| | | |
|------------------|---|----------|
| Chapter 1 | Olive Origins | 1 |
| 1.1 | A Cultural Legacy of Olive Trees and Olive Oil | 3 |
| 1.1.1 | An Olive Tree is "...a Covenant Between God and His People" | 4 |
| 1.1.2 | An Olive Tree is "...a Gift of the Goddess Athena" | 6 |
| 1.1.3 | Olive Oil is "...Liquid Gold" Homer ~800 BCE | 7 |
| 1.1.4 | Olive Oil is "...the Great Healer" Hippocrates ~400 BCE | 8 |
| 1.1.5 | An Olive Tree is "...the Chief of All Trees" Columella ~50 AD | 8 |
| 1.1.6 | Olive Oil is "...Common and Universal" Pliny ~70 AD | 9 |
| 1.1.7 | An Olive Oil is from a "...Blessed Tree." Qur'an 600 AD | 9 |
| 1.1.8 | An Olive Tree is the "Most Precious ... Gift of Heaven" T. Jefferson 1787 | 11 |
| 1.2 | Development of Olive Cultivation and Olive Oil Production | 11 |
| 1.3 | What is Unique About the Olive Tree? | 15 |
| 1.4 | Olive Oil Basic Chemistry: or Why Oil and Water Don't Mix | 18 |

| | | |
|------------------|---|-----------|
| 1.4.1 | Molecules are Key Players in Quality | 18 |
| 1.4.2 | The Most Important Molecule in Olive Oil: Triolein | 21 |
| | References | 25 |
| Chapter 2 | The Beginning of a Grove: Planting the Trees | 27 |
| 2.1 | Where Are Olives Grown? | 27 |
| 2.2 | The Olive Tree can Survive Extreme Conditions... | 28 |
| 2.3 | ... But Olives Thrive in Ideal Conditions | 29 |
| 2.3.1 | Air | 30 |
| 2.3.2 | Earth (Soil) | 32 |
| 2.3.3 | Water | 33 |
| 2.3.4 | Fire | 34 |
| 2.4 | A Chemical Insight into Tree Growth – Harnessing the Energy of the Sun | 34 |
| 2.4.1 | Chlorophyll | 35 |
| 2.4.2 | Carotenoids | 37 |
| 2.5 | The Personality of the Tree | 37 |
| 2.5.1 | Cultivars | 38 |
| 2.5.2 | How do the Cultivars Differ? | 39 |
| 2.5.3 | Complete Genome of Ancient Spanish Olive Tree | 41 |
| 2.5.4 | Confusion with Names | 43 |
| 2.6 | How Do We Get New Trees? | 44 |
| 2.6.1 | Mist Propagation | 44 |
| 2.6.2 | The Old Fashioned Way: Grafting | 45 |
| 2.7 | What's Next? | 47 |
| | References | 47 |
| Chapter 3 | The Tree Through the Year | 48 |
| 3.1 | What Do Olive Trees and Fruit Look Like in Nature? | 48 |
| 3.1.1 | What Does an Olive Tree Look Like? | 48 |
| 3.1.2 | What Does the Growing Olive Fruit Look Like? | 52 |
| 3.2 | The Olive Grove Through the Seasons | 52 |
| 3.2.1 | Winter | 55 |
| 3.2.2 | Spring | 61 |
| 3.2.3 | Summer | 67 |
| 3.2.4 | Fall | 70 |

| | |
|---|----|
| 3.3 The Bitter End: Where Does Oleuropein Come From? | 71 |
| 3.3.1 Key Starting Materials | 71 |
| 3.3.2 Oleuropein, a Secondary Metabolite | 74 |
| 3.3.3 Naturally Debittered Hurma Olives | 76 |
| 3.4 What's Next? | 77 |
| References | 77 |

Chapter 4 Season's End: Harvesting the Fruit 80

| | |
|---|-----|
| 4.1 When are Olives Harvested? | 81 |
| 4.2 Who Decides When to Harvest? | 82 |
| 4.2.1 What Does the Color of an Olive Tell You About Ripeness? | 82 |
| 4.2.2 Where Does the Color Come From? | 83 |
| 4.2.3 What Does Oil Content Tell Us About Harvest Timing? | 86 |
| 4.2.4 Where Does the Oil Content Come From? | 87 |
| 4.2.5 Some Practical (and Impractical) Concerns that Affect Harvesting | 91 |
| 4.3 How are the Olives Harvested? | 94 |
| 4.3.1 Hand Harvesting | 94 |
| 4.3.2 Mechanically Assisted Hand Harvesting | 98 |
| 4.3.3 Mechanical Harvesting | 99 |
| 4.4 What Can Go Wrong During Harvest? | 103 |
| 4.4.1 Mistreatment of Olives | 103 |
| 4.4.2 Infections of the Olives | 104 |
| 4.4.3 Impact on the Oil | 105 |
| 4.5 Harvest Celebrations | 105 |
| 4.6 Moving on to Processing | 106 |
| References | 107 |

