....	349
Research Patterns Usage .....	350
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	350
Suggestion and Development Patterns (Suggestion/ Development Phases).....	350
Evaluation and Validation Patterns (Evaluation Phase).....	351
Publishing Patterns (Conclusion Phase).....	351
Multilevel Model for Measuring Fit between a Firm's Competitive Strategies and Information Systems Capabilities .....	352
Source.....	352
Knowledge Contribution .....	352
Contribution Type.....	352
Status of Design Theory .....	352
Research Patterns Usage .....	353

Problem Selection and Development Patterns (Awareness of Problem Phase) .....	353
Literature Search Patterns (Awareness of Problem Phase) .....	354
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	355
Evaluation and Validation Patterns (Evaluation Phase) .....	355
Publishing Patterns (Conclusion phase) .....	356
Improving Analysis Pattern Reuse in Conceptual Design: Augmenting Automated Processes with Supervised Learning.....	356
Source.....	356
Knowledge Contribution .....	356
Contribution Type.....	356
Status of Design Theory .....	357
Research Patterns Usage .....	358
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	358
Literature Search Patterns (Awareness of Problem Phase) .....	358
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	359
Evaluation and Validation Patterns (Evaluation Phase) .....	359
Publishing Patterns (Conclusion Phase) .....	360
Optimum Multiway Search Trees.....	360
Source.....	360
Knowledge Contribution .....	360
Contribution Type.....	360
Status of Design Theory .....	360
Research Patterns Usage .....	362
Problem Selection and Development Patterns (Awareness of Problem Phase) .....	362
Suggestion and Development Patterns (Suggestion/ Development Phases) .....	362
Evaluation and Validation Patterns (Evaluation Phase) .....	363
Publishing Patterns (Conclusion Phase) .....	364
Conclusion.....	364
