PREFATORY NOTE by H. L. Owrid	ix
PREFACE by Maurice Aubry	xi
<i>Introduction</i>	xiii
Principles and Resolutions	xiii
Phonation as One of the Principal Bodily Functions	xx
Pleas Addressed to the Medical Profession	xxii
Remedial Education	xxvi
Workers in Remedial Education	xxvi
Categories of Defects to which the Multisensory Methods of Remedial Education are Applicable	xxviii

PART ONE

REMEDIAL EDUCATION SESSIONS SUITABLE FOR CHILDREN

I.	<i>Dysphonia—Rhinolalia (Nasal Speech)</i>	5
	Positive and Negative Nasality — Hoarseness — Guttural Speech	5
	An Example of a Session in Remedial Education Guttural Speech—Hoarseness	6 10
II.	<i>Dyslalia—Dysarthria</i>	13
	Remedial Exercises for Sigmatism (Lisping)	15
III.	<i>Defects in the Pronunciation of Consonants and Vowels</i>	21
	<i>K and g</i>	21
	Omission of the Consonant <i>l</i>	22
	Absence of the Plosive Dental Consonants <i>t, d</i> , and the Nasals <i>n</i> and <i>ny</i>	23
	Absence of the Fricative Consonants <i>f, v</i>	25
	Absence of the Bi-Labial Plosives <i>P</i> and <i>B</i> , and of the Bi-Labial Nasal <i>m</i>	26

PART ONE

REMEDIAL EDUCATION SESSIONS SUITABLE FOR CHILDREN

I. <i>Dysphonia—Rhinolalia (Nasal Speech)</i>	5
Positive and Negative Nasality — Hoarseness — Guttural Speech	5
An Example of a Session in Remedial Education	6
Guttural Speech—Hoarseness	10
II. <i>Dyslalia—Dysarthria</i>	13
Remedial Exercises for Sigmatism (Lisping)	15
III. <i>Defects in the Pronunciation of Consonants and Vowels</i>	21
<i>K</i> and <i>g</i>	21
Omission of the Consonant <i>l</i>	22
Absence of the Plosive Dental Consonants <i>t</i> , <i>d</i> , and the Nasals <i>n</i> and <i>ny</i>	23
Absence of the Fricative Consonants <i>f</i> , <i>v</i>	25
Absence of the Bi-Labial Plosives <i>P</i> and <i>B</i> , and of the Bi-Labial Nasal <i>m</i>	26

	The Bi-Labial Nasal <i>m</i>	27
	Incorrect Vocal Timbre	27
	Techniques to Remedy Deficient or Distorted Vocal Timbre	28
IV.	<i>Defects of the Mental and Psychic Origin</i>	32
	Total or Partial Defectives, Retarded or Maladjusted Pupils, Mongoloid Types, Defects of Personality and Character	32
	Epileptics	34
	Mongoloid Defectives	38
	Remedial Treatment	42
	The Perverse Child	46
	Remedial Education for Those Whose Perverse Tendencies are Instinctive	48
	Remedial Education for the Perverse Child	49
	Personality Defects	53
	Anorexia	59
	Children with Multiple Defects who are Educable	61
	Remedial Sessions for the Child with Total or Partial Defects	65
V.	<i>Children with Sensory Defects</i>	70
	Deafness, Semi-Deafness and Slight Hearing Defects	70
	Exercises	76
	Diagnosis	88
	Remedial Education	89
	Partially Deaf Patients and Those Who Are Hard of Hearing	91
	Remedial Education	93
	Example of a Remedial Session for a Young Deaf Child	96
VI.	<i>Retarded Pupils</i>	98
	Children with Difficulties in Reading, Writing and Arithmetic. Children with Poor Memory	98
	Exercises for Pupils Weak at Arithmetic	104
	Abacus Designed at the Centre for Remedial Education, Monte Carlo	107
VII.	<i>Psycho-Neural Motor Defects</i>	109
	Tonic, Clonic and Combined Tonic-clonic Stammering, Disordered Rhythm, Stuttering and Pseudo-normality	109
	Remedial Treatment for Stammering and Stuttering	114

