PART 1 FOUNDATIONS OF HEALTH PSYCHOLOGY 1

- 1 Introducing Health Psychology 3
- 2 Conducting Health Research 18

PART 2 BEHAVIOR AND ILLNESS 43

- 3 Defining and Measuring Stress 45
- 4 Understanding Stress and Illness 72
- 5 Understanding Pain 102
- 6 Coping with Stress and Pain 130
- 7 Seeking Health Care 158
- 8 Adhering to Medical Advice 187
- 9 Identifying Behavioral Factors in Cardiovascular Disease 210
- 10 Identifying Behavioral Factors in Cancer 241
- 11 Living with Chronic Illness 265

PART 3 BEHAVIORAL HEALTH 301

- 12 Staying Healthy 303
- 13 Smoking Tobacco 331
- 14 Using Alcohol and Other Drugs 363
- 15 Eating to Control Weight 397
- 16 Exercising 431

PART 4 LOOKING TOWARD THE FUTURE 457

- 17 Health Psychology: Growth and Future Challenges 459

Contents

PART 1 FOUNDATIONS OF HEALTH PSYCHOLOGY 1

1	Introducing Health Psychology	3
	The Changing Field of Health	4
	Patterns of Illness and Death	4
	Escalating Cost of Medical Care	7
	What Is Health?	9
	Changing Models of Health	10
	Psychology's Involvement in Health	11
	Psychology in Medical Settings	11
	Psychosomatic Medicine	12
	Behavioral Medicine	13
	Behavioral Health	13
	Health Psychology	14
	Chapter Summary	16
	Suggested Readings	17
2	Conducting Health Research	18
	The Placebo in Research and Treatment	19
	Would You Believe . . . ? Misleading Media Messages	20
	Research Methods in Psychology	22
	Case Studies	22
	Correlational Studies	23
	Cross-Sectional and Longitudinal Studies	24
	Experimental Designs	25
	Ex Post Facto Designs	26
	Research Methods in Epidemiology	27
	The Field of Epidemiology	27
	The Purposes of Epidemiological Studies	28
	Areas of Epidemiological Study	29
	An Example of Epidemiological Research	31
	Summary and Evaluation of Research Methods	33
	Determining Causation	34
	The Risk Factor Approach	34
	An Example of Determining Causation	36

Research Tools	37
The Role of Theory in Research	38
The Role of Psychometrics in Research	38
Chapter Summary	40
Suggested Readings	41

PART 2 BEHAVIOR AND ILLNESS 43

3	Defining and Measuring Stress	45
	The Nervous System and the Physiology of Stress	46
	The Peripheral Nervous System and the Physiology of Stress	46
	The Neuroendocrine System	49
	Physiology of the Stress Response	50
	Summary of the Physiology of Stress	51
	Theories of Stress	52
	Selye's View	52
	Lazarus's View	53
	Sources of Stress	55
	Environment	55
	Would You Believe . . . ? Declining Murder Rate	59
	Occupation	60
	Personal Relationships	61
	Sleep Problems	62
	Measurement of Stress	64
	Methods of Measurement	64
	Reliability and Validity of Stress Measures	68
	Chapter Summary	70
	Suggested Readings	71
4	Understanding Stress and Illness	72
	Physiology of the Immune System	72
	Organs of the Immune System	72
	Function of the Immune System	73
	Immune System Disorders	78
	Psychoneuroimmunology	79
	History of Psychoneuroimmunology	79
	Research in Psychoneuroimmunology	80

