

Contents

1. A Set of Brains, 3

- 1.1. Left–right inside, 3
- 1.2. Left–right outside, 5
- 1.3. Outside left–inside right and outside right–inside left, 5

2. The Brain and Learning To Read, 8

- 2.1. Words in a sentence, 8
- 2.2. Hemispheres and learning to read, 9
- 2.3. Brain activity and reading, 11
- 2.4. Progressing from initial to advanced reading, 13

3. Dyslexias, 16

- 3.1. Reading disabilities: “betting on the wrong horse”, 16
- 3.2. L- and P-dyslexia: characteristics, 18
- 3.3. Is the concept of L- and P-dyslexia valid?, 20
- 3.4. How can L- and P-dyslexics be distinguished?, 21

4. Neuropsychological Treatment Methods, 24

- 4.1. Hemisphere-specific stimulation, 24
- 4.2. Hemisphere-alluding stimulation, 25
- 4.3. Is the brain pliable?, 28

5. Results of Neuropsychological Treatment, 31

- 5.1. Control studies, 31
- 5.2. Preliminary study, 32

Contents

1. A Set of Brains, 3

- 1.1. Left–right inside, 3
- 1.2. Left–right outside, 5
- 1.3. Outside left–inside right and outside right–inside left, 5

2. The Brain and Learning To Read, 8

- 2.1. Words in a sentence, 8
- 2.2. Hemispheres and learning to read, 9
- 2.3. Brain activity and reading, 11
- 2.4. Progressing from initial to advanced reading, 13

3. Dyslexias, 16

- 3.1. Reading disabilities: “betting on the wrong horse”, 16
- 3.2. L- and P-dyslexia: characteristics, 18
- 3.3. Is the concept of L- and P-dyslexia valid?, 20
- 3.4. How can L- and P-dyslexics be distinguished?, 21

4. Neuropsychological Treatment Methods, 24

- 4.1. Hemisphere-specific stimulation, 24
- 4.2. Hemisphere-alluding stimulation, 25
- 4.3. Is the brain pliable?, 28

5. Results of Neuropsychological Treatment, 31

- 5.1. Control studies, 31
- 5.2. Preliminary study, 32

- 5.3. Extensive study, 35
- 5.4. Contributive studies, 40
- 5.5. Recent studies, 45
- 5.6. Concluding remarks, 48

6. Important Questions, 51

- 6.1. Questions of theoretical import, 51
- 6.2. Questions of practical import, 53

7. Hemisphere-Specific Stimulation (HSS) via the Visual Half-Fields, 58

- 7.1. Overview, 58
- 7.2. Fixation procedure, 61
- 7.3. Choice of words and duration of presentation, 63
- 7.4. Treatment procedure, 63
- 7.5. Concluding remarks, 68

8. Hemisphere-Specific Stimulation (HSS) via the Hands, 70

- 8.1. Overview, 70
- 8.2. Treatment procedure, 72
- 8.3. Concluding remarks (and a reservation), 74

9. Hemisphere-Alluding Stimulation (HAS), 76

- 9.1. Introduction, 76
- 9.2. HAS for L-dyslexics, 77
- 9.3. HAS for P-dyslexics, 80

10. Bibliography, 83

- 10.1. Introduction, 83
- 10.2. General sources, 84
- 10.3. Sources relating to specific chapters, 86

Index, 93

- 5.3. Extensive study, 35
- 5.4. Contributive studies, 40
- 5.5. Recent studies, 45
- 5.6. Concluding remarks, 48

6. Important Questions, 51

- 6.1. Questions of theoretical import, 51
- 6.2. Questions of practical import, 53

7. Hemisphere-Specific Stimulation (HSS) via the Visual Half-Fields, 58

- 7.1. Overview, 58
- 7.2. Fixation procedure, 61
- 7.3. Choice of words and duration of presentation, 63
- 7.4. Treatment procedure, 63
- 7.5. Concluding remarks, 68

8. Hemisphere-Specific Stimulation (HSS) via the Hands, 70

- 8.1. Overview, 70
- 8.2. Treatment procedure, 72
- 8.3. Concluding remarks (and a reservation), 74

9. Hemisphere-Alluding Stimulation (HAS), 76

- 9.1. Introduction, 76
- 9.2. HAS for L-dyslexics, 77
- 9.3. HAS for P-dyslexics, 80

10. Bibliography, 83

- 10.1. Introduction, 83
- 10.2. General sources, 84
- 10.3. Sources relating to specific chapters, 86

Index, 93

Contents

1. A Set of Brains, 3

- 1.1. Left–right inside, 3
- 1.2. Left–right outside, 5
- 1.3. Outside left–inside right and outside right–inside left, 5

2. The Brain and Learning To Read, 8

- 2.1. Words in a sentence, 8
- 2.2. Hemispheres and learning to read, 9
- 2.3. Brain activity and reading, 11
- 2.4. Progressing from initial to advanced reading, 13

3. Dyslexias, 16

- 3.1. Reading disabilities: “betting on the wrong horse”, 16
- 3.2. L- and P-dyslexia: characteristics, 18
- 3.3. Is the concept of L- and P-dyslexia valid?, 20
- 3.4. How can L- and P-dyslexics be distinguished?, 21
