

# CONTENTS

|   |           |
|---|-----------|
| <b>Preface</b>  | <b>xi</b> |
| <b>SECTION ONE THE PURE THEORY OF TRADE</b>   | <b>1</b>  |
| <b>Chapter 1 Introduction</b>   | <b>3</b>  |
| An Overview of Trade  | 3         |
| The Ricardian One-Factor Model  | 9         |
| Summary   | 17        |
| References  | 17        |
| <b>Appendix 1 Some Basic Propositions of the Ricardian Model</b>  | <b>17</b> |
| <i>The Ricardian Production Possibilities Curve Is a Straight Line<br/>    Whose Slope Is the Ratio of the Marginal Products of Labor in<br/>    the Two Industries</i> | 18        |
| <i>The Slope of the Production Possibilities Curve Equals the Autarkic<br/>    Equilibrium Relative Price of the Two Goods</i>  | 20        |
| <b>Chapter 2 The Supply Side in a Nontrading Country</b>  | <b>22</b> |
| The Production Possibilities Curve, Production Functions, and Factors of<br>Production  | 22        |
| Factor Proportions and Factor Returns Within a Given Industry   | 25        |
| Factor Proportions Across Industries  | 31        |
| Factor Returns, Factor Proportions, and the Production Possibilities<br>Curve   | 37        |
| Summary   | 43        |
| References  | 44        |
| <b>Appendix 2 The Edgeworth Box and Euler's Theorem</b>   | <b>44</b> |
| The Edgeworth Box   | 44        |
| Euler's Theorem   | 50        |
| Appendix Notes  | 51        |
| <b>Chapter 3 The Supply Side of an Open Country</b>   | <b>52</b> |
| Relative Goods Prices and Relative Factor Prices  | 52        |
| Factor Price Equalization   | 54        |
| The Stolper-Samuelson Theorem   | 57        |
| The Rybczynski Theorem  | 59        |
| The Relevance of These Three Theorems   | 63        |
| Summary   | 66        |
| References  | 66        |
| Notes   | 67        |
| <b>Appendix 3 The Factor Price Equalization Theorem</b>   | <b>67</b> |
| Absolute Factor Price Equalization  | 70        |
| The Stolper-Samuelson Theorem   | 71        |

|                               |    |
|-------------------------------|----|
| <i>The Rybczynski Theorem</i> | 74 |
| Appendix Notes                | 75 |

## **Chapter 4 Introducing Demand and the Gains From Trade** 76

|                               |    |
|-------------------------------|----|
| A Representation of Demand    | 76 |
| Equilibrium in Autarky        | 79 |
| Equilibrium with Trade        | 80 |
| The Gains from Trade          | 82 |
| The Heckscher-Ohlin Model     | 85 |
| The Incentives for Free Trade | 88 |
| Summary                       | 89 |
| References                    | 90 |
| Notes                         | 91 |

## **Chapter 5 The Effects of Tariffs on Trade and Relative Prices** 92

|   |     |
|---|-----|
| Deriving <i>Mutatis Mutandis</i> Demand and Supply Schedules          | 93  |
| The Effects of a Tariff   | 95  |
| The Costs of a Tariff for a Small Country                             | 98  |
| The Lerner Symmetry Theorem   | 101 |
| Tariffs and Quotas as Alternatives                                    | 101 |
| <i>The Equivalence of a Tariff and a Quota in a Static World</i>      | 102 |
| <i>The Effects of Tariffs and Quotas in a Changing World</i>          | 103 |
| Tariff Versus Quota—Some Other Considerations                         | 105 |
| Political Pressures for Trade Restrictions—The Specificity of Factors | 106 |
| Import Restrictions and the Trade Balance                             | 108 |
| Tariffs and the Laffer Curve  | 110 |
| Summary   | 111 |
| References  | 112 |
| Notes   | 113 |

