

Contents

Contents	v
Preface	ix
1 The Basics	1
1.1 Introduction	1
1.2 Programs	1
1.3 Hello, World!	2
1.4 Functions	3
1.5 Types, Variables, and Arithmetic	5
1.6 Scope	8
1.7 Constants	8
1.8 Pointers, Arrays, and References	9
1.9 Tests	12
1.10 Advice	14
2 User-Defined Types	15
2.1 Introduction	15
2.2 Structures	16
2.3 Classes	17
2.4 Unions	19
2.5 Enumerations	20
2.6 Advice	21

3 Modularity	23
3.1 Introduction	23
3.2 Separate Compilation	24
3.3 Namespaces	26
3.4 Error Handling	27
3.5 Advice	31
4 Classes	33
4.1 Introduction	33
4.2 Concrete Types	34
4.3 Abstract Types	39
4.4 Virtual Functions	42
4.5 Class Hierarchies	42
4.6 Copy and Move	48
4.7 Advice	56
5 Templates	59
5.1 Introduction	59
5.2 Parameterized Types	59
5.3 Function Templates	62
5.4 Concepts and Generic Programming	62
5.5 Function Objects	64
5.6 Variadic Templates	66
5.7 Aliases	67
5.8 Template Compilation Model	68
5.9 Advice	68
6 Library Overview	71
6.1 Introduction	71
6.2 Standard-Library Components	72
6.3 Standard-Library Headers and Namespace	72
6.4 Advice	74
7 Strings and Regular Expressions	75
7.1 Introduction	75
7.2 Strings	75
7.3 Regular Expressions	78
7.4 Advice	84

8 I/O Streams	85
8.1 Introduction	85
8.2 Output	86
8.3 Input	87
8.4 I/O State	89
8.5 I/O of User-Defined Types	90
8.6 Formatting	91
8.7 File Streams	92
8.8 String Streams	92
8.9 Advice	93
 9 Containers	 95
9.1 Introduction	95
9.2 vector	96
9.3 list	100
9.4 map	101
9.5 unordered_map	102
9.6 Container Overview	103
9.7 Advice	104
 10 Algorithms	 107
10.1 Introduction	107
10.2 Use of Iterators	108
10.3 Iterator Types	111
10.4 Stream Iterators	112
10.5 Predicates	113
10.6 Algorithm Overview	114
10.7 Container Algorithms	115
10.8 Advice	115
 11 Utilities	 117
11.1 Introduction	117
11.2 Resource Management	117
11.3 Specialized Containers	121
11.4 Time	125
11.5 Function Adaptors	125
11.6 Type Functions	128
11.7 Advice	131

12 Numerics	133
12.1 Introduction	133
12.2 Mathematical Functions	134
12.3 Numerical Algorithms	135
12.4 Complex Numbers	135
12.5 Random Numbers	136
12.6 Vector Arithmetic	138
12.7 Numeric Limits	138
12.8 Advice	138
13 Concurrency	141
13.1 Introduction	141
13.2 Tasks and <code>threads</code>	142
13.3 Passing Arguments	143
13.4 Returning Results	144
13.5 Sharing Data	144
13.6 Waiting for Events	146
13.7 Communicating Tasks	147
13.8 Advice	151
14 History and Compatibility	153
14.1 History	153
14.2 C++11 Extensions	158
14.3 C/C++ Compatibility	161
14.4 Bibliography	166
14.5 Advice	168
Index	171