Physical Mechanisms of Influence	82	Would You Believe . . . ? Can Cheerfulness Kill You?	136
Therapeutic Effects	83	Techniques for Coping with Stress and Pain	136
Summary of Psychoneuroimmunology Research	84	Hypnosis	137
Personal Factors Affecting Stress and Illness	85	Relaxation Training	139
The Diathesis-Stress Model	85	Biofeedback	143
The Hardy Personality Model	86	Behavior Modification	147
The Identity Disruption Model	88	Cognitive Therapy	149
Does Stress Cause Illness?	89	Multimodal Approaches	154
Stress and Physical Illness	89	Chapter Summary	156
Would You Believe . . . ? Stress and Ulcers	96	Suggested Readings	157
Stress and Negative Mood	97		
Chapter Summary	100	7 Seeking Health Care 158	
Suggested Readings	101	Adopting Health-Related Behaviors	158
5 Understanding Pain 102		Theories of	
Pain and the Nervous System	103	Health-Protective Behaviors	159
The Somatosensory System	103	Critique of Health-Related Theories	165
The Spinal Cord	104	Seeking Medical Attention	166
The Brain	105	Illness Behavior	167
Neurotransmitters and Pain	106	The Sick Role	172
The Modulation of Pain	107	Would You Believe . . . ? Learning to Be Sick	173
The Meaning of Pain	107	Choosing a Practitioner	174
The Stages of Pain	108	Being in the Hospital	175
Would You Believe . . . ? Life Without Pain	109	The Hospital Patient Role	176
Pain Syndromes	110	"Good" Patients versus "Bad" Patients	178
Theories of Pain	114	Preparing for Stressful Medical Procedures	180
The Measurement of Pain	117	Techniques for Coping	181
Physiological Measures	117	Children and Hospitalization	182
Behavioral Assessment	118	Chapter Summary	185
Self-Reports	120	Suggested Readings	186
Preventing Pain	122		
Medical Treatments for Pain	123	8 Adhering to Medical Advice 187	
Drugs	124	The Problem of Adherence	187
Transcutaneous Electrical Neural Stimulation (TENS)	125	Theories of Adherence	188
Acupuncture	125	The Biomedical Model	188
Surgery	126	The Behavioral Model	189
Limitations of Medical Treatments	127	Cognitive Learning Theories	189
Chapter Summary	128	Assessing Adherence	191
Suggested Readings	129	How Frequent Is Nonadherence?	192
		What Factors Predict Nonadherence?	193
6 Coping with Stress and Pain 130		Illness Characteristics	193
Personal Resources That Influence Coping	130	Would You Believe . . . ? Compliance and Severity of Illness	194
Social Support	130	Personal Characteristics	196
Personal Control	135	Cultural Norms	199
		The Practitioner-Patient Interaction	199

Summary of Factors That Predict Adherence	202		
Reasons for Nonadherence	202		
Does Adherence Pay Off?	204		
Improving Adherence	206		
Chapter Summary	208		
Suggested Readings	209		
9 Identifying Behavioral Factors in Cardiovascular Disease	210		
The Cardiovascular System	211		
The Coronary Arteries	212		
Coronary Heart Disease	213		
Stroke	214		
Blood Pressure	215		
Measures of Cardiovascular Function	217		
Measurements of Electrical Activity in the Heart	217		
Angiography	218		
Lifestyle and Cardiovascular Health	219		
Changes in Lifestyle	219		
Changes in Cardiovascular Disease	219		
Risk Factors in Cardiovascular Disease	221		
Inherent Risk Factors	221		
Physiological Conditions	222		
Would You Believe . . . ? Cholesterol and Violent Death	226		
Behavioral Factors	226		
Psychosocial Factors	229		
The Type A Behavior Pattern	230		
Hostility	231		
Anger	233		
Summary of Hostility and Anger as Risk Factors	235		
Modifying Risk Factors for Cardiovascular Disease	236		
Reducing Hypertension	236		
Lowering Serum Cholesterol	237		
Modifying the Type A Behavior Pattern	238		
Chapter Summary	239		
Suggested Readings	240		
10 Identifying Behavioral Factors in Cancer	241		
What Is Cancer?	242		
Mortality Rates from Cancer	243		
Risk Factors for Cancer	245		
Smoking	245		
Would You Believe . . . ? Good News about Cancer	246		
Diet	250		
Alcohol	253		
Physical Activity	254		
Ultraviolet Light	255		
Sexual Behavior	255		
Emotional Factors	256		
Personality Factors	258		
Factors Beyond Personal Control	260		
Psychosocial Factors and Survival of Cancer Patients	261		
Modifying Risk Factors for Cancer	263		
Chapter Summary	263		
Suggested Readings	264		
11 Living with Chronic Illness	265		
The Impact of Chronic Illness	266		
Impact on the Patient	267		
Impact on the Family	269		
Following a Cardiac Rehabilitation Program	271		
Lifestyle Changes	272		
Psychological Reactions after Heart Disease	273		
Psychological Interventions in Cardiac Rehabilitation	275		
Coping with Cancer	275		
Psychological Impact of Cancer	276		
Psychological Treatment for Cancer Patients	278		
Adjusting to Diabetes	279		
The Physiology of Diabetes	280		
The Impact of Diabetes	281		
Health Psychology's Involvement with Diabetes	282		
Dealing with HIV and AIDS	284		
Incidence of HIV/AIDS	284		
Would You Believe . . . ? Recovery from HIV Infection	285		
Symptoms of HIV and AIDS	287		
The Transmission of HIV	288		
Protective Measures	291		
Psychologists' Role in the AIDS Epidemic	292		
Living with Alzheimer's Disease	294		
Helping the Patient	295		
Helping the Family	296		
Chapter Summary	299		
Suggested Readings	300		

