LIST OF CONTRIBUTORS	xiii
PREFACE	xv

Chapter 1

The Ecosystem of the “Sick” Kid	1
--	----------

SUZANNE SALZINGER, JOHN ANTROBUS, AND JOSEPH GLICK

A Case in Point	1
The Ecosystem Approach	2
The Medical Model by Contrast	6
Establishing the Rationale for and the Validity of the Ecosystem Approach	7
References	16

Part I

CLASSIFICATION AND COUNTING

Chapter 2**Hypotheses about the Prevalence of Clinical Maladjustment
in Children in the United States 19**

ROBIN WUNSCH-HITZIG, MADELYN SCHWARTZ GOULD,
AND BRUCE P. DOHRENWEND

Chapter 3**An Approach to the Validation of Clinical Syndromes in Childhood 31**

DAVID SHAFFER

Etiological Influences	34
How Does the Hyperactivity Syndrome Differ from other Clinical Entities?	36
Response to Treatment	37
Prediction of Natural History	38
Conclusion and Summary	41
References	42

Part II**THE ECOSYSTEM AS A FRAMEWORK FOR RESEARCH****Chapter 4****Stress, Drugs, and the Promotion of Disregulation in Children 49**

GARY E. SCHWARTZ

Introduction and Overview	51
General Systems Theory, Biofeedback, and Physiological Patterning	52
Cybernetic Theory, Biofeedback, and Self-regulation	53
The Brain as a Health-care System	56
Disregulation, Disordered Homeostasis, and Disease	62
Self-regulation, Disregulation, and Treatment	67
Disregulation and Disorders in Children	71
Summary and Conclusions	73
References	74

Chapter 5**Considerations for Undertaking Ecological Research
in Mental Retardation 77**

STEPHEN A. RICHARDSON

The Definition of Mental Retardation	79
Who Do the Study Subjects Represent?	81

Individual Characteristics of Mentally Retarded Subjects	85
Characteristics of the Environment	88
Time as a Factor	99
Conclusion	101
References	101

Chapter 6

Ecological and Pharmacological Influences on Behaviors in the Classroom: The Hyperkinetic Behavioral Syndrome 103

BARRY E. COLLINS, CAROL K. WHALEN, AND BARBARA HENKER

Conceptual Overview	105
Overview of the Summer School Research Project	111
Some Illustrative Data: Dissecting the Classroom Ecology	113
Some More Illustrative Data: Assessments of Peer Interaction	125
References	135

Part III

INTERVENTION: ECOSYSTEM AND ATTRIBUTION THEORY

Chapter 7

The Many Messages of Medication: Hyperactive Children's Perceptions and Attributions 141

BARBARA HENKER AND CAROL K. WHALEN

Emanative Effects: The Sociocognitive Sequelae of Medication	142
Interview Rationale and Methodology	144
The Children	149
Information, Attitudes, and Attributions: Quantitative Ratings	149
Common Themes: What the Children Say	151
Limitations of the Research	164
Conclusions	165
Reference Note	165
Reference	165

Chapter 8

Hyperkinesis as a Pathology and as a Social Metaphor: Life within a Kenosystem 167

STANLEY S. ROBIN AND JAMES J. BOSCO

Part IV

INTERVENTION: ECOSYSTEM AND BEHAVIOR THEORY

Chapter 9

Parent Insularity as a Determinant of Generalization Success in Family Treatment 187

ROBERT G. WAHLER

Assessment Procedures	189
Content Valences of Mother Interactions with Kinfolk, Friends, and Helping-Agency Representatives	190
Coercion Traps: Some Possible Intra- and Interfamily Formations	193
Appendix 9.1	196
Appendix 9.2	198
Reference Notes	198
References	199

Chapter 10

Training Parents as Teachers of Their Developmentally Disabled Children 201

BRUCE L. BAKER

Sick or Slow? Models and Resulting Services	202
The Retarded Child's Family: Parents as Patients or Teachers?	203
Parent-Training Approaches	205
Training by Manuals Alone	206
Lasting Benefits of Parent Training	209
Implications for Service Delivery	212
Reference Notes	215
References	215

Chapter 11

Explaining Persistence in Improvement in Social-Learning-Based Child Therapy 217

MATTHEW J. FLEISCHMAN

Parental Behavior and Childhood Aggression	218
Situational Determinants of Parental Behavior	220
Treatment and Parental Behavior	222
Empirical Support for Maintenance of Family Intervention	226

Summary	232
Reference Notes	233
References	233

Part V

ECOLOGICAL CONSIDERATIONS IN POLICY AND FUNDING FOR CHILD HEALTH

Chapter 12

Principles and Social Policy Implications of a Whole-Child Psychology 239

EDWARD ZIGLER AND SUSAN HUNSINGER MUENCHOW

Chapter 13

A Bureaucratic Environment and Gatekeeping Decisions 249

SAAD Z. NAGI

Patterns of Gatekeeping Decisions	251
Influences on Decisions	252
Factors Related to Applicants	253
Implications of Gatekeeping Decisions	261
Some Conclusions	264
Reference Notes	265
References	266

Part VI

ECOLOGICAL INTERVENTION APPLIED

Chapter 14

An Ecologically Oriented, Service-Based System for the Classification of Handicapped Children 271

NICHOLAS HOBBS

Introduction	272
Existing Classification Systems	273
An Ecologically Oriented, Service-Based Classification System	274
Ecological Assessment and Enablement Plan	276

The Liaison Function	283
Computerization of the Classification System	284
Limitations of the Proposed System	285
Analysis of the Functional Basis of Opposition to the Proposal	286
Prototype Models	287
Reference Notes	289
References	290
<u>Epilogue</u>	291
SUZANNE SALZINGER, JOHN ANTROBUS, AND JOSEPH GLICK	
AUTHOR INDEX	293
SUBJECT INDEX	301
