# *Brief Contents*

---

## **PART 1** What is Educational Psychology All About?

1. *What Educational Psychology Contributes  
to Teaching* **2**

---

## **PART 2** Learning About Students: How They Change With Age

2. *Psychosocial Development* **24**
3. *Developing Ability to Think and Speak* **70**

---

## **PART 3** Learning About Students: Individual Differences

4. *Mental Ability* **114**
5. *Students and Their World* **144**
6. *Special Needs Students* **172**

---

<b>PART 4 Teaching and Learning</b>	
7. <i>Behavioral Approaches to Teaching and Learning</i>	204
8. <i>The Cognitive Approach to Learning</i>	244
9. <i>Social Learning</i>	271
10. <i>The Role of Computers in School</i>	306

---

<b>PART 5 Motivating Students</b>	
11. <i>Motivation</i>	340
12. <i>Discipline</i>	377

---

<b>PART 6 Evaluating Teaching and Learning Accomplishments</b>	
13. <i>Measuring Teaching and Learning</i>	414
14. <i>Evaluating Research</i>	450
15. <i>Basic Statistics for Teachers</i>	473

<b>1. <i>What Educational Psychology Contributes to Teaching</i></b>	<b>PART 1</b>
Educational Psychology and Teaching	<b>2</b>
Problems Studied by Educational Psychologists	<b>3</b>
Putting Theory into Practice	<b>5</b>
The Keller Plan: PSI	<b>9</b>
Mastery Learning	<b>9</b>
Recent Research on the Use of Pedagogical Aids for Students	<b>10</b>
The Special Design of This Book	<b>14</b>
Key Concepts to Review Before Your Self-Test	<b>15</b>
	<b>19</b>
<b>2. <i>Psychosocial Development</i></b>	<b>PART 2</b>
The Study of Developmental Stages	<b>24</b>
Maturation	<b>27</b>
Physical Development	<b>28</b>
Theories of Psychosocial Development	<b>32</b>
	<b>35</b>

vii

Developmental Stages of the School Years	47
Childhood: The Elementary School Years	47
Adolescence: The Middle School and High School Years	50
Socialization Learning	58
The Importance of Modeling	58
Problem Behaviors That Can Develop	60
Key Concepts to Review Before Your Self-Test	65
<b>3. <i>Developing Ability to Think and Speak</i></b>	<b>70</b>
Developing Ability to Think	73
Piaget's Theory	73
Generalizations About the Development of Thinking	73
Piaget's Stages of Mental Development	76
The Importance of Environmental Stimulation	80
Making Use of What We Know About Thinking in the Classroom	84
Developing Ability to Speak	89
Understanding the Relationship Between Thinking and Speaking	89
Chomsky's Theory of Language Development	90
The Special Human Qualities Necessary for Speech	91
The Stages of Language Development	93
Can Chimps Talk?	95
Making Use of What We Know About Language Development in the Classroom	96
Bilingualism	100
Affecting Second-Language Learning	101
The Effects of Early Bilingualism	104
Key Concepts to Review Before Your Self-Test	106
<hr/>	
<b>PART 3</b>	
<b>Learning About Students: Individual Differences</b>	
<b>4. <i>Mental Ability</i></b>	<b>114</b>
What Is Intelligence?	117
Intelligence Tests Used in the Schools	118
Binet's Experiments	119

Individual Versus Group Tests	120
Tests Used in Today's Schools	121
Factors That Affect IQ Scores	127
Developmental Factors	127
Emotional Factors	128
Family and Cultural Factors	130
The IQ Controversy	132
IQ Tests on Trial	134
Creativity	135
Creativity and Intelligence	136
Talented Students	137
Creativity in the Classroom	137
Key Concepts to Review Before Your Self-Test	140
<b>5. <i>Students and Their World</i></b>	<b>144</b>
The Family and Achievement	148
The Changing Family	148
The Important Role of Parents	149
Other Family Factors and Achievement	151
The Family and Personality	154
Lack of Parental Love	154
Divorce	155
Qualities of Good Parenting	156
The Learning Environment	158
The Physical Environment: The Classroom Setting	159
The Psychological Environment: Learning as a Shared Experience	159
The Psychological Environment: Increasing Student Involvement	161
Minority Students and the Adams Avenue School Project	163
Early Intervention	165
Preschool Programs	165
Parental Involvement: A Key to Success	166
Key Concepts to Review Before Your Self-Test	168

