

CONTENTS

PREFACE v

PART ONE

How Psychological Inquiry Contributes to Education 3

1 PSYCHOLOGICAL VIEWPOINTS 5

- The Value of Psychological Viewpoints in Education 6
 - The Place of Scientific Inquiry 6
 - The Fruits of Educational Research 10
- Scientific Approaches to Educational Issues 16
 - Bases for Evaluating Assumptions 16
 - Intellectual Styles of Psychologists 19

2 WHAT SCHOOLS ARE TRYING TO ACCOMPLISH 37

- Schooling as a Part of Socialization 41
 - The Socializing Process 41
 - The School As Socializing Agency 43

Aims of Socialization	45
Competence in Solving Problems	45
Goals and Interests	47
Effective Relations with Others	48
Confidence and Self-Respect	48
Acceptance of Social Values	48
Autonomy As a Crucial Value	51
Making Educational Aims Clear and Explicit	57
How the Behaviorist Formulates Training Objectives	58
The Cognitive-Developmental Style for Stating Objectives	64
The School and Social Opportunity	70

3

PROCESSES IN BEHAVIOR AND IN LEARNING 77

Initial Conditions of a Learning Episode	78
Characteristics that Make Up Readiness	78
The Situation	80
During the Episode: Action and Reaction	85
Perceiving and Interpreting	86
Making a Provisional Try	87
Outcomes	91
Categories of Learning	92
Gagné's Types of Learning	94
Learning Processes Seen in the Classroom	97
A Reading Class	97
A Typing Class	100
Tasks of the Teacher	103

4

MODES OF INVESTIGATION IN EDUCATIONAL PSYCHOLOGY 109

Experiments on Learning in Artificial Conditions	109
A Two-Group Example:	
Training Children To Copy Forms	110
A Four-Group Example:	
Training in Copying and Discrimination	113
Some Statistical Concepts	117
Experiments on Learning in the Classroom	121
Example: Two Ways to Subtract	122
Asking Good Questions	124

A Case Study: Hidden Dependency	127
Correlational Research	133
Interpreting Correlation Coefficients	134
Example: Correlates of Honest Behavior	135
Studying Interaction of Person and Situation	141
Example: Student Style and Teacher Style	141

PART TWO

Readiness and Its Development 147

5

THE STREAM OF DEVELOPMENT 149

Physical Maturing As the Base of Readiness	151
Normal Trends in Physical Development	152
Educational Implications of Growth	158
Neural Maturation	159
Early Stimulation and Instruction: Pro and Con	163
Cultural Pressures and Opportunities	169
The Environment Widens	169
The Child's Social Group Expands	171
Roles Become More Varied	173
Developmental Tasks	178
The Development and Satisfaction of Needs	185
Need for Affection	185
Need for Secure Relations with Authority	188
Need for Approval of Peers	189
Need for Autonomy	196
Need for Competence and Self-Respect	198

6

MOTIVATIONAL DEVELOPMENT: EFFECTS OF HOME AND COMMUNITY 205

Psychological Differences Among Homes	205
Providing Emotional Support	207
Fostering Autonomy	208
Encouraging Achievement	213
Promoting Cognitive Development	216

Characteristics of Cultural Subgroups	216
Social Status and Its Correlates	216
Minority Groups	221
Assessing the Student As a Person	227
Bill Chelton: A Bright Boy	228
Observing Students	232
Obtaining Peer Judgments	237
The Student's View of Himself	240
Evaluating Adjustment	243
Implications of Personality Traits for Success	247

7

ASSESSING ABILITIES 253

Measuring Tool Skills	254
Reading	255
Other Prerequisite Achievements	258
Study Skills and Work Methods	261
Test Characteristics	264
The Test As a Work Sample	265
Norms	269
Motivational Influences in Ability Tests	271
Measuring Scholastic Aptitude	273
Tests Given Individually	277
Group Tests	280
The Varieties of Mental Ability	284
Ability to Learn	284
Fluid Ability	285
Abilities with Vocational Significance	288
Predicting Success in School and Work	290
Prediction of Achievement	291
Aptitude and Academic Decisions	294

8

NATURE AND ORIGINS OF GENERAL ABILITIES 307

Stability and Change of Individual Differences	307
Correlations As Summaries of Change in Standing	308
Correlations over Time	309
Consistency in Individual Records	311
Stability of Profiles	312
Heritability of Test Performance	313
How Heritability is Defined and Assessed	313
Findings from Mental Tests	315

Developmental Influences	320
How Environment Affects Ability	320
Comparisons among Cultural Groups	323
The Course of Intellectual Development	327
Construction of Schemata	328
Stages Toward Mature Intellectual Control:	
Piagetian Theory	332
Ability in Adulthood	340
Possible Bias from Tests or Failure to Test	343

9

INDIVIDUAL DIFFERENCES AND SCHOOL PRACTICE 351

Can Mental Development be Accelerated?	352
An Experiment with the Mentally Handicapped	354
Evidence on Compensatory Education	357
Points of View in Compensatory Education	362
School Organization to Accommodate Developmental Differences	370
Age Placement of Educative Experiences	370
Ability Grouping	375
Providing for Students with Low General Ability	378
Diversifying Assignments and Activities	382