	The Bi-Labial Nasal <i>m</i>	27
	Incorrect Vocal Timbre	27
	Techniques to Remedy Deficient or Distorted Vocal Timbre	28
IV.	<i>Defects of the Mental and Psychic Origin</i>	32
	Total or Partial Defectives, Retarded or Maladjusted Pupils, Mongoloid Types, Defects of Personality and Character	32
	Epileptics	34
	Mongoloid Defectives	38
	Remedial Treatment	42
	The Perverse Child	46
	Remedial Education for Those Whose Perverse Tendencies are Instinctive	48
	Remedial Education for the Perverse Child	49
	Personality Defects	53
	Anorexia	59
	Children with Multiple Defects who are Educable	61
	Remedial Sessions for the Child with Total or Partial Defects	65
V.	<i>Children with Sensory Defects</i>	70
	Deafness, Semi-Deafness and Slight Hearing Defects	70
	Exercises	76
	Diagnosis	88
	Remedial Education	89
	Partially Deaf Patients and Those Who Are Hard of Hearing	91
	Remedial Education	93
	Example of a Remedial Session for a Young Deaf Child	96
VI.	<i>Retarded Pupils</i>	98
	Children with Difficulties in Reading, Writing and Arithmetic. Children with Poor Memory	98
	Exercises for Pupils Weak at Arithmetic	104
	Abacus Designed at the Centre for Remedial Education, Monte Carlo	107
VII.	<i>Psycho-Neural Motor Defects</i>	109
	Tonic, Clonic and Combined Tonic-clonic Stammering, Disordered Rhythm, Stuttering and Pseudo-normality	109
	Remedial Treatment for Stammering and Stuttering	114

Respiratory Education	115
Practical Exercises in the Sitting Position	117
Exercises in the Upright Position	125
Exercises in the Lying-down Position	134
Example of a Session of Multisensory Remedial Education for a Child Suffering from a Stammer	141
The Pseudo-normal Subject	143

PART TWO

SESSIONS IN REMEDIAL EDUCATION DESIGNED
FOR THE ADOLESCENT AND THE ADULT

VIII. <i>Dysphonias</i>	149
Infantile Voice—Eunuchoid Disability	149
Hoarseness (Lack of Voice)	153
Exercises	158
Nasal Twang and Negative Nasality (Denasalization)	169
Exercises	171
Phonasthenias	174
IX. <i>Dysarthria in the Adult</i>	178
The Lisp	179
Remedial Treatment	180
Adult Dysarthria. Slurring of the Consonants	184
Remedial Treatment Exercises	185
The Confusion or Faulty Articulation of Phonetic Sounds. Alterations in Vocal Timbre	188
X. <i>Adult Aphasias</i>	192
Language Disorders. Remedial Education	195
Aphasia and Aphonia as a Result of Shock	198
Exercises	200
XI. <i>Lack of Psycho-neural Motor Co-ordination in the Adult</i>	206
Stammering, Stuttering, Arrhythmic Disorders and Inhibition	206
Respiration Exercises	209

Respiratory Education	115
Practical Exercises in the Sitting Position	117
Exercises in the Upright Position	125
Exercises in the Lying-down Position	134
Example of a Session of Multisensory Remedial Education for a Child Suffering from a Stammer	141
The Pseudo-normal Subject	143

PART TWO

SESSIONS IN REMEDIAL EDUCATION DESIGNED
FOR THE ADOLESCENT AND THE ADULT

VIII. <i>Dysphonias</i>	149
Infantile Voice—Eunuchoid Disability	149
Hoarseness (Lack of Voice)	153
Exercises	158
Nasal Twang and Negative Nasality (Denasalization)	169
Exercises	171
Phonasthenias	174
IX. <i>Dysarthria in the Adult</i>	178
The Lisp	179
Remedial Treatment	180
Adult Dysarthria. Slurring of the Consonants	184
Remedial Treatment Exercises	185
The Confusion or Faulty Articulation of Phonetic Sounds. Alterations in Vocal Timbre	188
X. <i>Adult Aphasias</i>	192
Language Disorders. Remedial Education	195
Aphasia and Aphonia as a Result of Shock	198
Exercises	200
XI. <i>Lack of Psycho-neural Motor Co-ordination in the Adult</i>	206
Stammering, Stuttering, Arrhythmic Disorders and Inhibition	206
Respiration Exercises	209

XII.	<i>Creation of the Vox per Oesophagum in Laryngectomy Patients</i>	219
	Remedial Treatment	220
	Exercises	220
	A Note on Deafness in Adults	225
