

Contents

<i>Preface</i>	xi
CHAPTER 1 Learning Disabilities	1
The Term	1
Toward a Definition	3
What Is Learning?	3
Problem of Assessment	4
An Issue in Logic	6
Expectation and Performance	7
Expectation-Performance Discrepancy	7
What Is “Learning Potential”?	8
Assessment for Intervention	10
Learning Disability—A Definition	10
A Look Back	12
Summary	14
CHAPTER 2 Learning Disabilities and Research on Learning	16
Phases of Learning	16
Motivation	16
Apprehension	17
Acquisition	18
Retention and Recall	18
Generalization	18
Performance	19
Feedback	19
Research on Human Learning	20
Developmental Changes and Individual Differences	22
Reinforcer Effectiveness	22
Learning about Relationships	24
Discrimination Learning	24
Paired-Associate Learning	25
Perceptual Learning	27

<i>Preface</i>	xi
CHAPTER 1 Learning Disabilities	1
The Term	1
Toward a Definition	3
What Is Learning?	3
Problem of Assessment	4
An Issue in Logic	6
Expectation and Performance	7
Expectation-Performance Discrepancy	7
What Is “Learning Potential”?	8
Assessment for Intervention	10
Learning Disability—A Definition	10
A Look Back	12
Summary	14
CHAPTER 2 Learning Disabilities and Research on Learning	16
Phases of Learning	16
Motivation	16
Apprehension	17
Acquisition	18
Retention and Recall	18
Generalization	18
Performance	19
Feedback	19
Research on Human Learning	20
Developmental Changes and Individual Differences	22
Reinforcer Effectiveness	22
Learning about Relationships	24
Discrimination Learning	24
Paired-Associate Learning	25
Perceptual Learning	27

Reduction of Uncertainty	27
Distinctive Features	29
Redundant Features	30
Incidental Learning	32
Developmental Trends	33
Selective Attention	34
Developmental Trends	35
Summary	36
CHAPTER 3 Attention and Learning	38
What Is Attention?	38
Different Aspects of Attention	39
Selective Attention	40
Attention and Learning Disabilities	43
Measures of Attention	43
Studies of Attention	45
Attention as a Developmental Phenomenon	46
Developmental Studies	46
Learning Disabilities as a Developmental Lag in Selective Attention	49
Follow-up Studies	51
Development of Selective Attention	53
Overexclusive Attention	53
Overinclusive Attention	54
Selective Attention	54
Enhancing Selective Attention	56
Summary	60
CHAPTER 4 Learning Disabilities and the Brain-Dysfunction Hypothesis	62
Learning and the Brain	62
The Methodological Dilemma	63
Learning Disabilities and Brain Abnormalities	65
The Assumption of a Syndrome	65
Testing the Assumption	66
Assessing Brain Damage	68
Studies of Brain Functions	69
Sequencing	71
Intersensory Integration	72
Selective Attention	73
Perceptual-Motor Functions	76
Developmental Lag	80

Reduction of Uncertainty	27
Distinctive Features	29
Redundant Features	30
Incidental Learning	32
Developmental Trends	33
Selective Attention	34
Developmental Trends	35
Summary	36
CHAPTER 3 Attention and Learning	38
What Is Attention?	38
Different Aspects of Attention	39
Selective Attention	40
Attention and Learning Disabilities	43
Measures of Attention	43
Studies of Attention	45
Attention as a Developmental Phenomenon	46
Developmental Studies	46
Learning Disabilities as a Developmental Lag in Selective Attention	49
Follow-up Studies	51
Development of Selective Attention	53
Overexclusive Attention	53
Overinclusive Attention	54
Selective Attention	54
Enhancing Selective Attention	56
Summary	60
CHAPTER 4 Learning Disabilities and the Brain-Dysfunction Hypothesis	62
Learning and the Brain	62
The Methodological Dilemma	63
Learning Disabilities and Brain Abnormalities	65
The Assumption of a Syndrome	65
Testing the Assumption	66
Assessing Brain Damage	68
Studies of Brain Functions	69
Sequencing	71
Intersensory Integration	72
Selective Attention	73
Perceptual-Motor Functions	76
Developmental Lag	80

