Functional methods in differential equations

CHAPMAN & HALL/CRC

A CRC Press Company
Boca Raton London New York Washington, D.C.

Contents

Introduction	ix
1 Preliminaries	1
1.1 Function and distribution spaces	1
1.2 Monotone operators, convex functions, and subdifferentials	8
1.3 Some elements of spectral theory	18
1.4 Linear evolution equations and semigroups	23
1.5 Nonlinear evolution equations	25
2 Elliptic boundary value problems	33
2.1 Nondegenerate elliptic boundary value problems	33
2.2 Degenerate elliptic boundary value problems	40
3 Parabolic problems with algebraic boundary conditions	67
3.1 Homogeneous boundary conditions	68
3.2 Nonhomogeneous boundary conditions	75
3.3 Higher regularity of solutions	81
4 Parabolic problems with algebraic-differential boundary conditions	91
4.1 Homogeneous algebraic boundary condition	93
4.2 Nonhomogeneous algebraic boundary condition	100
4.3 Higher regularity of solutions	104
5 Hyperbolic problems with algebraic boundary conditions	109
5.1 Existence, uniqueness, and long-time behavior of solutions .	110
5.2 Higher regularity of solutions	119

6	Hyperbolic problems with algebraic-differential boundary conditions	129
6.1	Existence, uniqueness, and long-time behavior of solutions .	130
6.2	Higher regularity of solutions	134
7	The Fourier method for abstract differential equations	139
7.1	First order linear equations	139
7.2	Semilinear first order equations	145
7.3	Second order linear equations	148
7.4	Semilinear second order equations	154
8	The semigroup approach for abstract differential equations	157
8.1	Semilinear first order equations	157
8.2	Hyperbolic partial differential systems with nonlinear boundary conditions	165
9	Nonlinear nonautonomous abstract differential equations	171
9.1	First order differential and functional equations containing subdifferentials	172
9.2	An application	192
10	Implicit nonlinear differential equations	203
10.1	Existence of solution	205
10.2	Uniqueness of solution	224
10.3	Continuous dependence of solution	229
10.4	Existence of periodic solutions	238
	Index	241