<b>6. <i>Special Needs Students</i></b>	<b>172</b>
Who Are Special Needs Students?	175
Types of Special Needs	176
Physically Handicapped Students	176
Mentally Handicapped Students	178
Students with Emotional Problems	180
Students with Sensory Impairments	181
Students with Learning Disabilities	182
Gifted Students	184
Public Law 94–142 and Its Effects	187
Four Major Provisions	187
Mainstreaming	190
Methods of Dealing with Children with Special Needs: A Cross-Cultural Comparison	193
The Teacher in the Mainstreamed Classroom: Some Practical Aids	194
Key Concepts to Review Before Your Self-Test	197

---

**PART 4**  
**Teaching and Learning**

<b>7. <i>Behavioral Approaches to Teaching and Learning</i></b>	<b>204</b>
Behavioral Theories to Explain Learning	206
Classical Conditioning	207
Conditioned and Unconditioned Stimuli	209
Conditioned and Unconditioned Responses	209
The Law of Effect	212
Operant Conditioning	214
Using Reinforcement	215
Shaping Behavior	215
Using Primary and Secondary Reinforcement	217
Using Punishment and Positive and Negative Reinforcement	218
Using Behavioral Theories to Teach	221
Behavior Management	222
Using Reinforcement to Increase Achievement	223

Increasing Learning Through Understanding and Communicating	<b>233</b>
Mastery Learning	<b>235</b>
Key Concepts to Review Before Your Self-Test	<b>238</b>
<b>8. <i>The Cognitive Approach to Learning</i></b>	<b>244</b>
Information Processing	<b>246</b>
Organizing New Information	<b>246</b>
Memory: Placing Information in Storage	<b>247</b>
Retrieving Information	<b>249</b>
Problem-Solving Strategies	<b>251</b>
Teaching Students to Solve Problems	<b>252</b>
Teaching Students to Apply Their Knowledge in New Contexts	<b>252</b>
Cognitive and Learning Styles	<b>255</b>
Cognitive Styles	<b>255</b>
Learning Styles	<b>258</b>
Implications for the Curriculum	<b>260</b>
Cognitive Strategies Applied to Reading	<b>261</b>
Chunking	<b>261</b>
Strategies for Increasing Memory	<b>263</b>
Advance Organizers	<b>265</b>
Key Concepts to Review Before Your Self-Test	<b>267</b>
<b>9. <i>Social Learning</i></b>	<b>271</b>
Social Learning Through Observation	<b>273</b>
Bandura's Theory of Observational Learning	<b>277</b>
Paying Attention	<b>277</b>
Remembering	<b>278</b>
Reproducing Actions	<b>279</b>
Becoming Motivated	<b>280</b>
Perfecting Imitation	<b>281</b>
Identification and Observational Learning	<b>282</b>
Modeling Effects	<b>283</b>
Disinhibitory and Inhibitory Effects	<b>283</b>
Televised Aggression and Observational Learning	<b>283</b>

Doll Play and Observational Learning	284
Identification and Prosocial Observational Learning	285
Teaching by Modeling	287
The Teacher's Role	288
Demonstrating and Supplying Information	288
Using Student Responses	289
The Role of Peers	289
Using the Classroom Climate	291
Teacher Personality and Student Learning	291
Teacher Expectation	292
Teaching in Groups	294
Self-Regulation	299
Bandura's Theory of Self-Regulation	299
Key Concept to Review Before Your Self-Test	302
<b>10. <i>The Role of Computers in School</i></b>	<b>306</b>
Computers in the Classroom	309
Computer Literacy	309
Computer Programs	309
Computer Assisted Instruction (CAI)	312
Computer and Students with Special Needs	326
Individualizing Instruction	326
Teaching Basic Skills	327
Motivating Students	328
The Role of the Teacher	329
Evaluating Educational Software	331
Key Concepts to Review Before Your Self-Test	334
<hr/>	
<b>PART 5</b>	<b>11. <i>Motivation</i></b>
<b>Motivating Students</b>	<b>340</b>
	Needs, Drives, and Motives
	342
	The Importance of Needs
	342
	Types of Needs
	343
	The Drives That Follow
	343