Chapter 5 Processing: The Most Important Hour 109

| | |
|--|-----|
| 5.1 The Goals of Processing | 110 |
| 5.2 The Physical Story of Processing Olive Oil: The Olive Press | 112 |
| 5.2.1 Olive Presses Through History | 113 |
| 5.2.2 Modern Processing | 117 |
| 5.3 What's the Inside Story of Processing? | 130 |
| 5.3.1 What is the Underlying Cell Structure of the Olive Fruit? | 130 |
| 5.3.2 What's Going on During Processing? | 131 |

| | | |
|-------|---|-----|
| 5.3.3 | Developing the Flavor During Processing | 134 |
| 5.3.4 | Choosing Sides: Partition Between Oil and Water | 143 |
| 5.3.5 | Separation:What Ends Up in the Oil? | 146 |
| 5.4 | Why Produce Olive Oil That is Not Extra Virgin? | 146 |
| 5.4.1 | What Quality Oil is Actually Produced in the World? | 148 |
| 5.5 | Modern Refining | 148 |
| 5.5.1 | Treatment with Base | 148 |
| 5.5.2 | Decolorizing | 149 |
| 5.5.3 | Vacuum Distilling/Stripping | 149 |
| 5.5.4 | What Could Possibly Go Wrong? | 150 |
| 5.5.5 | Is Refined Olive Oil Any Good? | 150 |
| 5.5.6 | Pomace Oil | 150 |
| 5.6 | Conclusion | 152 |
| | References | 153 |

Chapter 6 Delivering Quality and Assuring Authenticity 154

| | | |
|-------|--|-----|
| 6.1 | Packaging | 155 |
| 6.1.1 | Inert Atmosphere Flush | 155 |
| 6.1.2 | Container Material | 156 |
| 6.2 | The Role of Oxygen and Light in Oil Decay | 158 |
| 6.2.1 | The Role of Antioxidants | 161 |
| 6.3 | What Can Humans Do to the Oil? | 161 |
| 6.4 | What Does “Authentic” Mean for Olive Oil? | 162 |
| 6.4.1 | Is This What I Thought I Was Getting? | 163 |
| 6.4.2 | Is This Olive Oil or Some Other Oil? | 163 |
| 6.4.3 | Does the Quality Match the Label? | 164 |
| 6.4.4 | Where Does the Olive Oil Come from? | 164 |
| 6.5 | How Do Chemists Know it is Olive Oil? | 165 |
| 6.5.1 | What is Found in Other Oils? | 165 |
| 6.5.2 | Best Tests for Identity: Fatty Acid Analysis | 167 |
| 6.5.3 | Best Tests for Identity: Steroid Analysis | 169 |
| 6.6 | How Do Chemists Know the Quality? | 170 |
| 6.6.1 | Best Tests for Quality: Free Fatty Acids (FFAs) | 172 |
| 6.6.2 | Best Tests for Quality: Diacylglycerol (DAG) Analysis for the Age of the Oil | 172 |
| 6.6.3 | Best Tests for Quality: Pyropheophytin (PPP) Analysis | 173 |

| | | |
|--------|---|-----|
| 6.6.4 | Best Tests for Quality: Peroxides Test for Oxidation | 175 |
| 6.6.5 | Best Tests for Quality: UV Absorption Tests for Rancidity | 176 |
| 6.6.6 | Another Test for Quality: Antioxidant Content | 178 |
| 6.6.7 | Feel Free to Put Your Oil in the Refrigerator – But It Won’t Tell You the Quality | 180 |
| 6.7 | How Do Chemists Know Where It’s from? | 180 |
| 6.7.1 | Does it Matter? | 181 |
| 6.7.2 | What are the Best Tests to Apply from a Chemist’s Point of View? | 181 |
| 6.7.3 | Best Tests for Origin: Multicomponent Analysis | 182 |
| 6.7.4 | Best Tests for Origin: DNA Tests | 182 |
| 6.7.5 | What Practices Affect Authenticity? | 183 |
| 6.7.6 | National and International Standards | 183 |
| 6.8 | Certifying Quality: Tests for Olive Oil | 185 |
| 6.9 | What the Label Tells You (and Doesn’t) | 186 |
| 6.9.1 | Claims of Quality | 186 |
| 6.9.2 | “Best by…” Date | 187 |
| 6.9.3 | Certifications | 188 |
| 6.9.4 | Origin, Cultivar, and Style | 188 |
| 6.9.5 | Cold Press? | 189 |
| 6.9.6 | Lab Results | 189 |
| 6.9.7 | Wide Variety of Labeling Styles | 190 |
| 6.10 | The Role of the Retailer | 190 |
| 6.11 | At the Final Destination | 191 |
| 6.11.1 | The Role of the Restaurateur | 191 |
| 6.11.2 | The Role of the Home Consumer | 191 |
| 6.11.3 | Shelf Life with Proper Storage | 192 |
| | References | 193 |

