	Foreword by Tony Parisi	vii
	Preface	ix
	Contributors	xiii
Part 1:	Using SVG and X3D in Generic Web Applications	1
1	SVG and X3D in the Context of the XML Family and the Semantic Web Vladimir Geroimenko	3
2	The Foundations of SVG	21
	Kurt Cagle	
3	X3D Fundamentals	63
	Don Brutzman, James Harney and Curt Blais	
4	SVG as the Visual Interface to Web Services	85
	Shane Aulenback	
5	X3D Graphics, Java and the Semantic Web	99
	James Harney, Alan Hudson, Curt Blais and Don Brutzman	
6	Distributed User Interfaces: Toward SVG 1.2	119
	Kurt Cagle	
7	Publishing Paradigms for X3D	153
	Nicholas F. Polys	
Part 2:	Applying SVG and X3D to Specific Problems	181
8	Visualizing Complex Networks	183
	Chaomei Chen and Natasha Lobo	
9	Applying SVG to Visualization of Chemical Structures and Reactions	202
	John Leaver	

10 Using Metadata-based SVG and X3D Graphics in Interactive TV 225
 Artur Lugmayr and Seppo Kalli

11 Knowledge Visualization Using Dynamic SVG Charts 245
 Nikolas A. Rathert

12 Using SVG and XSLT to Display Visually Geo-referenced XML .. 256
 Timothy Adams

13 Using Adobe Illustrator to Create Complex SVG Illustrations ... 266
 Sara Porter

14 X3D-Edit Authoring Tool for Extensible 3D (X3D) Graphics 285
 Don Brutzman

15 Concluding Remarks 293
 Vladimir Geroimenko and Chaomei Chen