## **Chapter 6 Trade Barriers and Alternatives: Policy Interventions to Correct Distortions** 114

|  |     |
|--|-----|
| Types of Distortions                                       | 114 |
| The Effects of Tariffs in a Large Country                  | 117 |
| A <i>Mutatis Mutandis</i> Derivation of the Optimum Tariff | 119 |
| Optimal Intervention                                       | 123 |
| Case 1—Steel Imports 1977                                  | 125 |
| Case 2—Infant Industry Argument                            | 128 |
| Summary  | 129 |
| References   | 130 |
| Notes  | 130 |

## **Chapter 7 Transfers, Growth, and the Terms of Trade** 131

|  |     |
|--|-----|
| The Transfer Problem   | 131 |
| Limitations to the Terms of Trade Effect                                     | 135 |
| The Inverse Proposition: Changes in the Terms of Trade and the Trade Balance | 136 |
| Growth and the Terms of Trade  | 137 |
| Factor Mobility  | 139 |
| Factor Mobility and National Welfare   | 142 |

|            |     |
|------------|-----|
| Summary    | 143 |
| References | 144 |
| Notes      | 145 |

## **Appendix 7 A Mathematical Model** 145

|  |     |
|--|-----|
| <i>The Terms of Trade and the Trade Balance—Stability Conditions</i> | 145 |
| <i>The Transfer Problem</i>  | 147 |
| <i>The Effect of Prices on the Trade Balance</i>                     | 148 |
| <i>Transfers, the Terms of Trade, and Income</i>                     | 149 |
| Appendix Notes   | 150 |

## **Chapter 8 A Wedge or Supply Side Model of Production, Tax Revenues, and the Trade Balance** 151

|   |     |
|---|-----|
| A Wedge Model of an Economy   | 153 |
| Some Background Assumptions for a Wedge Model of the Trade Balance    | 159 |
| A Wedge Model of the Trade Balance                                    | 161 |
| A Wedge Model for a Small Country                                     | 166 |
| An Increase in Government Expenditure                                 | 166 |
| An Increase in Taxes  | 171 |
| The Wedge Model of a Large Country                                    | 173 |
| The World as a Whole  | 174 |
| Countries Where No Government Expenditure Increase Occurs             | 174 |
| The Country Where the Government Expenditure Rose                     | 176 |
| A Supply Side Shock in a Large Country: The Effect of Transfers Again | 179 |
| Summary   | 182 |
| Notes   | 182 |

## **SECTION TWO THE INTERNATIONAL FINANCIAL SYSTEM IN AN INTEGRATED WORLD** 183

### **Chapter 9 The Basic Model of an Open Economy** 185

|   |     |
|---|-----|
| The Closed Economy Model  | 186 |
| A.) <i>The Traditional IS-LM Framework—Only Money and Goods</i>           | 186 |
| B.) <i>Bonds—The Third Implicit Market</i>                                | 188 |
| C.) <i>Goods, Money, and Bonds—The Closed Economy Walrasian Framework</i> | 189 |
| Adjustment in the Small, Open Economy                                     | 191 |
| Walras' Law in the Small, Open Economy                                    | 194 |
| Summary   | 195 |
| References  | 196 |
| Notes   | 196 |

