
Contents

1	Brief Overview of Partial Differential Equations	1
2	Finite Difference Methods for Parabolic Equations	3
3	Finite Difference Methods for Hyperbolic Equations	9
4	Finite Difference Methods for Elliptic Equations	13
5	High-Order Compact Difference Methods	17
6	Finite Element Methods: Basic Theory	27
7	Finite Element Methods: Programming	31
8	Mixed Finite Element Methods	35
9	Finite Element Methods for Electromagnetics	43
10	Meshless Methods with Radial Basis Functions	49
11	Other Meshless Methods	55
