Introduction: A Bowl of Curds 3

Chapter One: Hearts and Minds, Livers and Stomachs 9
Greeks explore the soul, puzzle over the brain, and embrace the heart • Christians build a soul from ancient parts • Natural philosophy is born and anatomy becomes a sacred art • Vesalius discovers monkeys where men once stood • The Greeks are transformed, the soul questioned

Chapter Two: World Without Soul 25
Anatomy of the cosmos • Galileo’s new sky • Marin Mersenne makes the world a machine • Pierre Gassendi sanctifies the atom • Descartes’s anatomy of clear ideas • The human body as earthen machine • The soul climbs into its cockpit • An arrest • The perfect argument • The ice queen makes Descartes an offer • The captive leaves its prison
CONTENTS

Chapter Three: Make Motion Cease 43
Thomas Willis with the beasts of the field • Protestants and Puritans • The divine right of kings and the complaints of Parliament • God and Aristotle at Oxford • Servant and alchemist • Mystical medicine comes to England

Chapter Four: The Broken Heart of the Republic 57
Charles I stumbles toward war • Fever swings its scythe • Portrait of a physician as a young man • Willis fights for his king • Oxford dark and nasty • William Harvey under siege • Harvey at the school of Aristotle • Harvey finds the soul in the blood and says little about the brain • Harvey discovers the circle of blood • Oliver Cromwell tightens the noose • Surrender to madness

Chapter Five: Pisse-Prophets Among the Puritans 83
Thomas Willis returns • Medicine in the marketplace • Ferments dissolve the four humors • The Puritans demand an oath • The Oxford Experimental Philosophy Club • William Petty: From Thomas Hobbes's mouth to Thomas Willis's ear • Charles becomes a martyr to the people • England the republic • The madness of defeat • The Miraculous Case of Anne Greene, or A Clock Reset • William Petty measures the soul of a nation • Willis hosts an illegal church

Chapter Six: The Circle of Willis 117
William Harvey comes out of retirement • Thomas Willis searches for the agents of fever • The Experimental Philosophy Club fights for its life and for respectability • Hobbes as politician and neurologist • Robert Boyle gives shape to the New Science
Chapter Seven: Spirits of Blood, Spirits of Air
Willis stirs up a ferment of atoms • A crude dream of the brain • Cromwell uprooted • Robert Boyle and Robert Hooke pump away the soul • Christopher Wren, surgeon and injector • The return of the king

Chapter Eight: A Curious Quilted Ball
The Church of England meets its less than divine leader • Thomas Willis becomes hero of a nation • “I addicted myself to the opening of heads” • Willis discovers a doctrine of the nerves • The Royal Society

Chapter Nine: Convulsions
The lady with a migraine • Convulsions in the year of plague and fire

Chapter Ten: The Science of Brutes
From Oxford to London • Richard Lower transfuses blood into a madman • Lower and Hooke discover Willis’s mistake in the lungs of dogs • Willis constructs a doctrine of the soul • Madness explained • Thomas Willis avoids Hobbes’s fate

Chapter Eleven: The Neurologist Vanishes
A final book by Thomas Willis and a ridiculously sumptuous funeral • How John Locke buried his teacher • Robert Boyle sees the future before he dies and is not consoled

Chapter Twelve: The Soul’s Microscope
A long journey forward • The soul as information • Lightning in a nerve • The wisdom of the reflex • Neurologists read the brain • MRI and the module • The networked mind • The able animal soul • Emotion with reason, not versus • Steel syrup and Prozac • The self anatomized • The social brain • Morals and neurons • Lady Conway and Dr. Willis meet again
