

Contents

Introduction	1
Part I Past.....	5
Young Lenni Haapasalo at Jyväskylä University - some personal Memories	7
<i>Lauri Kahanpää</i>	
Lenni's Contributions to the Theory of Vector Space Lattices.....	11
<i>Heinz Junek</i>	
Part II Presence	17
The ClassPad-Project as a Student Centred Learning Environment	19
<i>Lasse Eronen</i>	
Multimedia Design as a Tool to change elementary School Teacher trainees' View of Teaching and Learning Mathematics and to promote their ICT Skills ..	35
<i>Pasi Eskelinen</i>	
Utilizing the MODEM Philosophy in Orchestrating integrated Investigation Spaces within the Pit Stop Philosophy.....	49
<i>Henri Heiskanen</i>	
Thinking is not straightforward	59
<i>Jozef Hvorecký</i>	
Explanatory Factors behind Finnish Students' Mathematics Performance	67
<i>Pekka Kupari and Kari Nissinen</i>	

On the relations between conceptual and procedural Knowledge and the Ability to apply Functions	87
<i>Pål Lauritzen</i>	
Developing extended real and virtual Robotics Enhancement Classes with Years 10-13	101
<i>Peter Samuels</i>	
Teaching Practice, Children's academic Motivation and Development in early Years Education in Finland	117
<i>Martti Siekkinen</i>	
Using 'Zoctagon' as a Frame for Evaluating Curricula	133
<i>Harry Silfverberg</i>	
Electronic Assessment in High School Mathematics by Multiple-Choice Questions - An interim Report.....	143
<i>Pekka Vienonen</i>	
On Knowledge, Thinking and mathematical Thinking-Styles	155
<i>Bernd Zimmermann</i>	
Part III Mathematics and Art	177
Mathematik mit Schönheit anstecken - Design	179
<i>Roland J.K. Stowasser</i>	
Beauty infecting Mathematics - Design	180
<i>Roland J.K. Stowasser</i>	
Some Lyric and Math Poems	187
<i>Manfred Stern</i>
