1 Introduction: why study conversation?	1
1.1 The basics: the ‘Two Things’	2
1.2 The view from linguistics	5
1.2.1 The search for meaning	5
1.2.2 Observational approaches	23
1.3 Beyond language: discourse analysis and CA	28
1.4 Action and sequence: the implications	31
1.5 The organisation of this volume and overview of chapters	32
2 Towards an understanding of action: origins and perspectives	35
2.1 On Goffman and Garfinkel	36
2.2 Harvey Sacks: from ethnomethodology to conversation analysis	40
2.3 Jefferson’s transcription system	44
2.4 Capturing phenomena	47
2.4.1 Developments of the Jefferson system	52
2.5 CA transcription conventions: an overview	53
3 Why that, now? Position and composition in interaction	64
3.1 On position and composition	64
3.1.1 How position matters: <i>What are you doing?</i>	65
3.2 Adjacency and the adjacency pair	68
3.2.1 Adjacency and cross-linguistic validity	73
3.3 Expansion beyond the adjacency pair	76
3.3.1 Pre-expansion	77
3.3.2 Insert expansion	82
3.3.3 Post-expansions	84
3.4 The sequence: coherence and distributed cognition	89
3.5 Conclusion: ‘sequence’ as infrastructure and context	94
4 Interaction in time: the centrality of turn-taking	95
4.1 Turn-taking: an overview	96
4.2 A sketch of ‘a simplest systematics’	97

4.2.1	The turn-constructural component	98
4.2.2	The turn-allocational component	111
4.2.3	Beyond the first TCU	122
4.3	The turn-taking rules	124
4.4	More than one at a time: 'interruption', overlap and choral production	126
4.5	No-one speaking: forms of silence	130
4.6	Transforming silence: the role of grammar	132
4.7	Local variation, universal system?	134
4.8	Conclusion: grammar and social organisation in context	139
5	The structure of sequences I: preference organisation	140
5.1	Preference organisation: an introduction	141
5.1.1	Preference and adjacency pairs	141
5.1.2	Actions and formats: interactional implications	148
5.1.3	An exception	150
5.1.4	Between preferred and dispreferred: agendas, social norms and deontic authority in responsive turns	151
5.1.5	Preference and action categories	162
5.2	Preference and the recognition of action	168
5.3	Preference in person reference	170
5.3.1	Preference, principles and defaults in person reference	170
5.3.2	Preference and grammaticalisation	172
5.3.3	Departures from default usage	179
5.4	Conclusion: preference in the turn and the sequence	184
6	The structure of sequences II: knowledge and authority in the construction of identity	185
6.1	Identity in CA: the 'membership categorisation device'	186
6.1.1	Categories and collections of categories	189
6.1.2	The rules of application	193
6.2	Knowledge and authority as resources for action recognition	195
6.2.1	Territories of knowledge in interaction	196
6.2.2	Authority in interaction	221
6.3	Conclusion: knowledge, authority and agency in indirection	228
7	Halting progressivity: the organisation of repair	232
7.1	Self-repair	236
7.1.1	Self-initiated self-repair in same TCU	236
7.1.2	Self-initiated transition-space repairs	241
7.1.3	Third position repairs	243
7.1.4	Self-initiated other-repair	245
7.2	Other-repair	247
7.2.1	Understanding checks	250
7.2.2	Partial repeats	253
7.2.3	Partial repeat + <i>wh</i> -word	255
7.2.4	<i>Wh</i> -word	257
7.2.5	Open class repair initiator	258

7.3	Implicit forms of repair initiation: embodiment and gaze	264
7.4	Conclusion: the defence of intersubjectivity	270
8	Conclusion: discovering order	272
