|---|----|
| Introduction | 1 |
| <i>Beverly H. Timmons</i> | |
| I. Anatomy, Physiology, Physiopathology, and Psychology of the Respiratory System | |
| 1. Basic Anatomy and Physiology of the Respiratory System and the Autonomic Nervous System | 17 |
| <i>Karen H. Naifeh</i> | |
| 1. The Respiratory System | 17 |
| 1.1. Basic Anatomy | 18 |
| 1.2. Mechanics of Breathing | 22 |
| 1.3. Gas Exchange | 26 |
| 1.4. Regulation of Respiration | 31 |
| 1.5. Influence of Respiration on Cardiac Function | 35 |
| 2. The Autonomic Nervous System | 36 |
| 2.1. Anatomy | 36 |
| 2.2. Neurotransmitters | 40 |
| 2.3. Functions of the Autonomic Nervous System | 42 |
| 3. Stress | 44 |
| 4. Further Reading | 45 |
| 2. Nasopulmonary Physiology | 47 |
| <i>Pat A. Barelli</i> | |
| 1. The Role of the Nose in Breathing and Respiration | 47 |
| 1.1. Preparation of Air for the Lungs | 49 |
| 1.2. Control of Air Stream | 49 |
| 1.3. Olfaction | 49 |

| | |
|--|----|
| 1.4. Nasal Resistances | 49 |
| 1.5. Body Temperature | 50 |
| 1.6. Nasal Reflexes | 50 |
| 1.7. Nasal Reflexes and the Cardiovascular System | 50 |
| 1.8. Sleep and Postural Adjustment | 51 |
| 1.9. Nose versus Mouth Breathing | 52 |
| 2. The Role of the Rhinologist | 52 |
| 2.1. Nasal Examination | 52 |
| 2.2. Nasal Pressure Tests (Rhinomanometry) | 53 |
| 2.3. Sinus (Nasoantral) Pressure Tests | 54 |
| 2.4. Nasocardiovascular Relationships | 54 |
| 2.5. Nasopulmonary Tests | 54 |
| 2.6. Middle Turbinate Syndrome | 55 |
| 2.7. Nasal Surgery | 55 |
| 3. Psychological Aspects | 55 |
| 4. Conclusion | 56 |
| 5. References | 56 |
| | |
| 3. Behavioral Perspectives on Abnormalities of Breathing during Sleep | 59 |
| <i>Christian Guilleminault and Donald L. Bliwise</i> | |
| 1. Sleep and Respiratory Physiology | 59 |
| 2. Sleep Apnea Syndrome | 61 |
| 3. Treatments for Sleep Apnea Syndrome | 62 |
| 4. Guidelines for Therapists | 64 |
| 5. References | 65 |
| 6. Further Reading | 66 |
| | |
| 4. Control of Breathing and Its Disorders | 67 |
| <i>Sheila Jennett</i> | |
| 1. Components of Normal Automatic Control | 67 |
| 1.1. Brain Stem Neurons and Their Interconnections | 67 |
| 1.2. Motor Pathways from Brain to Respiratory Muscles | 68 |
| 1.3. Inputs to the Brain Stem Complex | 70 |
| 2. Components of Normal Behavioral Control | 72 |
| 2.1. Use of the Respiratory System for Purposes Other Than Breathing | 72 |
| 2.2. Deliberate Control of Breathing | 73 |
| 3. Goals of Normal Automatic Regulation and Effects of Failure | 73 |
| 3.1. Maintaining Correct Volume of Ventilation for Gas Exchange Requirement (Metabolic Control) | 73 |

| | |
|--|----|
| 3.2. Correction of Acid-Base State | 74 |
| 3.3. Pattern of Breathing for Minimal Work | 74 |
| 3.4. Correction following Reflex and Voluntary Interferences | 75 |
| 3.5. Summary | 75 |
| 4. Disorders of Control | 76 |
| 4.1. Disorders of the Pattern of Breathing | 76 |
| 4.2. Breathing Too Little or Too Much | 78 |
| 4.3. Inability to Exert Voluntary Control over Breathing | 80 |
| 5. Summary | 80 |
| | |
| 5. Breathing and the Psychology of Emotion, Cognition, and Behavior | 81 |
| <i>Ronald Ley</i> | |
| 1. Conditioning, Behavior, Emotions, and Breathing | 81 |
| 1.1. Conditioned Emotional Responses | 81 |
| 2. The Effects of Breathing on Emotions and Behavior | 82 |
| 3. Breathing and Cognition | 84 |
| 3.1. The Effects of Thoughts on Breathing | 84 |
| 3.2. The Effects of the Expectation of Noxious Events on Breathing | 85 |
| 3.3. The Effects of Breathing on Thoughts: Hyperventilation and Cognition | 86 |
| 3.4. Hyperventilation and Cognitive Deficit | 87 |
| 3.5. Test Anxiety and Hyperventilation | 88 |
| 4. Hyperventilation, Cognition, and Conditioned Emotions | 89 |
| 4.1. Frustration, Stress, and Hyperventilation | 89 |
| 5. Concluding Remarks | 90 |
| 5.1. Clinicians, Research, and the Progress of Science | 91 |
| 6. References | 91 |

