Preface	v
Obituary note	vi
Compact self-adjoint operators on free Banach spaces of countable type J. AGUAYO and M. NOVA	1
Fundamental solutions of pseudodifferential equations associated with quadratic forms in even dimension O. F. CASAS-SÁNCHEZ, J. GALEANO-PEÑALOZA, and J. J. RODRÍGUEZ-VEGA	19
Spectral theory for finite rank perturbations of unbounded diagonal operators in non-Archimedean Hilbert space TOKA DIAGANA and FRANCOIS RAMAROSON	29
Ultrametric continuous linear representations of the compact groups $SL(2, \mathbb{Z}_p)$ and $GL(2, \mathbb{Z}_p)$ BERTIN DIARRA and TONGOBE MOUNKORO	41
Survey on the p -adic Hayman conjecture ALAIN ESCASSUT and JACQUELINE OJEDA	57
Invariant manifolds for finite-dimensional non-Archimedean dynamical systems HELGE GLÖCKNER	73
On non-Archimedean quantitative compactness theorems J. KAĞOL and A. KUBZDELA	91
Large linear spaces of invertible operators on a Banach space HANS A. KELLER	103
Applications of p -adic numbers: from physics to geology A. YU. KHRENNIKOV, K. OLESCHKO, and M. DE JESÚS CORREA LÓPEZ	121
An alternative proof of the non-Archimedean Montel theorem for polynomial dynamics JUNGHUN LEE	133
New identities and congruences for Euler numbers HAMADOUN MAÏGA	139

On some transcendental values of the p -adic gamma function HAMZA MENKEN and ABDULKADIR AŞAN	159
The implicit function theorem on a field K with an infinite rank valuation HÉCTOR M. MORENO	165
Fractional differentiability and unitarity on parabolic inductions ENNO NAGEL	177
Wim Schikhof: our colleague and friend H. OCHSENIUS, E. OLIVOS, and C. PEREZ-GARCIA	199
Solvability of rank one p -adic differential and q -difference equations over the Amice ring ANDREA PULITA	251
A note on Banach spaces over a rank 1 discretely valued field W. H. SCHIKHOF and E. OLIVOS	279
Measure theory and Lebesgue-like integration in two and three dimensions over the Levi-Civita field KHODR SHAMSEDDINE and DARREN FLYNN	289
On complemented subspaces of non-Archimedean generalized power series spaces WIESŁAW ŚLIWA and AGNIESZKA ZIEMKOWSKA	327
