<b>Individual and within-group personality measurements in dairy cattle</b>	5
Borbala Foris, Manuela Zebunke, Jan Langbein and Nina Melzer	
<b>A likelihood approach for the estimation of recombination rate and linkage disequilibrium in half-sib families</b>	9
Alexander Hampel, Friedrich Teuscher and Dörte Wittenburg	
<b>Effects of including founder genomic relationship on genetic parameters and genetic trends from 28 generations of a mouse crossbred population</b>	13
Jilun Meng, Manfred Mayer, Erika Wytrwat and Norbert Reinsch	
<b>B-spline basis functions for modelling marker effects in backcross experiments</b>	17
Manuela Reichelt, Manfred Mayer, Friedrich Teuscher and Norbert Reinsch	
<b>Stressing the diversity – characterization of male reproductive phenotype for two ‘high fertility’ outbred mouse lines (FL1 and FL2)</b>	21
Alexander Sobczak, Marten Michaelis, Martina Langhammer, Norbert Reinsch, Michaela F. Hartmann, Stefan A. Wudy, Jennifer Schoen and Joachim M. Weitzel	
<b>Effects of diets based on grass or corn silage with and without linseed supplementation on milk fatty acid profile and their relationship with methane emission in dairy cows</b>	25
Stefanie W. Engelke, Gürbüz Daş, Michael Demo, Armin Tuchscherer, Björn Kuhla and Cornelia C. Metges	
<b>Prokaryotic community analysis in Holstein dairy cows with different methane yield</b>	29
Anita Bielak, Tamsin Lyons, Evelyn Doyle, Armin Tuchscherer and Björn Kuhla	
<b>Quantification of the intermediary methionine and cysteine metabolism in weaned piglets fed different methionine isomers and DL-2-hydroxy-4-methylthiobutyrate</b>	31
Ilka Rasch, Björn Kuhla, Solvig Görs, Armin Tuchscherer and Cornelia C. Metges	

**Impact of dietary phosphorus on gene expression in intestinal and renal tissue and its implications on immune features of weaned piglets** 33

Franziska Just, Michael Oster, Kirsten Büsing, Eduard Murani, Siriluck Ponsuksili, Christian Polley, Brigitte Vollmar, Petra Wolf and Klaus Wimmers

**Gene expression of bovine ASIP and its receptors – potential effects on fat deposition in cattle** 37

Yinuo Liu, Elke Albrecht, Lisa Schering, Christa Kühn and Steffen Maak
