

Contents

Preface	ix
1 Introduction	1
2 Special Solutions and Global Behaviour	7
3 Local Estimates via the Maximum Principle	23
4 Integral Estimates and Monotonicity Formulas	47
5 Regularity Theory at the First Singular Time	81
A Geometry of Hypersurfaces	109
B Derivation of the Evolution Equations	119
C Background on Geometric Measure Theory	123
D Local Results for Minimal Hypersurfaces	127
E Remarks on Brakke's Clearing Out Lemma	139
F Local Monotonicity in Closed Form	145
Bibliography	153
Index	159