II. Hyperventilation: Diagnosis and Therapy

| | |
|---|-----|
| 6. Diagnosis and Organic Causes of Symptomatic Hyperventilation | 99 |
| <i>William N. Gardner</i> | |
| 1. Introduction | 99 |
| 2. Physiology and Definitions | 99 |
| 2.1. Introduction | 99 |
| 2.2. Alveolar and Dead-Space Volumes | 100 |

| | |
|---|-----|
| 2.3. End-Tidal PCO_2 | 100 |
| 2.4. Control of Breathing and CO_2 | 101 |
| 2.5. Definition of Hyperventilation | 101 |
| 2.6. Symptoms of Hyperventilation | 101 |
| 3. Short Historical Survey | 102 |
| 4. Diagnosis | 103 |
| 4.1. Symptoms | 103 |
| 4.2. Signs | 104 |
| 4.3. Voluntary Overbreathing and Other Tests | 104 |
| 4.4. Measurement of PCO_2 | 104 |
| 5. Etiology of Hyperventilation | 105 |
| 5.1. Introduction | 105 |
| 5.2. Organic Causes of Hyperventilation | 106 |
| 6. Investigative Sequence | 108 |
| 6.1. Investigation of Presenting Symptoms | 108 |
| 6.2. Diagnosis of Hyperventilation | 109 |
| 6.3. Search for Organic Causes of Hyperventilation | 110 |
| 7. Treatment | 110 |
| 8. Conclusion | 111 |
| 9. References | 111 |
| | |
| 7. Hyperventilation Syndromes: Physiological Considerations in Clinical Management | 113 |
| <i>L. C. Lum</i> | |
| 1. Introduction | 113 |
| 2. Etiology | 115 |
| 3. Factors Affecting Symptom Threshold | 116 |
| 3.1. Climate, Weather, and Barometric Pressure | 116 |
| 3.2. Exacerbation of Symptoms at Rest | 116 |
| 3.3. Menstruation | 116 |
| 3.4. The Voice | 117 |
| 3.5. Blood Glucose | 117 |
| 4. Perception of Internal and External Environment | 117 |
| 4.1. Hallucinations | 117 |
| 4.2. Depersonalization and Unreality | 117 |
| 5. Physiological Mechanisms | 118 |
| 5.1. Blood Glucose | 118 |
| 5.2. Respiratory Alkalosis | 119 |
| 5.3. Hypoxia | 119 |
| 5.4. Loss of CO_2 Ions from Neurons | 120 |

| | |
|--|-----|
| 5.5. Tetany | 120 |
| 5.6. Sympathetic Dominance | 120 |
| 5.7. Allergies | 120 |
| 6. Pseudoallergy | 121 |
| 7. Panic and Phobic States | 121 |
| 7.1. Sex Distribution | 121 |
| 8. Implications for Treatment | 121 |
| 8.1. Breathing Retraining | 121 |
| 8.2. Diet | 121 |
| 8.3. Education | 122 |
| 8.4. Relaxation | 122 |
| 8.5. Hypnotherapy | 122 |
| 8.6. Self-Understanding | 122 |
| 9. Summary | 122 |
| 10. References | 123 |
| | |
| 8. Psychiatric and Respiratory Aspects of Functional Cardiovascular Syndromes | 125 |
| <i>Christopher Bass, William N. Gardner, and Graham Jackson</i> | |
| 1. Introduction | 125 |
| 2. Psychiatric Aspects | 126 |
| 3. Respiratory Aspects | 128 |
| 3.1. Breathlessness in FCSs | 128 |
| 3.2. Hyperventilation as an Etiological Factor in FCSs | 129 |
| 3.3. The Etiology of Chest Pain in Functional Heart Disorders | 130 |
| 3.4. Effects of Hyperventilation on Cardiovascular Function | 131 |
| 4. Assessment | 132 |
| 4.1. Cardiac Assessment | 132 |
| 4.2. Assessment for Evidence of Hyperventilation | 133 |
| 4.3. Psychiatric Assessment | 134 |
| 5. Management | 134 |
| 5.1. Excluding Organic Disease | 134 |
| 5.2. Explanation and Reassurance | 134 |
| 5.3. Cognitive–Behavioral Treatment | 134 |
| 5.4. Psychotropic Drugs | 135 |
| 6. Conclusions | 135 |
| 7. References | 136 |

