

CONTENTS

Preface ix

Acknowledgments xv

PART ONE Background and History

CHAPTER ONE What Is Complexity? 3

CHAPTER TWO Dynamics, Chaos, and Prediction 15

CHAPTER THREE Information 40

CHAPTER FOUR Computation 56

CHAPTER FIVE Evolution 71

CHAPTER SIX Genetics, Simplified 88

CHAPTER SEVEN Defining and Measuring Complexity 94

PART TWO Life and Evolution in Computers

CHAPTER EIGHT Self-Reproducing Computer Programs 115

CHAPTER NINE Genetic Algorithms 127

PART THREE Computation Writ Large

CHAPTER TEN Cellular Automata, Life, and the
Universe 145

CHAPTER ELEVEN Computing with Particles 160

CHAPTER TWELVE Information Processing in Living
Systems 169
