Part I Overview and Theoretical Perspectives

Chapter 1 The Development of Spatial Learning Strategies

CHARLES D. HOLLEY
AND DONALD F. DANSEREAU

Introduction	3
Semantic Memory Structures	4
Semantic Memory Processes	6
Types of Nonlinear Representations Explored with Learners	9
Three Unconstrained Representational Systems	10
Summary and Overview	13
References	14

Chapter 2 A Theoretical Framework for Spatial Learning Strategies

JOOST A. BREUKER

What is Special about Spatial?	21
Knowledge and Spatial Representation	23
Task Analysis: A Competence Model	26
Process of Text Understanding	33
Incomplete Understanding and Reasoning	37
Spatial Learning Strategies	38
Summary	42
References	43

Chapter 3 The Role of Spatial Strategies in Processing and Remembering Text: A Cognitive–Information-Processing Analysis

ERNEST T. GOETZ

Studying Text: Historical Perspective on the Reader and Research	47
Comprehending and Remembering Text: A Selective Review	51
Analysis of Processing Promoted or Required by Spatial Strategies	63

Evaluation of Spatial Strategies for Studying Text	65
Directions for the Future	69
References	71

Part II Spatial Strategies: Techniques and Evidence

Chapter 4 Networking: The Technique and the Empirical Evidence

CHARLES D. HOLLEY
AND DONALD F. DANSEREAU

Node–Arc Representations of Long-Term Memory	81
Networking as a Learning Strategy	84
Training the Networking Technique	87
Empirical Studies of Networking	89
Other Applications and Associated Techniques	99
Summary	105
References	106

Chapter 5 Networking: Application with Hearing-Impaired Students

GARY LONG AND STEPHEN ALDERSLEY

Introduction	109
Networking: Rationale	110
Learning versus Comprehending	111
Networking and Reading Comprehension	112
Networking and Reading Comprehension: A Revised Approach	117
Summary	122
References	123

Chapter 6 Concept Structuring: The Technique and Empirical Evidence

JOSEPH L. VAUGHAN

Introduction	127
Anatomy of the Problem	128
ConStruct Procedure	130
Empirical Evidence	134
Instructional Suggestions	142
Conclusion	146
References	146

Chapter 7 Schematizing: Technique and Applications

MARCEL J. A. MIRANDE

Schematizing: Background	149
The Technique of Schematizing	150
The Study Skills Course: Studying via Schematizing	154
Additional Educational Applications of Schematizing	156
The Effectiveness of Schematization: A Demonstration	158
Discussion	160
References	160

Chapter 8 Schematizing: The Empirical Evidence

BERT CAMSTRA AND JAN VAN BRUGGEN

Learning by Schematizing: An Overview	163
The Series of Studies	165
Findings	171
Discussion	183
References	186

Chapter 9 Mapping: Representing Informative Text DiagrammaticallyBONNIE B. ARMBRUSTER
AND THOMAS H. ANDERSON

Introduction	189
The Proposition	195
Text Units	196
Text Frames	201
Strategies for Mapping	206
Applications of Mapping	208
References	208

Part III Related Applications of Spatial Strategies**Chapter 10 Mapping as a Testing and Diagnostic Device**

JOHN R. SURBER

Diagnosis of Learning through Test Errors	213
Inadequacies of Traditional Test Formats	214
Text Maps and Map Tests	216

Research on Map Tests	221
Technical Characteristics of Map Tests	226
Tentative Conclusions	231
References	232
Chapter 11 The Representation of Knowledge: Curricular and Instructional Implications for Science Teaching	
JAMES H. STEWART	
Introduction	235
Knowledge Representation and Science Curricula	236
Conceptual Knowledge Representation	243
Procedural Knowledge Representation	244
Curricular Implications for Knowledge Representation	245
Surveying Discipline Content	246
Selecting and Organizing Content for Instruction	246
Related Uses of Network Representations in Science Education	249
Conclusion	251
References	252
Chapter 12 Evolving a Description of Text through Mapping	
DIANE L. SCHALLERT, SARAH L. ULERICK, AND ROBERT J. TIERNEY	
Problems in the Analysis of Informative Discourse	255
Relational Mapping	258
Problems with Relational Mapping	271
Potential of Relational Mapping	272
References	273
Chapter 13 Graphic Postorganizers: A Spatial Learning Strategy	
RICHARD F. BARRON AND ROBERT M. SCHWARTZ	
Introduction	275
An Operational Definition	276
Historical Perspective	278
Research Results	280
Discussion	284
Conclusion	287

Part IV Spatial Strategies: A Critique

Chapter 14 Spatial Strategies: Implications for Applied Research

CLAIRE E. WEINSTEIN

Introduction	293
Categories of Learning Strategies	294
Where Do Spatial Learning Strategies Fit in the Categorical Scheme?	297
General Methodological Issues Involved in Conducting Spatial-Learning-Strategies Research	299
References	300

Chapter 15 Spatial Strategies: Critique and Educational Implications

W. J. McKEACHIE

Spatial Strategies: Personal Observations	301
Why Do Spatial Strategies Work? What Are the Key Features?	303
Teaching Spatial Strategies	304
Who Benefits from Using Spatial Strategies?	306
What Kinds of Learning Benefit from Spatial Strategies?	307
For What Kinds of Material Is Spatial Structuring Most Useful?	307
What Are the Costs of a Spatial Strategy?	308
Uses of Spatial Strategies by Teachers	309
References	312