PART 3 BEHAVIORAL HEALTH 301**12 Staying Healthy 303**

- Preventing Injuries 304
 - Unintentional Injuries 304
- Would You Believe . . . ? Smokers and Accidents 307
 - Strategies for Reducing Unintentional Injuries 307
 - Preventing Suicide 312
 - Preventing Violence 313
- Benefiting from Health Campaigns 315
 - Information Campaigns 315
 - Workplace Wellness Programs 319
 - Community Campaigns 323
- Adopting a Healthy Lifestyle 327
- Chapter Summary 328
- Suggested Readings 330

13 Smoking Tobacco 331

- The Respiratory System 332
- A Brief History of Smoking 334
- Who Smokes and Who Does Not? 335
- Smoking and Illness or Death 338
 - What Components in Smoke are Dangerous? 339
 - Does Quitting Help? 341
- Would You Believe . . . ? Smoking, Ugliness, and Impotence 342
 - Cigar and Pipe Smoking 344
 - Passive Smoking 344
- Why Do People Smoke? 346
 - Why Do People Start Smoking? 347
 - Why Do People Continue to Smoke? 348
 - Models to Explain Smoking Behavior 350
- Methods of Reducing Smoking Rates 351
 - Deterring Smoking 351
 - Quitting Smoking 353
 - Relapse Prevention 357
- Who Quits and Who Does Not? 358
- Smoking and Weight Gain 359
- Smokeless Tobacco 360
- Chapter Summary 361
- Suggested Readings 362

14 Using Alcohol and Other Drugs 363

- A Brief History of Drinking 364
- The Prevalence of Drinking Today 365
- The Effects of Alcohol 367
 - Hazards of Alcohol 369
 - Benefits of Alcohol 372

- Why Do People Drink? 374
- Would You Believe . . . ? What Your Doctor Never Told You about Alcohol 375
 - The Disease Model 376
 - Cognitive-Physiological Theories 378
 - The Social Learning Model 379
- Quitting Drinking 380
 - Change without Therapy 381
 - Treatments Oriented Toward Abstinence 381
- Controlled Drinking 384
 - Studies with Abstinence as the Goal 384
 - Studies with Control as the Goal 384
- The Problem of Relapse 386
- Other Drugs 386
 - Health Effects 386
 - Drug Misuse and Abuse 392
 - Treatment for Drug Abuse 392
 - Preventing and Controlling Drug Use 394
- Chapter Summary 395
- Suggested Readings 396

15 Eating to Control Weight 397

- The Digestive System 398
- Factors in Weight Maintenance 400
 - Experimental Starvation 401
 - Experimental Overeating 402
 - The Concept of Setpoint 402
- Would You Believe . . . ? Good Taste May Be Fattening 403
- Overeating and Obesity 404
 - What Is Obesity? 404
 - Why Are Some People Obese? 406
 - Is Obesity Unhealthy? 409
- Would You Believe . . . ? A Big Butt Is Healthier Than a Fat Gut 410
- Dieting 411
 - Approaches to Losing Weight 412
 - Does Dieting Work? 417
 - Is Dieting a Good Choice? 417
- Eating Disorders 418
 - Anorexia Nervosa 419
 - Bulimia 424
- Chapter Summary 429
- Suggested Readings 430

16 Exercising 431

- Types of Exercise 432
- Reasons for Exercising 433
 - Physical Fitness 433
 - Weight Control 434

Cardiovascular Benefits of Exercise	436	The Profession of Health Psychology	464
Early Studies	436	Preparation of Health Psychologists	464
The Harvard Alumni Study	436	Jobs of Health Psychologists	465
The Framingham Heart Study	439	Progress in Health Psychology	466
Exercise and Stroke	439	Growth of Health	
Exercise and Cholesterol Levels	439	Psychology Research	467
Other Health Benefits of Exercise	441	Growth of Employment	
Protection Against Cancer	441	Opportunities	467
Protection Against Loss of		Acceptance in Medical Settings	467
Bone Density	442	Outlook for Health Psychology	468
Control of Diabetes	442	Future Challenges for Health Care	468
Psychological Benefits of Exercise	443	A Note of Caution	474
Summary of Exercise Benefits	446	Would You Believe . . . ? Affordable Health	
Hazards of Exercise	447	Care for Everyone	475
Exercise Addiction	448	Chapter Summary	476
Injuries from Exercise	449	Suggested Readings	477
Would You Believe . . . ? Misunderstandings			
about Exercise	450	Glossary	479
Other Health Risks	450	References	487
Death During Exercise	451	Name Index	541
How Much Is Enough but Not Too		Subject Index	555
Much?	452		
Exercise Maintenance	453		
Predicting Dropouts	453		
Increasing Maintenance	454		
Chapter Summary	454		
Suggested Readings	455		

PART 4 LOOKING TOWARD THE FUTURE 457

17 Health Psychology: Growth and Future Challenges 459

Healthier People	459
Increasing the Span of Healthy Life	459
Reducing Health Disparities	460
Increasing Access to	
Preventive Services	463
