| <b>Part 1 – The topics</b>                              | <b>1</b>  |
| <b>1 Introduction</b>                                   | <b>3</b>  |
| <b>1.1 Is this book for you?</b>                        | <b>3</b>  |
| <b>1.2 Know the beast</b>                               | <b>4</b>  |
| <b>1.3 Does requirements engineering really matter?</b> | <b>5</b>  |
| <b>1.4 The nature of requirements engineering</b>       | <b>7</b>  |
| <b>1.5 The problem domain (and other domains)</b>       | <b>8</b>  |
| <b>1.6 Requirements</b>                                 | <b>14</b> |
| <b>1.7 Exercises</b>                                    | <b>20</b> |
| <b>2 The requirements engineering process</b>           | <b>23</b> |
| <b>2.1 Analysis</b>                                     | <b>24</b> |
| <b>2.2 Elicitation</b>                                  | <b>26</b> |
| <b>2.3 Specification</b>                                | <b>27</b> |
| <b>2.4 Human to machine interface design</b>            | <b>29</b> |
| <b>2.5 Validation</b>                                   | <b>29</b> |
| <b>2.6 A requirements engineering process model</b>     | <b>30</b> |
| <b>2.7 Design (and ‘analysis and design’)</b>           | <b>34</b> |
| <b>2.8 Problem data vs solution data</b>                | <b>36</b> |
| <b>2.9 Modelling static data</b>                        | <b>37</b> |
| <b>2.10 Other activities</b>                            | <b>38</b> |
| <b>2.11 Exercises</b>                                   | <b>39</b> |
| <b>3 Elicitation</b>                                    | <b>41</b> |
| <b>3.1 The information to elicit</b>                    | <b>42</b> |
| <b>3.2 Sources of information</b>                       | <b>42</b> |
| <b>3.3 Elicitation techniques</b>                       | <b>44</b> |

|  |            |
|--|------------|
| <b>3.4 Elicitation strategy</b>                    | <b>45</b>  |
| <b>3.5 Exercises</b>                               | <b>49</b>  |
| <br>   |            |
| <b>4 Analysis</b>                                  | <b>51</b>  |
| <b>4.1 The trouble with analysis</b>               | <b>52</b>  |
| <b>4.2 Approaches to analysis</b>                  | <b>53</b>  |
| <b>4.3 Structured analysis</b>                     | <b>54</b>  |
| <b>4.4 Object oriented analysis</b>                | <b>77</b>  |
| <b>4.5 Problem domain oriented analysis</b>        | <b>92</b>  |
| <b>4.6 Writing requirements</b>                    | <b>127</b> |
| <b>4.7 Summary of analysis</b>                     | <b>128</b> |
| <b>4.8 The requirements document</b>               | <b>129</b> |
| <b>4.9 Exercises</b>                               | <b>133</b> |
| <br>   |            |
| <b>5 Specification</b>                             | <b>135</b> |
| <b>5.1 Introduction</b>                            | <b>135</b> |
| <b>5.2 External design (edesign)</b>               | <b>140</b> |
| <b>5.3 Documenting behaviour</b>                   | <b>144</b> |
| <b>5.4 The specification document</b>              | <b>160</b> |
| <b>5.5 Approaches to specification</b>             | <b>171</b> |
| <b>5.6 Specification techniques and mechanisms</b> | <b>184</b> |
| <b>5.7 Specification examples</b>                  | <b>185</b> |
| <b>5.8 Exercises</b>                               | <b>203</b> |
| <br>   |            |
| <b>6 Validation</b>                                | <b>210</b> |
| <b>6.1 Simple checks</b>                           | <b>210</b> |
| <b>6.2 Review</b>                                  | <b>211</b> |
| <b>6.3 Logical analysis</b>                        | <b>211</b> |
| <b>6.4 Prototypes, use-cases, etc.</b>             | <b>212</b> |
| <b>6.5 Functional test design</b>                  | <b>212</b> |
| <b>6.6 User manual development</b>                 | <b>213</b> |
| <br>   |            |
| <b>7 Where next?</b>                               | <b>214</b> |
| <br>   |            |
| <b>Part 2 – Technology</b>                         | <b>217</b> |
| <br>   |            |
| <b>8 Techniques</b>                                | <b>219</b> |
| <b>8.1 Notations</b>                               | <b>219</b> |
| <b>8.2 Methods</b>                                 | <b>220</b> |
| <b>8.3 Tools</b>                                   | <b>221</b> |
| <b>8.4 Technique selection</b>                     | <b>221</b> |

|  |            |
|--|------------|
| <b>9 Elicitation techniques</b>                              | <b>223</b> |
| <b>9.1 Background reading</b>                                | 223        |
| <b>9.2 Interviewing</b>                                      | 224        |
| <b>9.3 Questionnaires</b>                                    | 229        |
| <b>9.4 Document inspection</b>                               | 229        |
| <b>9.5 Task observation</b>                                  | 230        |
| <b>9.6 Ethnography</b>                                       | 232        |
| <b>9.7 Use-cases and scenarios</b>                           | 232        |
| <b>9.8 Brainstorming</b>                                     | 233        |
| <b>9.9 Requirements stripping</b>                            | 234        |
| <br>   |            |
| <b>10 Modelling techniques</b>                               | <b>235</b> |
| <b>10.1 Representational modelling</b>                       | 235        |
| <b>10.2 Behavioural modelling</b>                            | 236        |
| <b>10.3 Structural modelling</b>                             | 237        |
| <b>10.4 Modelling technique classification</b>               | 237        |
| <br>   |            |
| <b>11 Representational modelling</b>                         | <b>239</b> |
| <b>11.1 Indications for use</b>                              | 239        |
| <b>11.2 Static representational modelling</b>                | 239        |
| <b>11.3 Dynamic representational modelling (prototypes)</b>  | 241        |
| <br>   |            |
| <b>12 Behavioural (functional) modelling</b>                 | <b>245</b> |
| <b>12.1 Function statements and functional decomposition</b> | 245        |
| <b>12.2 Task analysis</b>                                    | 249        |
| <b>12.3 Use-cases and scenarios</b>                          | 250        |
| <b>12.4 Decision tables</b>                                  | 259        |
| <b>12.5 State-based techniques</b>                           | 266        |
| <b>12.6 Finite state machines</b>                            | 266        |
| <b>12.7 Petri nets</b>                                       | 283        |
| <br>   |            |
| <b>13 Internal modelling</b>                                 | <b>291</b> |
| <b>13.1 Process oriented techniques</b>                      | 291        |
| <b>13.2 Algorithmic techniques</b>                           | 301        |
| <b>13.3 Data structure oriented techniques</b>               | 302        |
| <b>13.4 Process/data combination</b>                         | 311        |
| <br>   |            |
| <b>14 Text-based definition</b>                              | <b>318</b> |
| <b>14.1 Formality of text</b>                                | 319        |
| <b>14.2 Natural language</b>                                 | 319        |