| | |
|--|-----|
| 9. Hyperventilation and Psychopathology: A Clinical Perspective <i>Herbert Fensterheim</i> | 139 |
| 1. Introduction | 139 |
| 2. Diagnostic Criteria | 139 |
| 3. The Secondary Reactions | 140 |
| 4. Problems in Formulation and Treatment | 144 |
| 5. Summary | 146 |
| 6. References | 146 |
| 10. Management of Patients with Hyperventilation-Related Disorders <i>Christopher Bass</i> | 149 |
| 1. Introduction | 149 |
| 2. Disorders Associated with Hyperventilation | 149 |
| 3. Treatments | 150 |
| 3.1. Physical Treatments | 150 |
| 3.2. Breathing Retraining (Physiotherapy or Controlled Breathing) | 151 |
| 3.3. Psychological Treatments | 152 |
| 3.4. Breathing Control without the Cognitive Element May Be Ineffective | 152 |
| 4. Concluding Remarks | 153 |
| 5. References | 154 |
| 11. The Role of the Physiotherapist in the Treatment of Hyperventilation <i>Elizabeth A. Holloway</i> | 157 |
| 1. Introduction | 157 |
| 1.1. Normal Breathing | 158 |
| 1.2. Hyperventilators' Breathing Patterns | 158 |
| 2. Initial Assessment | 159 |
| 2.1. Source of Referral | 159 |
| 2.2. Observation | 159 |
| 2.3. History | 160 |
| 2.4. Symptoms | 160 |
| 2.5. Identification of Trigger Factors | 161 |
| 2.6. Allergies | 161 |
| 2.7. Other Types of Breathing Training | 162 |
| 2.8. Voluntary Hyperventilation | 162 |
| 2.9. Panic Attacks | 162 |

| | |
|--|-----|
| 3. Reeducation of Breathing Patterns | 163 |
| 3.1. Explanation and Demonstration | 163 |
| 3.2. Preparation | 164 |
| 3.3. Retraining Method | 165 |
| 3.4. Frequency of Sessions | 166 |
| 3.5. Group Instruction | 167 |
| 3.6. Hospitalization | 167 |
| 3.7. Medication | 167 |
| 3.8. Progress | 168 |
| 3.9. Exacerbation of Symptoms | 168 |
| 3.10. Posture | 169 |
| 3.11. Matching Breathing Patterns to Activities | 169 |
| 3.12. Speech | 169 |
| 3.13. Clothing | 170 |
| 3.14. Practice | 170 |
| 3.15. Emergency or Coping Measures (when PCO_2 Is Likely to Fall) | 170 |
| 3.16. Challenge | 171 |
| 4. Relaxation | 171 |
| 4.1. General Physical Relaxation | 171 |
| 4.2. Mental Relaxation | 172 |
| 4.3. Tape-Recorded Instruction | 173 |
| 4.4. Specific Tensions | 173 |
| 5. Guidelines for Therapists | 173 |
| 6. Conclusion | 174 |
| 7. References | 174 |

III. Other Therapeutic Approaches to Breathing Disorders

| | |
|--|-----|
| 12. Breathing and Vocal Dysfunction | 179 |
| <i>Daphne J. Pearce</i> | |
| 1. Introduction | 179 |
| 2. Larynx | 179 |
| 3. Resonators | 181 |
| 4. Breathing | 181 |
| 5. Singing | 182 |
| 6. Influences on Breathing and Phonation | 182 |

| | |
|---|-----|
| 7. Smoking | 183 |
| 8. Posture | 184 |
| 9. Vocal Use and Abuse | 184 |
| 10. Observation | 186 |
| 11. Vocal Dysfunction | 186 |
| 12. Therapy | 187 |
| 12.1. Relaxation | 188 |
| 12.2. Breathing | 188 |
| 12.3. Voice Exercises | 188 |
| 13. Conclusion and Guidelines for Therapists | 189 |
| 14. References | 190 |
| 15. Further Reading | 190 |
| | |
| 13. Respiratory System Involvement in Western Relaxation and Self-Regulation | 191 |
| <i>Paul M. Lehrer and Robert L. Woolfolk</i> | |
| 1. Introduction | 191 |
| 2. Progressive Relaxation | 191 |
| 3. Hypnosis | 193 |
| 4. Autogenic Training | 193 |
| 5. The Alexander Method | 194 |
| 6. Meditation | 195 |
| 7. Paced Slow Respiration | 196 |
| 8. Abdominal Breathing | 197 |
| 9. Biofeedback | 198 |
| 10. Relaxation and Hyperventilation | 199 |
| 11. Conclusion | 200 |
| 12. References | 200 |
| | |
| 14. Behavioral Management of Asthma | 205 |
| <i>Jonathan H. Weiss</i> | |
| 1. Introduction | 205 |
| 2. Description of Asthma | 205 |
| 3. The Role of Psychological Factors in Asthma | 207 |
| 3.1. Cognitive Variables | 208 |
| 3.2. Emotional Variables | 208 |
| 3.3. Behavioral Variables | 210 |
| 3.4. Background Variables | 210 |

| | |