Learning Disabilities as a Developmental Lag	80
Perceptual-Motor Training	81
Summary	83
CHAPTER 5 Hyperactivity and the Effects of Medication	85
Hyperactivity	85
Hyperactivity and Learning Disability	85
Hyperactivity and Cerebral Damage	87
Characteristics of the Hyperactive Child	88
The Hyperactive Child and the Environment	90
Conclusions	94
Use of Drugs	95
Methodological Issues	97
The Criterion Problem	99
Drugs and Learning	100
Risks and Benefits	101
Drugs and Attitudes	102
Potential Abuses	104
Summary	105
CHAPTER 6 Teaching the Learning-disabled Child— Cognitive Methods	107
Selective Attention or Impulse Control?	107
What Is an Impulse?	108
Remedial Efforts	109
“Stop, Look, and Listen”	109
Instruction in Self-Guidance	114
Modeling the Use of Self-Instruction	116
Film-mediated Modeling	118
Teaching Response Strategies	119
Impulse Control or Selective Attention?	120
Impulsivity as a Learned Response Style	121
Implications for Remedial Programs	121
Summary	122
CHAPTER 7 Teaching the Learning-disabled Child— Behavioral Methods	123
Increasing Attending Behavior	124
Working with Groups of Disruptive Children	125
Generalization of Progress	127

Learning Disabilities as a Developmental Lag	80
Perceptual-Motor Training	81
Summary	83
CHAPTER 5 Hyperactivity and the Effects of Medication	85
Hyperactivity	85
Hyperactivity and Learning Disability	85
Hyperactivity and Cerebral Damage	87
Characteristics of the Hyperactive Child	88
The Hyperactive Child and the Environment	90
Conclusions	94
Use of Drugs	95
Methodological Issues	97
The Criterion Problem	99
Drugs and Learning	100
Risks and Benefits	101
Drugs and Attitudes	102
Potential Abuses	104
Summary	105
CHAPTER 6 Teaching the Learning-disabled Child— Cognitive Methods	107
Selective Attention or Impulse Control?	107
What Is an Impulse?	108
Remedial Efforts	109
“Stop, Look, and Listen”	109
Instruction in Self-Guidance	114
Modeling the Use of Self-Instruction	116
Film-mediated Modeling	118
Teaching Response Strategies	119
Impulse Control or Selective Attention?	120
Impulsivity as a Learned Response Style	121
Implications for Remedial Programs	121
Summary	122
CHAPTER 7 Teaching the Learning-disabled Child— Behavioral Methods	123
Increasing Attending Behavior	124
Working with Groups of Disruptive Children	125
Generalization of Progress	127

Follow-through	127
Attribution of Progress	128
Enhancing Generalization	129
Participation of Parents	129
Selv-Evaluation	131
From Tokens to Praise	133
The Teacher's Role	134
Steps in Implementing a Treatment Plan	135
Relevancy of Training Methods	138
Summary	140
CHAPTER 8 Reading and Reading Disorders	141
What Is Reading?	141
Meaning and Understanding	142
Reading Disabilities and Basic Skills	142
A Hierarchy of Reading Skills	143
Selective Attention	144
Sequential Scanning	149
Directionality and Laterality	150
Discrimination	151
Decoding and Comprehension	153
Linguistic Skill	154
Two Methods of Teaching Reading	155
Sight Recognition	157
Phonics	157
Sight Recognition or Phonics?	158
Reading and Reinforcement	159
Remedial Reading Based on Operant Principles	160
Comprehension	163
Reading Is Its Own Reward	164
Summary	165
<i>Conclusion</i>	167
<i>References</i>	169
<i>Indexes</i>	179
<i>Name Index</i>	
<i>Subject Index</i>	

Follow-through	127
Attribution of Progress	128