Chapter 7 Good Taste is Required 196

| | | |
|-------|--|-----|
| 7.1 | Why Not Use Chemical Tests for Taste? | 196 |
| 7.2 | How Do the Professionals Evaluate Olive Oil? | 200 |
| 7.2.1 | First: Eliminate Distractions | 201 |
| 7.2.2 | Prepare the Oils | 201 |
| 7.2.3 | Smell the Oil | 201 |
| 7.2.4 | Get the Sensation of the Oil in Your Mouth | 202 |

| | | |
|-------|--|-----|
| 7.2.5 | Clear Your Palate and Rest Between Tests | 203 |
| 7.2.6 | Collect the Score Sheets and Tally Them | 203 |
| 7.2.7 | Judging for Competitions | 204 |
| 7.3 | Sounds Like a Fun Game – Can We Play at Home? | 205 |
| 7.3.1 | Vicki’s Recommendations for Consumer Tasting of Olive Oil | 206 |
| 7.4 | What Are We All Looking for? | 207 |
| 7.4.1 | Aroma Notes | 208 |
| 7.5 | Evolution of Human Taste | 212 |
| 7.6 | Quick Primer on Making Molecular Sense of Your Five Senses | 213 |
| 7.6.1 | Vision | 214 |
| 7.6.2 | Smell | 216 |
| 7.6.3 | Taste | 219 |
| 7.6.4 | Touch | 225 |
| 7.6.5 | Sound | 225 |
| 7.7 | What Happens During Tasting | 226 |
| 7.8 | Olive Oil is the Perfect Mixer | 228 |
| | References | 228 |

Chapter 8 Health Effects: But is Olive Oil *Good* for You? 231

| | | |
|-------|--|-----|
| 8.1 | How do Our Bodies Use Fats and Oils? | 232 |
| 8.1.1 | Getting the Olive Oil to the Cells | 233 |
| 8.1.2 | What Happens to Fuel in Our Cells? | 236 |
| 8.1.3 | Comparing Fats to Other Fuels | 242 |
| 8.1.4 | Fatty Acids are Also Used to Make Cell Membranes | 244 |
| 8.1.5 | Hungry? Full? What, When, How, and Why of Appetite and Its Regulation | 247 |
| 8.1.6 | Regulation of Metabolism | 248 |
| 8.2 | How Real are the Health Benefits of Extra Virgin Olive Oil (EVOO)? | 249 |
| 8.2.1 | (At Least) Three Molecules in Extra Virgin Olive Oil (EVOO) that Keep Us Healthy | 254 |
| 8.2.2 | Nutrition’s Role in Prevention of Cardiovascular Disease (CVD) | 258 |
| 8.2.3 | Exactly How Does Olive Oil Help with Cardiovascular Disease (CVD)? | 261 |

| | | |
|-------|--|-----|
| 8.2.4 | Concerns About Olive Oil and Body Mass | 263 |
| 8.2.5 | Phenolics: Antioxidants that Fight Oxidative Stress | 264 |
| 8.2.6 | Oleocanthal: Fighting Inflammation, Alzheimer's Disease and Cancer | 266 |
| 8.3 | A World of Other Health Benefits | 273 |
| | References | 273 |

Chapter 9 1001 Uses for Olive Oil 278

| | | |
|-------|--|-----|
| 9.1 | In the Kitchen | 279 |
| 9.1.1 | Cooking with Flavored Oils | 283 |
| 9.1.2 | Safe Cooking with EVOO – Keep it Below the Smoke Point | 284 |
| 9.1.3 | Olive Oil as Survival Rations | 288 |
| 9.1.4 | Olive Oil as a Food Preservative | 289 |
| 9.2 | In the Dark | 290 |
| 9.3 | In the Medicine Cabinet | 291 |
| 9.4 | In the Spa | 294 |
| 9.4.1 | As a Body Cleanser and Soap | 294 |
| 9.4.2 | As a Skin Cream and Hair Treatment | 296 |
| 9.4.3 | As a Base for Perfume | 297 |
| 9.5 | On the Personal Side | 297 |
| 9.6 | On the Athletic Fields | 298 |
| 9.7 | In Our Most Holy Places | 301 |
| 9.7.1 | Ritual Anointing | 301 |
| 9.7.2 | At Birth and in the First Few Months... | 301 |
| 9.7.3 | At Death | 302 |
| 9.8 | Summary | 304 |
| | References | 304 |

Chapter 10 Sustainability 307

| | | |
|--------|--|-----|
| 10.1 | About the Meaning of Sustainability | 309 |
| 10.2 | Olive Oil is Made by People for People | 310 |
| 10.2.1 | Sustaining the Business | 310 |
| 10.2.2 | Sustaining the Economy | 310 |
| 10.2.3 | Sustaining the Environment | 310 |
| 10.2.4 | Sustaining Knowledge and Passion | 310 |
| 10.2.5 | Sustaining Trust | 311 |
| 10.2.6 | Sustaining Cultural Heritage | 312 |
| 10.2.7 | Sustaining Innovation | 314 |
| 10.2.8 | Sustaining Health | 316 |

| | | |
|--------|---|------------|
| 10.3 | Laws of Nature | 317 |
| 10.3.1 | Carbon Footprint of Olive Oil | 317 |
| 10.4 | Life Cycle Analysis | 318 |
| 10.4.1 | The Impact of Global Warming on Olive Production | 321 |
| 10.5 | A Final Word | 321 |
| | References | 322 |
