<b>1</b>	<b>The Importance of Understanding the Nature of Scientific Knowledge</b> .....	1
	References .....	11
<b>Part I General Features of Knowledge</b>		
<b>2</b>	<b>The Traditional Account of Knowledge</b> .....	17
2.1	Kinds of Knowledge .....	17
2.2	The Traditional Account of Propositional Knowledge .....	20
2.3	Conclusion .....	22
	References .....	23
<b>3</b>	<b>Belief</b> .....	25
3.1	Belief in Versus Belief That .....	26
3.2	What Is a Belief? .....	27
3.3	Philosophical Theories of Belief .....	29
3.3.1	Representationalism .....	29
3.3.2	Dispositionalism .....	30
3.3.3	Eliminativism .....	32
3.4	Kinds of Beliefs .....	33
3.4.1	Explicit Belief Versus Implicit Belief .....	34
3.4.2	Occurrent Belief Versus Dispositional Belief Versus Disposition to Believe .....	35
3.5	The Tripartite View Versus Degrees of Belief .....	37
3.6	Belief Versus Acceptance .....	38
3.7	Conclusion .....	39
	References .....	39
<b>4</b>	<b>Truth</b> .....	41
4.1	Preliminaries .....	42
4.2	Truth and Objectivity .....	43
4.2.1	Realism .....	44

4.2.2	Relativism .....	45
4.2.3	Anti-realism .....	48
4.3	Pluralist Theories of Truth .....	50
4.4	Verisimilitude .....	52
4.5	Conclusion .....	53
	References .....	53
<b>5</b>	<b>Justification</b> .....	<b>57</b>
5.1	The Nature of Justification .....	58
5.1.1	Epistemic Justification Versus Pragmatic Justification ...	59
5.1.2	Justification Versus Justifying .....	59
5.1.3	Justified in Believing Versus Justifiedly Believing .....	61
5.1.4	Justification and Defeat .....	61
5.1.5	Justification and Truth .....	63
5.2	Justification and Normativity .....	63
5.3	The Structure of Justification .....	67
5.3.1	Foundationalism .....	69
5.3.2	Coherentism .....	71
5.3.3	Hybrid Responses .....	76
5.4	Internalism Versus Externalism .....	77
5.4.1	Evidentialism .....	80
5.4.2	Reliabilism .....	83
5.5	Conclusion .....	87
	References .....	88
<b>6</b>	<b>Evidence</b> .....	<b>93</b>
6.1	What Is Evidence? .....	93
6.1.1	Psychologism Versus Propositionalism .....	96
6.2	When Do We Have Evidence? .....	99
6.2.1	Extreme Views of Having Evidence .....	101
6.2.2	Moderate Views of Having Evidence .....	103
6.3	Conclusion .....	105
	References .....	105
<b>7</b>	<b>Basing a Belief on the Evidence</b> .....	<b>107</b>
7.1	Causal Accounts of the Basing Relation .....	108
7.2	Doxastic Accounts of the Basing Relation .....	112
7.3	Hybrid Accounts of the Basing Relation .....	114
7.4	Conclusion .....	116
	References .....	116
<b>8</b>	<b>A Problem for the Traditional Account of Knowledge</b> .....	<b>119</b>
8.1	Gettier's Cases .....	120
8.2	Initial Responses to the Gettier Problem .....	121
8.3	A Fourth Condition for Knowledge? .....	123
8.4	Other Responses to the Problem .....	126
8.5	The Move Away from Knowledge .....	127

8.6 Conclusion .....	128
References .....	129

## **Part II Knowledge of Scientific Claims**

<b>9 Explanation and Understanding .....</b>	<b>133</b>
9.1 Explanation .....	137
9.1.1 Hempel's Theories of Explanation .....	138
9.1.2 Objections to Hempel's Theories .....	139
9.1.3 Alternatives to Hempel's Theories and a Working Model of Explanation .....	141
9.2 Understanding .....	144
9.2.1 Understanding Phenomena Versus Understanding Theories .....	146
9.2.2 Understanding and Knowledge .....	148
9.3 Conclusion .....	151
References .....	151
<b>10 From Explanation to Knowledge .....</b>	<b>155</b>
10.1 Knowledge of Scientific Theories .....	156
10.2 IBE Everywhere .....	161
10.3 Explanatory Reasoning and Evidential Support .....	163
10.3.1 Applying Explanationism .....	165
10.4 Conclusion .....	168
References .....	168

## **Part III Challenges to Scientific Knowledge**

<b>11 Skepticism About the External World .....</b>	<b>173</b>
11.1 Challenge I: Lack of Certainty .....	174
11.2 Challenge II: Underdetermination .....	176
11.3 The Explanationist Response .....	178
11.3.1 Relevant Features of Sensory Experience .....	179
11.3.2 The Superiority of the RWH .....	180
11.4 Conclusion .....	184
References .....	185
<b>12 Skepticism About Induction .....</b>	<b>187</b>
12.1 Examples of Inductive Reasoning .....	188
12.2 The Challenge of Inductive Skepticism .....	189
12.3 Responding to the Challenge of Inductive Skepticism .....	191
12.4 The Explanatory Response .....	193
12.5 The Challenge Returns? .....	196
12.6 Responding to the Returned Challenge .....	197
12.6.1 Residual Concerns .....	200
12.7 Conclusion .....	203
References .....	203

<b>13</b>	<b>Empirical Evidence of Irrationality</b> .....	205
13.1	The Empirical Evidence .....	206
13.1.1	Errors in Deductive Reasoning: The Selection Task .....	206
13.1.2	Errors in Inductive Reasoning: The Conjunction Fallacy .....	208
13.2	Responses to the Threat of Irrationality .....	209
13.2.1	Impossibility Responses .....	210
13.2.2	Questioning the Evidence .....	212
13.2.3	A Modest Response .....	214
13.3	Conclusion .....	216
	References .....	217
<b>14</b>	<b>Anti-realism About Science</b> .....	219
14.1	Scientific Realism .....	220
14.2	Support for Scientific Realism .....	222
14.3	Anti-realist Challenges .....	223
14.3.1	Attacking Inference to the Best Explanation .....	223
14.3.2	Underdetermination of Theories by Evidence .....	226
14.3.3	The Pessimistic Induction .....	229
14.4	Conclusion .....	232
	References .....	232
 <b>Part IV Social Dimensions of Scientific Knowledge</b>		
<b>15</b>	<b>Gaining Scientific Knowledge from Others</b> .....	237
15.1	Testimony .....	239
15.1.1	What Testimony Is .....	239
15.1.2	How Testimony Works .....	241
15.1.3	How Testimony Provides Knowledge .....	243
15.2	Disagreement .....	246
15.3	Conclusion .....	251
	References .....	251
<b>16</b>	<b>Knowledge in a Scientific Community</b> .....	253
16.1	The Role of Trust in Science .....	254
16.2	The Division of Cognitive Labor .....	257
16.3	Conclusion .....	263
	References .....	263
<b>17</b>	<b>Looking Back and Looking Forward</b> .....	267
17.1	The Explanatory Approach and Shifting Focus .....	268
17.2	Building on the Foundation of the Explanatory Approach .....	269
	References .....	270
	<b>Index</b> .....	271