### **Appendix 9 Derivation of the IS-LM Framework of the Closed Economy** 196

|                    |   |            |
|--------------------|---|------------|
| <b>Chapter 10</b>  | <b>The Balance of Payments Accounts</b>   | <b>202</b> |
|                    | The Accountant vs. the Economist  | 202        |
|                    | Balance of Payments Statistics  | 204        |
|                    | The Merchandise Trade Balance   | 204        |
|                    | The Current Account   | 206        |
|                    | The Capital Account and the Balance of Payments   | 207        |
|                    | Recent Developments   | 209        |
|                    | Stock vs. Flow Definition   | 214        |
|                    | The Global Balance of Payments  | 214        |
|                    | Theoretical Approaches to Understanding the Balance of Payments   | 215        |
|                    | Summary   | 216        |
|                    | References  | 217        |
|                    | Notes   | 217        |
| <br>               |   |            |
| <b>Chapter 11</b>  | <b>The World as an Integrated Market</b>  | <b>218</b> |
|                    | The Concept of Integrated World Markets   | 218        |
|                    | Measuring World Integration   | 221        |
|                    | Internal Quantity Integration   | 222        |
|                    | External Quantity Integration   | 226        |
|                    | <i>The Flow of Goods</i>  | 226        |
|                    | <i>The Flow of Financial Assets</i>   | 229        |
|                    | Prices and Economic Integration   | 231        |
|                    | Summary   | 238        |
|                    | References  | 238        |
|                    | Notes   | 240        |
| <br>               |   |            |
| <b>Chapter 12</b>  | <b>The Monetary Approach to the Balance of Payments:<br/>The Adjustment of Money Markets in an Integrated World I</b> | <b>243</b> |
|                    | The Balance of Payments of a Small Country  | 243        |
|                    | The Balance of Payments of a Large Country  | 245        |
|                    | The Effects of Changes in the Money Supply  | 248        |
|                    | Burden of Adjustment and Relative Size  | 251        |
|                    | Summary   | 254        |
|                    | References  | 255        |
|                    | Notes   | 255        |
| <br>               |   |            |
| <b>Appendix 12</b> | <b>A Graphical Technique for Determining Equilibrium<br/>Distributions in the World</b>                               | <b>256</b> |
| <br>               |   |            |
| <b>Chapter 13</b>  | <b>Inflation: The Adjustment of Money Markets in an<br/>Integrated World II</b>                                       | <b>258</b> |
|                    | Introduction  | 258        |
|                    | The Breakdown of the Bretton Woods System and the Emergence of<br>Inflation   | 259        |
|                    | World Inflation and the World Money Supply  | 262        |
|                    | Eurodollars   | 263        |
|                    | World Inflation and the World Money Supply (continued)  | 273        |
|                    | Summary   | 276        |
|                    | References  | 277        |
|                    | Notes   | 277        |

|  |            |
|--|------------|
| <b>Chapter 14 Determinants of the Trade Balance:<br/>The Adjustment of the Goods Market in an Integrated World</b> | <b>279</b> |
| The Basis of the Trade Balance Model   | 279        |
| The Trade Balance of a Small Country   | 280        |
| The Trade Balance of a Large Country   | 282        |
| The OPEC Transfer and the Trade Balance  | 286        |
| Summary  | 291        |
| References   | 291        |
| <br>   |            |
| <b>Chapter 15 The Capital Account: Adjustment of the<br/>Bond Market in an Integrated World</b>                    | <b>292</b> |
| The Capital Account  | 292        |
| Capital Controls   | 294        |
| Voluntary Foreign Credit Restraint Program   | 295        |
| Summary  | 297        |
| References   | 298        |
| Notes  | 298        |
| <br>   |            |
| <b>Chapter 16 The IS-LM-FF Model: A Keynesian Model of<br/>Internal-External Balance</b>                           | <b>299</b> |
| The Basic IS-LM-FF Model   | 299        |
| Some Fundamental Differences between the Internal-External Balance<br>Model and the Model of the Integrated World  | 302        |
| The Role of Monetary and Fiscal Policy in the IS-LM-FF<br>Model  | 303        |
| The Small Country Case within the IS-LM-FF Model   | 307        |
| Summary  | 310        |
| References   | 311        |
| Notes  | 311        |
| <br>   |            |
| <b>Appendix 16 Expanding the IS-LM Framework to an<br/>Open Economy Model</b>                                      | <b>311</b> |
| Adjusting the IS Curve to the Open Economy   | 312        |
| Adjusting the LM Curve to the Open Economy   | 314        |
| The New Curve—The FF Curve   | 316        |
| An Algebraic Summary   | 318        |
| <br>   |            |
| <b>Chapter 17 Devaluation</b>  | <b>319</b> |
| Devaluation in an Integrated World   | 319        |
| The Early Keynesian Models   | 325        |
| A Further Complication   | 327        |
| Bringing Money into the Analysis   | 330        |
| A Simple Model With Money  | 330        |
| Stock vs. Flow Adjustment  | 333        |
| Including the Bonds Market   | 334        |
| Summary  | 337        |
| What Tests of the Raw Data Tell Us   | 338        |
| Including the Effects of Other Factors   | 341        |
| Summary  | 345        |
| References   | 346        |
| Notes  | 346        |
