## Figures

1.1	Science	9
1.2	Pseudoscience	9
4.1	Steps in the scientific method	23
4.2	Deduction and induction	26
4.3	The deductive method	26
5.1	Scientific method	39
6.1	The key steps in the survey process	47
6.2	Online survey – employee motivation	48
7.1	The structure of a research paper	55
7.2	Detailed structure of a research paper	56
7.3	Preliminary sections	57
7.4	Example of an executive summary	58
7.5	Example of a dedication	59
7.6	Example of an acronyms list	60
7.7	Table of Contents of a research paper: an example based on case study methodology	61
7.8	Example of a list of tables in a research paper	61
7.9	Example of a list of figures in a research paper	62
7.10	Structure of the text in a research paper	63
7.11	Appendices in a research paper: a case study example	66
9.1	Literature map of main trends in studies on women entrepreneurs	101
10.1	Interview with experts form	122
10.2	Field notes form	123
10.3	Interview notes form	124
11.1	Emerging conceptual framework: why women become entrepreneurs	182

## Tables

5.1	Reasons for choosing the qualitative approach	36
11.1	Profile of the informants	144

11.2	Informants' rate of response	146
11.3	Identified circumstances and motives in women entrepreneurs	150
11.4	Matrix of circumstances and motives that influenced the decision of becoming entrepreneurs	156
11.5	Analysis of cases of women entrepreneurs	158
11.6	Women entrepreneurs reference models	166
11.7	People who support women entrepreneurs' enterprises	168
11.8	Matrix of cases categorized by life cycle stages	181

**Boxes**

4.1	The benefits of mathematics in economic analysis	30
5.1	Usefulness of mixed methods	37
6.1	Pros and cons of techniques of verbal communication	45
6.2	Formulation of questions	49
6.3	An example of a closed question	50
