<b>List of Figures</b> .....	<b>vi</b>
<b>List of Tables</b> .....	<b>viii</b>
<b>Preface</b> .....	<b>xi</b>
<b>1 Introduction</b> .....	<b>1</b>
1.1 Overview and background .....	1
1.2 Educational mismatch in the labour market.....	6
1.2.1 The employer's perspective: Establishment-level productivity .....	6
1.2.2 The allocation mechanism of the labour market: Educational mismatch as substitute for other human capital components .....	8
1.2.3 The labour market policy scope: Retraining for the unemployed .....	10
1.2.4 The employee's perspective: Career mobility .....	11
1.3 Information asymmetries in internal versus external promotion .....	12
<b>2 The impact of overeducated and undereducated workers on establishment-level productivity – First evidence for Germany</b> .....	<b>13</b>
2.1 Introduction .....	13
2.2 Literature review and theoretical considerations .....	16
2.3 Data .....	19
2.4 Estimation strategy.....	23
2.5 Results .....	27
2.5.1 Descriptive evidence .....	27
2.5.2 Results from a dynamic system GMM model .....	29
2.6 Further sensitivity analyses.....	31
2.7 Conclusions.....	34
2.8 Tables appendix.....	37
<b>3 Literacy and numeracy abilities of overeducated and undereducated workers: Revisiting the allocation process in the labour market</b> .....	<b>41</b>
3.1 Introduction .....	41

3.2	Literature review and theoretical considerations .....	43
3.3	Data and methods .....	46
3.4	Descriptive evidence .....	48
3.5	Econometric results.....	51
3.5.1	Selection on cognitive abilities .....	51
3.5.2	Skill alterations due to overeducation, undereducation, and unemployment .....	52
3.5.3	Alternative measures of required education .....	55
3.5.4	Returns to education .....	56
3.6	Conclusion .....	59
3.7	Tables appendix.....	61
<b>4</b>	<b>Not just more jobs but also better ones? Retraining for the unemployed and the quality of the job-worker match .....</b>	<b>65</b>
4.1	Introduction .....	65
4.2	Institutional background and related literature .....	67
4.3	Data description and estimation approach.....	70
4.4	Econometric evidence .....	75
4.4.1	Treatment effects from retraining on the quality of the match.....	77
4.4.2	Targeted assignment versus recency.....	81
4.4.3	Alternative estimation strategies.....	82
4.5	Conclusions.....	84
4.6	Appendix .....	86
<b>5</b>	<b>Educational mismatch and promotions to managerial positions: A test of the career mobility theory.....</b>	<b>89</b>
5.1	Introduction .....	90
5.2	Theoretical considerations and literature review .....	92
5.3	Data and method .....	95
5.4	Results .....	103
5.4.1	Promotions .....	103

5.4.2	Career mobility over the working life cycle .....	105
5.4.3	Wage growth.....	107
5.4.4	Testing the validity of the IIA assumption .....	109
5.5	Conclusions.....	110
5.6	Tables appendix.....	113
<b>6</b>	<b>Asymmetric information in internal versus external promotions .....</b>	<b>117</b>
6.1	Introduction .....	117
6.2	Asymmetric information in promotion decisions .....	120
6.3	Hours, educational degrees and initial job assignment .....	122
6.4	Statistical discrimination in external promotions.....	123
6.5	Empirical specification.....	124
6.6	Data .....	127
6.7	Regression results .....	130
6.7.1	The signal of hours, initial job assignment, and formal educational degrees.....	132
6.7.2	Statistical discrimination.....	134
6.7.3	Increased hours as a signal for women and foreigners.....	135
6.7.4	Executive versus supervisory positions.....	137
6.7.5	Robustness.....	140
6.8	Conclusions.....	143
6.9	Appendix .....	145
6.9.1	Actual working hours in the administrative employment register.....	145
6.9.2	Schooling and vocational degrees .....	146
6.9.3	IIA Assumption and multinomial probit.....	147
<b>7</b>	<b>Summary and research perspectives.....</b>	<b>149</b>
<b>8</b>	<b>German summary.....</b>	<b>153</b>
	<b>References.....</b>	<b>157</b>
