Preface	<i>page vii</i>
Acknowledgements	ix
Section I: High-alumina ceramics	
Overview of Group A – High-alumina ceramics	1
Group A1 Electrical and engineering aluminas, >99.6% alumina	13
Group A2 High-purity translucent aluminas, >99.8% alumina	37
Group A3 Hot-pressed aluminas, normally >99.5% alumina	59
Group A4 Sintered ‘recrystallized’ aluminas, >99.6% alumina	71
Group A5 Electrical and engineering aluminas, 99.0–99.6% alumina	91
Group A6 Electrical and engineering aluminas, 96.5–99.0% alumina	119
Group A7 Electrical and engineering aluminas, 94.5–96.5% alumina	141
Group A8 Electrical and engineering aluminas, 86–94.5% alumina	179
Group A9 Electrical and engineering aluminas, 80–86% alumina	209
Group A10 High-purity, open-porous aluminas, >99.6% alumina	225
Group A11 Porous high-alumina ceramics, 90–99.6% alumina	237
Group A12 Porous high-alumina ceramics, 80–90% alumina	249