How Motivation Develops	344
Anxiety: A Drive with a Strong Effect on Behavior	345
The Humanist Approach to Motivation: Maslow's Hierarchy of Human Needs	347
Using the Hierarchy of Human Needs to Improve Classroom Learning	351
Teaching Students to Be Intrinsically Motivated	353
Self-Discovery Teaching	354
Criticisms of Maslow's Approach	354
Achievement Motivation	358
Increasing Achievement Motivation	358
Success and Failure Orientations	360
Locus of Control	360
Learned Helplessness	361
Personality Factors and Motivation	363
Anxiety, Instruction, and Motivation	363
Structure Versus No Structure	364
Self-Concept and Motivation	364
Sex, Race, and Ethnic Status Differences and Achievement Motivation	365
Fear of Success	366
Career Expectation	367
Competition and Motivation	368
Using Group Cooperation to Motivate	370
The Importance of Self-Worth	371
Key Concepts to Review Before Your Self-Test	373
<b>12. <i>Discipline</i></b>	<b>377</b>
Effective Reinforcement	381
Use of Positive Reinforcement	381
The Importance of Understanding the Effects of Reinforcement	381
Suggestions for Teachers	382
Serving as Effective Models	392
Parents as Models	392
Teachers as Models	392
Suggestions for Teachers	393

Using Punishment and Negative Reinforcement	<b>396</b>
How Do Punishment and Negative Reinforcement Work?	<b>396</b>
Problems That Punishment and Negative Reinforcement Create in the Classroom	<b>398</b>
Suggestions for Teachers	<b>399</b>
Helping Students Learn Self-Discipline	<b>405</b>
The Importance of Teaching Style	<b>406</b>
Key Concepts to Review Before Your Self-Test	<b>408</b>

---

**PART 6**  
**Evaluating Teaching and Learning Accomplishments**

<b>13. <i>Measuring Teaching and Learning</i></b>	<b>414</b>
The Importance of Measuring	<b>416</b>
Types of Evaluation	<b>416</b>
Criterion-Referenced and Norm-Referenced Evaluation	<b>417</b>
Group and Individual Evaluation	<b>418</b>
Formative and Summative Evaluation	<b>418</b>
Standardized Tests	<b>420</b>
How Tests are Standardized	<b>421</b>
What Standardized Test Scores Mean	<b>421</b>
Advantages and Disadvantages of Standardized Tests	<b>421</b>
Using Test Manual Data to Evaluate Student Performance	<b>425</b>
Types of Scores to Expect	<b>428</b>
Teacher-Developed Tests	<b>431</b>
Using Bloom's Taxonomy to Evaluate Tests	<b>432</b>
Developing Tests That Tap Important Learning	<b>435</b>
Determining Item Validity by Simple Statistics	<b>441</b>
Key Concepts to Review Before Your Self-Test	<b>445</b>
<b>14. <i>Evaluating Research</i></b>	<b>450</b>
What Is in the Educational Publications?	<b>452</b>
Research Shaping Education: The Case of Preschool Programs	<b>453</b>

Types of Research Studies	454
Experimental and Observational Studies	455
Cross-Sectional and Longitudinal Studies	457
Research Approaches Used by Educators	460
The Group Comparisons Approach	460
The Correlational Approach	461
Descriptive and Case Study Approaches	462
Evaluation Research: A Special Application of Research to Education	465
Objects of Evaluation Research	465
A Remedial Reading Program for the High Schools	466
Key Concepts to Review Before Your Self-Test	469
<b>15. <i>Basic Statistics for Teachers</i></b>	<b>473</b>
Descriptive Statistics	475
The Mean	475
The Mode	476
The Median	477
The Distribution of Scores	477
The Correlation Coefficient	481
Reliability and Validity	484
Levels of Significance	487
Key Concepts to Review Before Your Self-Test	490
<b>Glossary</b>	<b>493</b>
<b>References</b>	<b>500</b>
<b>Name Index</b>	<b>520</b>
<b>Subject Index</b>	<b>527</b>
