Preface	xi
Acknowledgments	xv
About the Companion Website	xvii
Introduction	xix
Module 1 Working with and Learning About Common Laboratory Techniques and Equipment	1
Exercise 1A Using Common Laboratory Tools to Evaluate Measurements Pre-laboratory Thinking Questions	3
Exercise 1B Using Common Laboratory Tools to Evaluate Measurements	4
Exercise 1C Using Common Laboratory Tools to Evaluate Measurements Post-laboratory Thinking Questions	18
Exercise 2A Using Microscopy to Evaluate Cell Size and Complexity Pre-laboratory Thinking Questions	19
Exercise 2B Using Microscopy to Evaluate Cell Size and Complexity	20
Exercise 2C Using Microscopy to Evaluate Cell Size and Complexity Post-laboratory Thinking Questions	32
Exercise 3A The Bacterial Growth Curve Pre-laboratory Thinking Questions	35
Exercise 3B The Bacterial Growth Curve	36

CONTENTS

Exercise 3C	The Bacterial Growth Curve Post-laboratory Thinking Questions	55
Module 2 Working with and Learning About <i>Serratia marcescens</i> in the Laboratory		57
Exercise 4A	Protein Concentration Versus Growth Stage Pre-laboratory Thinking Questions	59
Exercise 4B	Protein Concentration Versus Growth Stage	60
Exercise 4C	Protein Concentration Versus Growth Stage Post-laboratory Thinking Questions	69
Exercise 5A	Measuring Prodigiosin Pre-laboratory Thinking Questions	71
Exercise 5B	Measuring Prodigiosin	72
Exercise 5C	Measuring Prodigiosin Post-laboratory Thinking Questions	84
Exercise 6A	Conditions Affecting the Growth of and Prodigiosin Production by <i>Serratia marcescens</i> Pre-laboratory Thinking Questions	87
Exercise 6B	Conditions Affecting the Growth of and Prodigiosin Production by <i>S. marcescens</i>	91
Exercise 6C	Formal Laboratory Report Describing the Conditions Affecting the Growth of and Prodigiosin Production by <i>S. marcescens</i>	95

CONTENTS

Exercise 7A	Biochemistry of Prodigiosin Production Pre-laboratory Thinking Questions	101
Exercise 7B	Biochemistry of Prodigiosin Production	102
Exercise 7C	Biochemistry of Prodigiosin Production Post-laboratory Thinking Questions	112
Exercise 8A	The Probability Basis for Mutation Rate Calculation: A Dice-Roll Exercise Pre-laboratory Thinking Questions	113
Exercise 8B	The Probability Basis for Mutation Rate Calculation: A Dice-Roll Exercise	114
Exercise 8C	The Probability Basis for Mutation Rate Calculation: A Dice-Roll Exercise Post-laboratory Thinking Questions	120
Exercise 9A	Understanding Evolution by the Generation of UV Light-Induced Prodigiosin Mutants Pre-laboratory Thinking Questions	121
Exercise 9B	Understanding Evolution by the Generation of UV Light-Induced Prodigiosin Mutants	122
Exercise 9C	Understanding Evolution by the Generation of UV Light-Induced Prodigiosin Mutants Post-laboratory Thinking Questions	131

CONTENTS

Exercise 10A	Understanding the Energy Spilling Properties of Prodigiosin Pre-laboratory Thinking Questions	137
Exercise 10B	Understanding the Energy Spilling Properties of Prodigiosin	139
Exercise 10C	Understanding the Energy Spilling Properties of Prodigiosin Post-laboratory Thinking Questions	146
Module 3 Initial Characterization of Novel <i>Serratia marcescens</i> Prodigiosin Mutants		147
Exercise 11A	Prodigiosin Mutant Study Part 1 Pre-laboratory Thinking Questions	149
Exercise 11B	Prodigiosin Mutant Study Part 1	150
Exercise 11C	Prodigiosin Mutant Study Part 1 Post-laboratory Thinking Questions	153
Exercise 12A	Prodigiosin Mutant Study Part 2 Pre-laboratory Thinking Questions	155
Exercise 12B	Prodigiosin Mutant Study Part 2	156
Exercise 12C	Formal Laboratory Report 2: Prodigiosin Mutant Study	158
Appendix A	CSE Citation and Reference List Format Guidelines	163
Appendix B	Prodigiosin Biosynthesis	165