PART THREE

Fundamental Learning

Processes 391

10

SKILLS 393

Marks of Expertness	396
Immediate Response Replaces Awkward Trial	396
Subtle Cues Are Used	400
Mistakes Are Caught Before They Happen	401
Movements Are Linked Up	408
Performance Holds Up under Difficult Conditions	409

Analyzing Tasks and Modifying Them for Instruction	413
Reducing the Complex Situation	416
Realism	418
Variety	420
Aids to Interpretation	421
Making Practice Effective	425
The Function of Active Practice	425
Monitoring	426
The Practice Schedule	429
Measures of Performance During Training and Later	430
Training Records	430
Retention and Transfer	434

11

PERCEIVING AND REMEMBERING 441

Learning to Learn	441
How Memory Operates	448
Short-Term Storage	449
Long-Term Storage	452
Forgetting and Relearning	455
Reconstructing a Response from Memory	460
Acquiring Verbal Associations	462
Organizing Content for Storage	469
Learning to Interpret	473
Discrimination	473
Perceiving Patterns	477
Verbal Concepts	481

12

THE STUDENT'S COMMUNICATIONS, AND THE SCHOOL'S 489

The Development of Language Skill	490
Shortcomings in Language Skill	491
Cultural Variations in Language	497
Improving Comprehension and Expression	503
Comprehension	503
The Student's Communications	507
Instructional Communications	508
Experience As the Base for Meaning	508
Readable Writing	514
Organizing the Instructional Message	522

Exercises to Teach Principles and Procedures	525
Standardized Instructional Procedures	528
Sequencing of Subskills	533
External Control of Sequence and Pacing	537
Effectiveness of Instruction by Computer	540

13

PROBLEM SOLVING 543

Teaching Specific Principles: The Inductive Approach	544
Thinking As a Skill	549
Imagery and Symbolic Thought As Complementary Processes	551
Divergent and Convergent Processes	554
Resources for Problem Solving	557
Motivation and Style	557
Cognitive Restructuring	566
Instruction in Problem Solving	571
Adventurous Inquiry: Learning to Create Knowledge	576
Curricular Examples	578
The Teacher's Role	581
Promoting Cumulative Learning	584

PART FOUR

Planning, Motivation, and Evaluation 591

14

PURPOSES AND CONSEQUENCES 593

How Goals Function	595
Multiple Goals	595
Remote Goals	595
How Aspirations Are Set	601
The Influence of Success and Failure	603
Group Standards	610

Reinforcement in the Course of New Learning	616
Categories of Reinforcement	617
Informative Feedback	618
Effect of Pleasant Consequences on Effort	619
Maintaining Habits and Extinguishing Them	624
The Token Economy	624
Discouraging An Act That is Not Desired	625
Personality and Goal Setting	633
Reactions to Thwarting	634
Adaptive and Maladaptive Responses	634
Implications for Teaching	639
Defensive Motivation Intellectual Performance	642

15

THE TEACHER AS CLASSROOM LEADER 647

Styles of Planning and Control	648
Analysis	651
An Undirected Class in Art	652
Group Planning in an English Class	655
Factors Limiting the Teacher's Choice of Control Pattern	659
Consequences of Systematic Planning	660
Teacher Warmth and Its Consequences	664
The Impersonal and Supporting Styles	664
Effects on Behavior	666
Interaction of Teacher Style and Student Needs	667
Disciplinary Problems As Failure of Leadership	672
Motivation for Instruction	675
Setting Definite Goals	675
Competition	677
Marking	680

16

ASSESSING PROGRESS IN LEARNING 683

Functions of Evaluation	684
Motivation	684
Monitoring	685
Merit Rating	686
Program Evaluation	688

Qualities Desired in a Testing Procedure	690
Comprehensiveness	690
Fairness	695
Reliability	699
Test Development	700
Choice-Response Tests	702
Constructed-Response Tests	708
Performance Observation	714
Content-Referenced Scales for Reporting	
Performance	718
Evaluation Plans	721
Formative Evaluation	721
Summative Evaluation of Student and Program	724

PART FIVE

Beliefs, Feelings, and Character 735

17

ATTITUDE DEVELOPMENT AND ATTITUDE CHANGE 737

Attitudes As Meanings	739
Action, Affect, and Cognition	739
Generalization of Attitudes	742
Appraising Attitudes	744
Techniques for Collecting Data	744
Evaluation in the Affective Domain	748
Attitude Formation: A Developmental Process	750
Techniques Used to Shape Attitudes	753
Learning from Models	754
Figures with Whom the Learner Identifies	755
Models Offered by the School	759
Teaching Facts About the Attitude-Object	767
Persuasion	770
The Persuasive Communication	771
Active Response to the Issue	777
Learning Through Activities	778

18

CHARACTER 783

Character Structures	784
Five Levels of Character	786
How Unified is Character?	794
Character Formation As a Developmental Process	800
Defiance and Delinquency	802
Conformity	803
Rational Self-Discipline	804
Educating for Character	807
Practice to Shape Habits of Conduct	808
Verbal Teaching	811
Promoting Adjustment	816

BIBLIOGRAPHY 823

AUTHOR INDEX 861

SUBJECT INDEX 869
