Acknowledgements	v
1 Description	1
1.1 Terminology	1
1.2 Definition	1
1.2.1 Diagnostic Criteria	1
1.2.2 Applicability of Criteria for Adults	4
1.3 Epidemiology	5
1.3.1 Prevalence and Incidence	5
1.3.2 Sex	5
1.3.3 Age	6
1.3.4 Ethnicity	6
1.4 Course and Prognosis	7
1.5 Differential Diagnosis	10
1.5.1 Disruptive, Impulse-Control, and Conduct Disorders	12
1.5.2 Depressive Disorders	13
1.5.3 Anxiety Disorders	13
1.5.4 Trauma and Stress-Related Disorders	13
1.5.5 Bipolar and Related Disorders	14
1.5.6 Personality Disorders	14
1.5.7 Substance-Related and Addictive Disorders	15
1.5.8 Neurodevelopmental, Physical, and Medical Conditions	15
1.5.9 Environmental and Psychosocial Factors	16
1.6 Comorbidity	16
1.6.1 Disruptive, Impulse-Control, and Conduct Disorders	17
1.6.2 Depressive Disorders	17
1.6.3 Anxiety Disorders	18
1.6.4 Bipolar and Related Disorders	18
1.6.5 Substance-Related and Addictive Disorders	18
1.6.6 Personality Disorders	19
1.6.7 Sleep-Wake Disorders	19
1.7 Diagnosis	20
1.7.1 Diagnostic Interviews	21
1.7.2 Rating Scales	21
1.7.3 Psychocducational Testing	23
1.7.4 Neuropsychological Testing	24
1.7.5 Laboratory Testing	24
2 Theories and Models of ADHD in Adults	26
2.1 Neurobiological Factors in ADHD	26
2.1.1 Genetic Contributions	26
2.1.2 Neurological Factors	27
2.1.3 Cognitive Determinants	29
2.2 Environmental Risk Factors	30
2.2.1 Biological Adversity Factors	31

2.2.2	Environmental Toxins	31
2.2.3	Food Additives and Dietary Factors	32
2.3	Psychosocial Adversity Factors	32
2.4	Interactions Among Neurobiological, Environmental, and Psychosocial Adversity Factors	32
3	Diagnosis and Treatment Indications	34
3.1	Assessment Procedures	34
3.1.1	General Considerations	35
3.1.2	Developmental History	36
3.1.3	Clinical Interview	36
3.1.4	Behavioral Rating Scales	39
3.1.5	Differential Diagnosis and Comorbidities	40
3.1.6	Testing	40
3.2	The Decision-Making Process	41
3.3	Treatment Considerations	42
4	Treatment	45
4.1	Methods of Treatment	45
4.2	Psychopharmacology	46
4.2.1	Stimulant Medications	48
4.2.2	Nonstimulant Medications	50
4.3	Psychosocial and Psychological Therapies	52
4.3.1	Coaching and Cognitive Behavior Therapy	52
4.3.2	Meta-Cognitive Therapy and Time-Management and Organizational Skills Training	52
4.3.3	Supportive and Family Therapies	54
4.3.4	Neurofeedback and Cognitive Enhancement Training	54
4.3.5	Psychoeducation	54
4.4	Variations and Combinations of Methods	55
4.5	Mechanisms of Action	58
4.6	Treating Adults With ADHD and Comorbid Conditions	59
4.6.1	Pharmacological Considerations	59
4.6.2	Psychotherapeutic Considerations	61
4.7	Problems in Carrying Out the Treatments	63
4.8	Efficacy and Prognosis	64
4.9	Multicultural Issues	67
5	Case Vignettes	68
5.1	Julie (A College Student)	68
5.2	Peter (An Adult)	70
6	Further Reading	72
7	References	74
8	Appendix: Tools and Resources	86
