Contents

Preface vii

1 *Cogito Ergo Sum* 1

Developmental Equivalence 2
What Develops? 3
Implications for Atypical Populations 11
"Typical" Development 14
Instruction Based on a Developmental Versus Difference Model 14

2 To Err Is Human, to Reorganize Divine 18

Error Production as an Outcome of Data Reduction 20
Error Production as Evidence of Cognitive Competence 22
Error Detection and Correction 24
"Error-Free" Learning and Passivity 26
Error Commission and Regression 31
Error Production as a Key to Assessment and Instruction 33
Diagnosing Patterns of Correct and Incorrect Responses 36
Examining the Nature of Incorrect Responses 38
Summary 41

3 Self-Selected Strategies 43

Strategic Behavior 43
Strategic Behavior in Cognitively Impaired Versus Nonimpaired Populations 43
Determinants of Strategic Behavior 44
Metacognitive Passivity 45
Misguided Attention 46
Knowledge Structure and Attention 47
Context and Attention 49
Vagueness, Imprecision, and Strategic Behavior 51
Environmental Contribution to Passivity and Imprecision 57
Spontaneous Strategy Generation 58
"Good" Strategies Redefined 59
Conclusion 64

Summary 41

3 Self-Selected Strategies 43

Strategic Behavior 43
Strategic Behavior in Cognitively Impaired Versus Nonimpaired Populations 43
Determinants of Strategic Behavior 44
Metacognitive Passivity 45
Misguided Attention 46
Knowledge Structure and Attention 47
Context and Attention 49
Vagueness, Imprecision, and Strategic Behavior 51
Environmental Contribution to Passivity and Imprecision 57
Spontaneous Strategy Generation 58
"Good" Strategies Redefined 59
Conclusion 64

4 Man Is the Measure of All Things 65

Measurement of Strategy Usage 65
Direct Measures of Strategy Performance 66
Memory 66
Problem Solving 70
Academic Skills 70
Verbal Strategies 71
Indirect Methods of Measurement 75
The Adequacy of Verbal Reports 77
Verbal Reports as Measures of Strategy Usage 80
Group Setting as a Medium for Observing Strategic Behavior 83
Conclusion 83

5 No Man Is an Island 84

Evolution of Cognitive Processes Under Adult Guidance 84
Peer Tutoring 91
Group Interaction 94
Social Skills of Learning-Disabled Children 101

6 How Can I Know What I Think Till I See What I Say? 103

Group Condition 105
Group and Individual Conditions 111
Relationship Between Strategy Usage and Performance 112
Metacognition 115
Group Interaction 116
Responses to Different Stimulus Types 117
Summary and Implications 120

7 Back to the Classroom 124

Flexible Programming 124
Social Cognition and Group Instruction 124
Social Cognition and Apprenticeship 126
Ceding Cognitive Control to the Child 128
Adapting to the Child's Characteristics 129
Metacognitive Interventions 130
Instructional Needs of Slow Learners 131
Mainstreaming 132
Conclusion 134

Appendix A: Stimulus Materials 137

Appendix B: Strategy Scoring System 141
